PRASADI SOUVENIR
2071
PRASADI SOUVENIR 2071

EDITORIAL

Prasadi Souvenir 2071, the annual publication of Prasadi Academy presents, students creativities, feelings, memories and nostalgia that we had together for two academic sessions with friends and its members. This book is presented to the reader as a true reflection of Prasadi and the Prasadians.

We are very proud to announce that we are Prasadian, where care is culture. It is an academia which helps us, inspire us and encourage us to achieve our goals. It is always ready to provide us a platform to explore ourselves. We heartily express our gratitude to the academy for being with us all the time and transforming us into incredible assets.

We would like to acknowledge the support from all teachers, staff, and the management for their help. At the same time, we express our earnest gratefulness to respected chief Mr. Bikram Rai for his support and instigation to shape the Souvenir in this form. We highly appreciate comments, critical appreciations and suggestions from our valued readers.

MESSAGE

It is a matter of great pleasure to learn that the Prasadi Academy Higher Secondary School, Manbhawan, Lalitpur is bringing out a PRASADI SOUVENIR 2071 on 16th years of its establishment.

Education is the key for progress of humankind. It makes people more civilized and cultured. It helps to create an ideal society. The development process of each sector of nation is guided by proper education. Hence, we need to make our education system qualitative, competitive, scientific and practical for making our society more prosperous and developed. Government is always effortful to make education easily accessible, cost effective, qualitative, modern, employment oriented and practical to all citizens.

The contributions made by founders, social activists and education to establish and smoothly operate this prestigious academy with realization of quality education are commendable. Students, who began early education at this academy and graduated from here, have been contributing in various spheres. I appreciate the contributions of founder, board members, teachers and other staffs, parents and students for their continuous effort, support and devotion.

I am confident that the Souvenir, published on 16th years of installation will incorporate thoughtful, analytical, creative articles from the students. It will be useful for those who intend to know the academic status of the PRASADI ACADEMY at glance.

I extend my cordial greetings to the PRASADI family and wish the publication all success.

Jaya Nepal!

14th September 2014

Sushil Koirala
It is my great pleasure to learn that Prasadi Academy Higher Secondary School is publishing its Souvenir entailing students’ academic and creative writings. It is the Souvenir that allows students to unfold their suppressed emotions and impulses too.

I am mindful of the significance of education that provides inner light to human beings and helps in human becoming. Life without education is like that of flower without incense. It has been invested a lot on education by government and private sectors and focused on result only. Knowledge gets impaired if there is no moral behavior and so I am really glad to know that care is culture at Prasadi Academy and Prasadians are the expression of man’s spiritual nature in the realm of material existence. Education without moral values cannot drive society in the right direction and this should be the concern of all schools run whether in private public sectors.

I wish you all the best.

I still remember the 1st Shrawan, 2069, the first day of my life in ‘Prasadi’. I was a little nervous for not finding my name in the notice board. Suddenly I found my name in section list G6. When I entered the class I was the first to reach in the class. Then I met ‘Rashmi’ who was very sweet and kind to me. Then as the day passed I made many friends and among them Lasata, Narbada and Rashmi are my besties. The days in XI passed by giving exams and maintaining the results. But when I was promoted to grade XII I started enjoying college life. In grade XII I was in M4 my new section. I was very happy to see my friends from G6. I also made many new friends. For me M4 was the best section with many toppers as well as comedians. In two benches with me, Lasata, Rashmi, Chahana, Pratibha and Nikita used to make lots of fun. I remember the moment when Manisha and Pragya used to make me and Lasata laugh whole period in the chemistry lab. As the days passed, now it is the time to say goodbye to “Prasadi”.

In these two years I have gained lots of memories which will always remain in core of my heart. I will remember the time that I spent with my friends. I will miss the wild dance in our picnic in Tribhuwan Park. I will also miss all my teachers especially SBH sir and GT sir. I will miss eating “Pani Puri” with Rashmi and Narbada while going home. And how can I forget the jokes of Akhilesh and Abinash that used to make M4 laugh. Writing in two paragraphs is not sufficient to write the memories that I have gained in “Prasadi”. So I would like to thank “Prasadi” for making my college life full of happiness and enjoyment. At last, I love you friends; all my teachers and “Prasadi Academy”.

Anamika Yadav
XII Science M4
Being a teenager is hard as there are so many challenges and opportunities that we should rise to the occasion to, so many dreams ride upon us and there are many fates relying upon us. We live such a routine and regular life, we have forgotten to respect each other. Moreover, we have also forgotten to respect nature. We are in such a realm that we just have memories to hold on to. Memories vivid, pictorial and sweet have been given to us from many sources. A source very sweet, funny and life changing was given to us by Prasadi. So first and foremost the series of thanks goes to Prasadi and all the members related to it. All of the staffs, teachers have a part to take in giving us the memories. Prasadi has changed our view of life and the way we live it in a very positive way and being a Prasadian is a very honoring asset. Prasadi taught us to have punctuality, discipline and to complete tasks taken at hand. We have been very proud to call ourselves Prasadians. It has taught us or at least me to live my life in such a way to aspire others too, to become great men in the future. The lessons taught in Prasadi by the teachers, the chief sir will be very valuable throughout our life. So, thank you Prasadi for all the memories.

Anish Rai
XII Science M9
The first day when I entered the Prasadi Academy, I found the scenario quite different from the school where I had studied. The hair checking and bag checking in the very first week led me be into a dilemma whether it was appropriate to be a Prasadian or to go for meditation in a temple. But within a couple of weeks, my mentality got totally changed and now I can boast that Prasadi is the best college and I am quite lucky to be a part of it.

The educational environment, dedication of teachers and the commitment of chief sir are unique and impressive. I think when you are a Prasadian, you can cherish your every single second that you spend in the college and all these memories will be in heart forever. How can anyone forget all those funny and ever inspiring dialogues of teachers? (Hope it is taken lightly)

SBH Sir: Ghass haru. I will cut your ........ neck.
BCG Sir: Yesterday, Yesterday ........... Idiot!
YKG Sir: Talai Garna aaudaina! Ullu the great.
RKS Sir: Pheri Pheri Pheri ........... Chupne! Kasto Latokhosera Cha Yo.
SKS Sir: Keep quiet. Don’t speak. Only listen (When no one is speaking)
RPY Sir: Observe it as well as absorb it.
GT Sir: Ha ha ha... Aani K ta! Tyo aauta hunxa ni........
SSA maam: “Padha hai limiharu”.
SK maam: K ho na Padhne. Uh, Uh
SJ maam: In a crying mode: (Katti halla gar Ya)

RRG Sir: Ok ........ You come forward........... So ..... Ginger bread House......
KBP Sir: Aeh halla na gar. Yata sun

The way of teaching chemistry of SBH and BCG sir was fabulous and outstanding. They are the best teachers that I had ever found. While the time passed by, I made many friends. The section G6 was quite romantic. Subhan Manandhar, Dipendra Khadka, Aakash Shrestha, Shubham Adhikari, Sudip Gurung and many others were my best friends and M2 was funny from the very first day. There too I made many friends. Pukar, Sayog, Raju, Madan, Sohail, Sahl, Sumit, Krishna, Miraj were very close to me. The picnic that we attended from Prasadi was rocking especially the dance.

These all beautiful moments will always remain with me. Success does not lie in falling down and making mistakes. It lies in the fact that how many you try to rise up after falling. Lastly I want to wish best of luck to everyone for their bright future and want to thank and salute Prasadi Academy sincerely.

Moments in Prasadi

After entering Prasadi Academy I had not realized that this college would also be so exciting and entertaining. The rumour in market was that this college was so strict, there were no any extra activities, the teachers were also not so friendly with students. But we found Prasadi like a coconut very hard from outside but very soft from inside. In the beginning, we found the college so much monotonous and boring but when the days passed, every single moment in Prasadi Academy was exciting and joyful. Cutting hair after every fortnight, doing homework till late at night, laughing in SBH sir’s class, practicing numerical in RPY sir class, etc all these moments were last enjoying. And the unforgettable dialogue of some teachers such as RKS Sir: Padhana Padha………
RPY Sir: Last bench connected or not?
SBH Sir: Carbon ko valency tamatar ko vhau ho…?
BPP Sir: Practice otherwise I will give u a round kick.
All these moments are glorious, unforgettable and everlasting.

WARM MEMORIES

Journey of two years,
Eyes full of tear,
Assurance of no fears,
Wishing all friends to be near.

Smelled spring; days with you,
Full of joy and excitement,
Smile on face at present days,
Pierce heart thousand times,
Spit for the time’s face,
That shattered my energetic days.

With you, days were game,
Your disappearance leads to tangle,
Oh, dear Prasadi! we were a family,
Clock washed our smiles,
Humiliation achieved from time,
Enthusiasm shattered but
consideration alive,
Our relation is never to break.

Till the last date,
Your fragrance was smelled,
That classroom, that environment,
Those days, those friends,
You provided, never going to forget,
Forget myself but not you,
Being embedded in the heart,
Take a oath, you feel proud of me.

Nabin Bhattarai
XII Science M8
After I passed my SLC there were several ways to go through in my new journey. But I had to take a trust worthily and safe way that would secure and lead my future. And finally, it was Prasadi college where my heading stopped and turned up. Being a part of Prasadi is another unforgettable moment of life. I feel proud to be the member of Prasadi because I got opportunities to have a number of friends and many teachers as my guides. Besides it guided me to lead the life in successful way. It taught me how to be disciplined and honest in life because “Honesty with hard-working is the key to success in life”. I am really impressed and fully satisfied in Prasadi with the way it guides students and provides various opportunities to decorate the skills of students. Moreover, it provides the encouragement and confidence to students to fight in the field of competition. I am also one of the luckiest ones to get opportunity to explore my potentiality from Prasadi. Initially, I was a bit confused, whether I would really get success in my studies as it was new and challenging one. There were many questions with full of doubt bouncing in my mind but the teachers here are really co-operative and helpful who guided me very well. They sometimes threatened me, scolded me, loved me, patted on my head, and even made fun of me. I really enjoyed their teaching styles and became more flexible with students so that all students could ask questions without any hesitation.

Likewise, in the field of Prasadi I met many friends who really trusted me, guided me and helped me in the moments when I was in fear to take the steps ahead. Among my friends Aavas and Sudip were always there to support me, guide me and fill the gap of loneliness. We were always there in same section. We used to share our ideas, views and even homework. Moreover, the picnic at Tribhuvan Park was really unforgettable moment of my life where I got opportunity to be close with teachers, friends and obviously to dance. Anyway now it has become a past for me but the opportunities provided by Prasadi are really unforgettable, no words to describe it. It is really hard to be apart from Prasadi but I have to go ahead because my destiny somewhere is waiting for me and I have to go.

Lastly, I do not want to say Good–Bye to Prasadi. Hats off to my Prasadi for making each day of mine so special and so much memorable.

‘PROUD TO BE A PRASADIAN’

‘THANK YOU PRASADI’

I still remember the beginning, 
Which was hard to move with the rules of Prasadi, 
But now I realize they were all for the sake, 
Of our improvement in life.

How could I be the great, 
Without the help of chief sir and teachers’ guidance? 
Truly, they are the ones in Prasadi, 
Who teach us to believe in ourselves.

Yes, some situations I faced in Prasadi, 
Were really tough, 
But I question myself, 
“Without such hard times, the life in Prasadi, 
Would really be fun?”

So, I want to thank Prasadi a lot, 
For the lessons of discipline you taught, 
Now this girl, who was nervous and shy, 
Will come out being courageous and 
Will definitely fly... 
Thank you Prasadi with full of love!

Tapasya Rai 
XII Science M5
Month after month
We face a re-test,
We call it a real test
For knowledge it is the best.
Where is the joy?
Where is the rest?
One should find the man
Who systematized the re-test
Day after day
Months pass away,
Always surrounded by the books
With little time to play,
And then the re-test starts
And our happiness fades away.
Few minutes for distributing questions
Immediately starts the tension,
And then searching for the solutions
There are no any options,
Stars start twinkling
Tension is blooming
Answers are all that we’re searching
Just we’re trying for cheating

Sanjay is asking, Prajin is shouting with angle,
Rikesh and Abinash trying to remember
Rashik and Digvijay are scolding,
Akhilesh for he couldn’t answer through
There’s no question that I can do,
I forget the simple definition too.
Cruelty of the teacher without shine
Meaningless birds on the line,
Dancing and singing on the trouble of mine
Teasing me for I lost the shine,
Pale color on the face appeared
There’s where our smiles disappeared,
With random answers we all are worried
Wishing hard if we were stupid,
The bell rings and the test is over
Saying “what a stupid paper it was.”
We all pray to God
Let all this go down the drain,
I’m sure all will say
The Re –test is here again.

Birendra Shah
XII Sci. M4
I feel that I just entered the Prasadi Academy yesterday, but now, I am at the end of my two years studies. I spent these two years, without being absent in Prasadi Academy. Before I had joined the Prasadi academy, my heart was beating with fear and I was feeling nervous about, how to adjust myself in the new environment. I used to hear that, “The Prasadi is one of the most strict colleges and no one could break the rules and regulations.”

I still remember my first day, in Prasadi. I was in room 9, where there were lots of new faces which made me nervous. I was also having fear, whether I would be able to follow the rules and regulations or not. But as the time passed, everything turned into normal. I made lots of friends like Bijen, Abiral, Avash, Dipendra, Rosan, Ramesh, Rameshor, Shambhu, Fuzin, Mausam, Rohit, Sanjay, Subodh, Rabin, Sumit, Prabin, Suraj, Lujal, Sandesh, Supriya, Sanima, Arpana, Aausha etc.

In grade XI, especially in Economics period Nagendra sir used to call me to the front of the class to describe the topic. Then I used to convert the topic into joke and make the class laugh. We had lots of fun in grade XI. In this way, the time of grade XI passed slowly and finally, the time came for us to join in the grade XII. In grade XII, I had to miss lots of friends because we were separated into different sections. In grade XII, I made new friends. I really had a lot of fun. I made more new friends like Sasanka, Utsav, Abin, Kushal, Kaushal, Saurav, Biken, Anish, Amit, Rojesh, Prasanna, Yogesh, Sampurna, Jay, Ishwor, Anjali and many more. We had a lot of fun on grade XII.

All the teachers of grade XII were cool. The first period used to be the most unforgettable period. It was the period of Pankaj sir. His class can be considered as one of the best classes because he used to crack jokes and the most important thing that I like about him was that, he used to link the chapter with the present technology. He used to describe Samsung galaxy and many other latest technology. I wonder sometimes how he can manage his time to do all this things. He knows each and every information about the latest technology. And the second period was of Manju madam, where we could get the environment of learning things. She used to link and describe the people’s life and benefit of study. I cannot forget her beautiful smile. And the period of RKS sir, his favourite dialogue “Haeena”. In each and every sentence, he used to finish it up by saying “Haeena”. The forth period of Rama madam. I think she is the best of the best. Every time, she used to encourage us to study more and try to score high in business studies. And the last period was of Accountancy sir. Oh! How can I forget the Ratna Man Dangol sir’s class which can be considered as “Golden opportunity period”? I am great fan of him. I like his way of teaching. He makes jokes in the class. And at last, I will never forget the entry of our respected Chief sir in the class by saying, ‘Hi! Class, Good morning’.

These, two years passed away like a two days. But now, I am leaving this place by getting knowledge, discipline and with the full of unforgettable memories. I want to thank all my friends, teachers and Prasadi academy for the good and valuable support for these two years.

Prashant Magar
XII Mgmt. N1
Life is how, you perceive it

Life is the series of gathering happiness,
So cherish the small pleasures,
Follow some rules, forgive quickly, believe,
Slowly, love truly, laugh loudly and,
Try to be a considerable person,
Enjoy each and every moment as,
The last one and
Never avoid anything that makes you smile.
Don’t waste it thinking for the past !
Live for the present and think for the future,
Past gives nothing but it may take many things,
So handle the present carefully and
Pretend to be renowned in future.
It’s the message for you all
Not to fear for your bright future,
If you are in Prasadi, where care is culture……
“Wonna experience life join it and
Upgrade your career to the peak.”
“Proud to be a Prasadian”.

Pratibha Mahato
XII Science M5
Finally the awaited hectic time table came to a halt at least for three days. Forty-two enthusiastic and inquisitive students along with two teachers had gathered at the Prasadi Academy premises with their luggage all ready for the journey. The students bid their farewell to their parents and guardians at 7:00 am for the departure to Chitwan.

It took around five hours to reach Chitwan. After the check-in at Rhino resort, the tired and hungry students enjoyed their lunch to the fullest. Then, many events such as Jungle safari, sightseeing, campfire etc were enjoyed by the students that day. The next day after the lunch at 1:00 pm, the students were ready to travel to Pokhara. The excitement accelerated when they reached Pokhara. After reaching Pokhara, they went to Begnas taal for looking at the beautiful reflection of mountains in the pond. The next morning, they went to Sarankot hill to observe the sunrise and visited Bindabaseni temple then went to hotel River Park for lunch. After few minutes of rest, the students went to Mahendra cave, Davis fall, Bat cave, Mountain museum, Seti River etc.

After visiting these places they again came back to the hotel and get ready for the ‘Pokhara Street Festival’. The students were very lucky because they would have the experience of the very rare festival that was conducted only once in a year. Sabin Rai’s thrilling concert during the festival was the most exciting event of all. The next day, the students did cycling on the lakeside and also did boating in Phewa taal. Then they headed to Kathmandu on the same day. Once the students were given their seats, the real time of relaxation started with their singing, talking, eating and telling jokes, this time we felt as if ‘we were together in a big family’. The bus reached the premises of Prasadi academy at around 5:30 pm where the parents were eagerly waiting to hug their children after four days. From this tour, the students learned the only reason why people hold on to memories is because they don’t change when everything else does. The memory of the trip to Chitwan and Pokhara remains as a great treasure for the students.

XII Sci. M1
I AM A PRASDIAN

Everyone is especial on its own. Some explores it early whereas some can’t treasure out at their last breaths also. But being a Prasadian, you get the correct path and guidance to recognize your speciality. In fact, you can know and understand the actual you. Not only the neighbors, society, relatives, friends, school, your parents and all the people who know you but you too feel and comprehend- “you are not nobody but somebody”. However, there are also some moments when your head drops down, your radiance all out and darkest black spreads as the load shedding during the night times. There too comes a time when you find yourself in about more than 500 mass who too are the cream species. You feel nobody at that time. You can’t get into what you like. You know endeavors to getting into various clubs: forms, selection, group discussion, interview, selection and finally a member. Many times you’ve to go through the downs though you’ve expected the ladders to lead you up. Likewise, in academic perspective, you give your best but also you result to disappointment because rest of others’ best is better than your best. But Prasadi do possess the ability to hold our head high and give next try. By the time, being a Prasadian, we too learn that success is not final, failure is not a final, it is the courage to continue that counts. Finally, I have a velar feeling of positivity within me because I’m a Prasadian.

Anisha Pandey
XII Sci. M3

RECALLING MY MEMORIES...

As I walked down the lane of memory path, it crossed my mind, wow! These two years went just like summer breeze leaving the chill in face. These 2 years passed in blink of eye leaving me with amazing store of mesmerizing memories that I will be recalling and laughing about. This amazingly short two years gave me the share of never ending happiness. Unlimited conversation, funny jokes were really adorable ones. The rush to complete assignment in time kept me awake till late night. Slip toungue of teachers during lecture were really funny. Dance alike moves of Pankaj sir will be striking in my mind in days to come. I’m thankful to Prasadi Academy for giving an opportunity to meet some of the amazing friends who made my journey in this Academy worth remembering. Remembering the moments when I and one of my friend tried to prepare cost statement of section N3 accumulating all those fixed, variable cost and other during economics classes brings smile in face. Humming songs during lectures, discussing lyrics of song were really good ones. These 2 years have passed adding the numbers in my age that aspired me in whole new level.

And at last, I appreciate and thank all the people who were involved in these two years of my wonderful journey in Prasadi.

Shrijana Budha Magar
XII Mgmt. N3
I still remember that day very clearly. When I had made up my mind to join Prasadi college, there were lots of comments, queries by other people—would you be able to do homework regularly? How would you adjust yourself in such a strict environment? How would you tolerate the teachers? It’s true that I too felt very guilty in the initial days of college for joining it. I wondered how I would tolerate the college for two years. From the very first day, I used to imagine how the remaining days would be. I thought life would be very hard. But the situation was not same. Few days later I found myself enjoying my college time with friends and teachers. Now I feel and have realized the real pleasure of being part of Prasadi family.

Prasadi Academy has taught me how to live with dignity. I may not remember countless time that my teachers encouraged me and stood by my side but I do remember each time that I felt defeated—the teachers would support me to fight against each obstacle of life. The journey of two years in Prasadi has passed very quickly like a blink of eye. Within this short journey I have met many precious friends. Similarly, I really feel blessed to be a student of honored teachers. Some teachers may have scolded me and let me down. But it is almost negligible as I have had many cherishable moments to overcome the bad times.

Today, when I have only few days to study in my college, a strange pain deep inside troubles me. I wish today would be my first day to college. Silent tears cover my eyes when I think about the company of my friends and teachers. Humorous manners of the teachers in the class even make me laugh. Today I have the courage to face the difficulties and I have determination to touch the moon.

Thanks to Prasadi Academy

Rojina Poudel
XII Mgmt. N2
Though the two years of my enrollment at Prasadi have passed, but still they are alive in the depth of my heart. If my brain had limited strong capacity then it would have been overwritten.

People say that relationships are made in heaven. It sounds true but there’s one relationship that is chosen by us and made in our hearts friendship. May be this is the reason why friends are so important and special to us. A person is lucky if he/she gets one true friend in their life but in my case I find myself very lucky to have many true friends.

I still remember the moments of being a Prasadian. I still remember my days in Prasadi. I was in day shift science faculty. I learnt so many things about friendship. Love, life. May be that’s why I love Prasadi and feel proud to be a Prasadian. Well, I can’t forget to mention my darlings, Lasata (lassi), Anamika, Chahana (Buhari), Muskaan (Musa), Ranjana, Yunish, Kabita, Meryl, Samishya, Rimsha, Rinku, Sakshi, Manisha, Dipendra, Aatish, Prasil, Ojaswi, Dipesh, Avinash, Rikesh, Smita, Pragya, Nikita, Akhilesh. You guys made my life worthy in Prasadi. I have shared my one of the best memories to all. Yeah, I remember those all teachers, who were very kind. I enjoyed their lectures. The most important thing about them was their motivating skill. Dear teachers, I respect you from the core of my heart, BCG, RK, RL, JPY, GT, you were very supportive.

My life is full of ups and downs; but it is fun living it. People say that you won’t understand the importance of the things unless you lose it. I am about to lose you (Prasadi) and maybe that’s why I am getting restless. I hope that you won’t ever forget me and the time which we spent together. I will miss you all.

It’s time to say good bye to Prasadi. To sum up my experiences of the two year in one single page is really difficult and its too limited to unleash my feelings and emotions. I heartily salute Prasadi for making me someone from no one. Though, I had a good time in Prasadi, I wish I could stick with it. I could never ever forget the wonderful moments of college life. The time is near to change us from Prasadian to ex-Prasadian. But I love Prasadi and I am proud to be a Prasadian and will forever be.

Rashmi Yadav
XII Sci. M4
FAREWELL TO PRASADI...

While trying to gather all those moments which I spent being a part of Prasadi Academy, I came to know that those moments have become most joyous and imperishable memories of my life. Prasadi gave me lot more things than knowledge and most important of all was it made me realize the strength of hard work and devotion. “Knowledge is only then worthful, when it becomes an inspiration and changes into an experience”. Prasadi has taught me this and this certainly would always encourage me to implement the education I got, to give best out of myself so that I would be able to get best out of others.

How can I forget the most amazing and all inspiring teachers and lovely friends I met in Prasadi. I have no words to express my gratitude towards my friends because they were the one who helped me enjoy studying and cherished every moments in the class. At that time, we didn’t realize we were making memories, we just knew that we were having fun. Now those moments we’d shared have become lifetime memories for us. Thank you guys for making these two years unforgettable days of my life. Also thanks to Prasadi for all the awesome moments it gave me and making me a better person. My best regards to this institution and lastly would like to say that I am “proud to be Prasadian.”

Ayasha Jha
XII Sci. M4

I LOVE PRASADI

Two years of time in Prasadi Passed so fast,
We, friends, did many ‘masti’
And had a blast
It feels like yesterday
We got admitted here,
Now the time has come to say
‘Good bye’, eyes with full of tear.
I’m certain to miss
Every moment I spent here,
The dance, jokes, chat and
Fight we had all at together.
The memories are precious
So are the friends,
I’ll never forget your company
Even it seems to be an end
The things that’ll be memorable
Are the classes at every teachers,
And I must mention
The inspiring lecture and
The photo session with our chief sir
Though the environment
You’ll find here to be strict,
Let me share this
You’ll have no alternative to accept it
So, enjoy your every time
Although it may be hard,
Remembering this at last
You’ll definitely enjoy
With a lot of fun you had.
Yes I’m a Prasadian,
And of course I’m proud to be
Finally, from my inner part of the heart
I won’t miss to say, ‘I love Prasadi!’

PERKS OF BEING A PRASADIAN

Shrawan 1st 2069
The day we entered Prasadi
Falgun 30, 2070
The day we leave Prasadi
As days are nearing for us to depart
Our hearts beat faster with each coming day
Yesterday we ignored to be a Prasadian
Today, we fear being ex-Prasadian
Nevertheless we don’t go empty- handed
Rich in memories we all are
Classes of 50 minutes & a break of 20 minutes
That never made time for us to exterminate
Teachers and friends we got here the best

It was time that we left the rest
Lab works were interesting
Home works increased class after another
Numerical and calculations, made us
Perceive as a poet
Day and night we worked hard
Excellent result was our fruit at last
Bag checking and book checking, we couldn’t shun
But all these rules and restrictions
Was what sowed seed of honesty
So heartfelt gratitude to Prasadi
For polishing our character with modesty
We have truly enjoyed
The perks of being a Prasadian.

Deergha Shakya/Meryl Shakya

UNDER THE SHADOW OF PRASADI

First day I stepped in
Wind blew with chillness into my soul
With blessings and best wishes
Prasadi filled my heart out of the null
Not even a single leaf and pebble
Missed me to welcome with ‘Hello’
And I was with my hopes of adventure
That I had been keeping under my pillow
Which were of I don’t know exactly
But might be of dozens of kilo

My journey started from heavenly entry
Then I got into a beautiful country
Full of big, broad and evergreen dense tree
Even the perfection was doing its mimicry
I was surprised
‘Oh my God’ how it could be
But do not get confused because
It is Prasadi
Where the diamond and pearl ask for shining
And get into the world of brightness
Never mind friends if you are not bright
And you don’t know the way to the light
Just come to Prasadi to strengthen your base
Then you will be kissing paramount of success
Pay your effort and develop your skills
No one can stop you, not even door of steels
Let your creativity expose so do not seal
Come on, get up you can’t just lay
It’s your confidence that you should pay
“I can and I must” it’s what you should say
Come and join please do not delay
Explore yourself, because it’s your day.

GOODBYES...

Now the time has come to bid goodbye to Prasadi and family.

Now it is the time to departure from one journey to another. Two years journey seemed very short, enjoyed laughed, shouted, learned moved over grew up with the understanding of responsibilities and values of being Prasadian.

I still remember the first day, where I was little dazed with the norms values and prohibition of Prasadi, but now we have pleasant life because of it, I came here with a hope that I will meet some good friends but I didn’t know I would meet Nicky and Jaya as my best friends, nevertheless they were unbiological sisters to me. Doesn’t matter what it was, learning, teaching, funs happiness, sorrows, we were together.

As time passed, section changed, everything has changed, everything new and strange but luckily I met Anushka, Dipshikha, Sanju, Kripa, Ranjita we enjoyed, knew each other, and became a good friend and a year wasn’t difficult. Shubham, Rojesh and Jacky was always there supporting with their warm company.

Prasadi taught us to struggle and to do the things on own. Like a parents it was there instructing and guiding us, leading us to right path.

From today I will not get chance to attend Manju mam’s class, I really loved the way her class used to be encouraging, I will not be shouted by Binod sir for going N4 again and again, I will not get chance to argue with Saroj sir, he is like a friend, very frank.!!

I will not get chance to sit at last bench of N6, I will miss all those moment which I have spent there. From today the door will not be opened for you even before 6:40, even if you want your homework will not be checked, you will not have any more revision and presentation, you will not be scolded, you will not have 20 minutes break, you don’t need to set alarm for morning classes, you will not called as Prasadian, you will be ex-Prasadian.

Thank you for everything you gave us, whether it is education or identity disciplines or manner, teachers or lecture classes…

Thank you for all those memories, thank you for those special friends I’m taking with me…

Thank you ....

Sama Karki
XII Mgmt. N6
I remember my first day in Prasadi…. With my every step moving in I could feel, I was trembling with the weakness of knowledge; I could feel the gravity of the wisdom and knowledge pulling me towards Prasadi; I could feel the light with the warmth of the power and knowledge coming from Prasadi that went on increasing with every step I proceed in for a long journey of unknown experience. My journey was extremely awesome with many adventures filled with challenges put forward by Prasadi in a path limited to its width by discipline. I fortunately passed every challenges and obstacles and it was worth the experience, knowledge and wisdom which my honorable teachers littered in my mind drop by drop eventually to make it a vast ocean. I was also empowered with the warmth of friendship that always fueled the dimming glimpse of hope and strength in me. I moved forward with that spirit which increased with my hardship and with the inspirations from chief.

With this today I see the horizon where a next world of challenge begins with end of my world in Prasadi. With my journey speeding forward; I see the next world approaching nearer with the end of the path of my journey in Prasadi. Now, I am feeling the trembling foots again but with confidence I can say, it’s not because of the weakness in knowledge and wisdom carved by Prasadi in me to make me stand in the next world of adventure instead it’s because of my heart pounding more and more due to the grief that I am leaving Prasadi keeping all those adventures limited to my dreams and memories, keeping all my wonderful and dearest friends limited to my heart and keeping all my honorable teachers limited to my soul. Coming to the end of my journey in Prasadi, I feel the strength and energy of my soul fair enough to faint the pain of separation and tragedy. Today, standing near the end of my journey in Prasadi I feel I am standing like a gladiator with a thirst of triumphs in every war I face, every challenges I counter. Hence, I feel that I am extremely honored and proud to be Prasadian...

SOME UNFORGETTABLE MOMENTS IN PRASADI

Life is like a book containing several chapters. When one ends, new begins. And now the chapter of Prasadi is about to close soon but the memories I had with my friends and teachers during these two years will never fade away and these memories would be fresh in my mind till my last breath. The memories are always wonderful and when you talk about the memories of Prasadi, they are even best of all. The co-operating teachers and friends of Prasadi are the best of all in the whole world. And how can I forget the funny dialogues from teachers:

RKN sir: timi haru ley mero pitai khaxainau…
BPP sir: ja chewing gum phalera aaaaa…
GT sir: kasto raixa!!
RKS sir: book kholney! Book kholney!!
RPY sir: connecting well.
DD sir: my dear friends
YKG sir: doing bejat yr…
SBH sir: chup lagera bas otherwise I will cut your ….tongue.
RB ma’am: no more arguments
KBP sir: yeah! Yeah!!

I’ll never get a chance to be a Prasadian again but these two years were the best couples of years of my life. I’ll never forget my friends of M9. The moment we had in picnic and class are unforgettable. The way we M9’s danced in picnic is still fresh in my mind. I thank to all my friends of M9 for helping me to prepare such a wonderful and unforgettable memories. I’ll be missing the short hairs of Prasadi and the dialogue URT sir, “voli kapal katera aauney, ali choto parera aauney.” If anyone is hurt by my words I apologize. And I will be missing Prasadi. Proud to be Prasadian.

‘PRASADI’ IN MY HEART’s BRAIN

I still remember the first day in Prasadi as vision
When chief sir stopped me about a small reason
Which changed me like changing season.
What I like about Prasadi, I have no word to say
Because there is not certain thing to like anyway
But I can say, it sprays knowledge like ray.
All was dark before I entered in this park
But slowly I’m swimming in ocean of knowledge like shark
Now I can see everywhere bright like an arch.
This is not time to be slow
So, if you want to glow
Move towards Prasadi like air blow.
My dear, here you will get chance
To share everything and you can dance
But not in song but on the success of enhance.
Go up and down like an eddy
You can’t say blood is burgundy
So, I’m proud to be a Prasadian and I love Prasadi.

PROUD TO BE A PRASADIAN

After the completion of my SLC I was in confusion whether to study science or not. Studying science would be my right decision or not. Carrying all these confusion I left my home and came here in Kathmandu in search of extravagant college. I visited different colleges as well but Prasadi was my first and last choice. So, I joined in Prasadi Academy which was completely new to me. At initial stage I felt alone, it was difficult for me to adjust in the new environment. As the time passes, I find whole Prasadi like one family and I am one of the members of it. Teachers became like friends and parents.

Two years time was very long before joining Prasadi Academy but today I feel this time duration has passed in a blink. We know +2 life is the life full of new emotions, strength and feelings. Some of the students utilize it in a positive way and some of them in a negative way. Being a Prasadian, I find that almost every student of Prasadi using their new emotions, strength and feelings in a positive way.

I want to provide lots of thanks with token of love to Prasadi Academy which has not only taught me the book knowledge up to two years but also taught me fabulous layers of education to fight against the obstacles that come across our life and try to meet our own destination. Not only this, Prasadi has made me able, confident, decisive and find the way to success in life which really made me proud to be a Prasadian.

XII Sci. M5
SOMETHING WE MISS A LOT...

It is not the beginning of the end. Something that we gonna lose, life will be incomplete but memories will fulfill the space.

Every moment from 1st shrawan (2069) to 31st falgun (2070) from G13 to M4 is memorable. The hooting of my mates when I enter the class room with saved mustache and beard. This class M4 includes many toppers as well as noisiest students which balance our class to perfection.

The shy face of Dipesh while teasing him (musmundre smile) 'Oh God!' The frequent word of Pragya when we ask anything that is ‘k….k’ and her photo pose. Our Chahana (Golumolu) Abhay who were busy in themselves. Our toppers Deergha, Meryl, Prativa and Manish. Our gossip kings praceel, Bishal and Aatish. How can I forget our Ranjana the way she used to say “Hazur” was awesome and her smile. Rohan and Aatish our nancy. Our Google boy Anuj, cap boy Amit, Phanjong, the face comedian, our Ram, Sanjay, Prakash the literature. Punishment of URT sir and GT sir is unforgettable. And most frequent dialogue of SBH sir ‘Nikita k xa halchal’ and then after her smile, oh God!. Cute and silent with million dollar expressions of Shreya and the heart touching sentence of RL ma’am ‘Akhilesh ko nam ta achet awasta ma ni birsinna’

her dialogue ‘hema elle’ with sweet voice. Really I am gona miss this a lot. The silent and serious face of Kabita that was cute. The everlasting smile of Nikita with Prativa (the beauty queen). OMG the catwalk of Bijay and Rawswick while entering the class. Dipendra the question mark. How can we forget the sweet voice of Sakshi. And the red hot iron face of Arjun. Our class hero Recase always cracking jokes and Avinash the (PK), it is not Prasadi king, it’s pimple king. And our mover and shaker Image and that fake fighting with him is so memorable and the serious Ankit and Khalnayak Milan. We never gonna forget our mute gang Sandeep, Prajin, Anamika, Samikshya, Ayesha, Pragati, our magnet Saurav Sharma and Gautam. Our match fixer Mosses. The smile kola Digvijay. Student of YKG sir, Rajan and Aatish so padhantes. It seems, M4 guys did phd on cracking jokes. My bench partner Dipesh and Dipendra I am gona miss them, really the college life with my besties Dipesh, Dipendra, Chahana, Pragya, Manisha, is rocking. Hey dude don’t forget me. and at last I have right to say, yap I am Prasadian and I am proud to be a Prasadian,

Akhilesh Sah
XII Sci. M4
“With a bit of courage and a dash of self-discipline, a small talent can go far away” is a beautiful saying which has become a reality in my case. I entered Prasadi without any courage and self discipline, blindly searching for success in life. But I was unaware that Prasadi itself is with a purpose to refine us with courage and self discipline so that we are always successful in every step we take.

Proud to be a Prasadian remained just a thought for me until today. I never felt proud to be known as a Prasadian till these days but today when two letter ‘ex’ is going to be prefixed, I feel those days should be little lengthier. But as time and tide wait for none, this wish of mine will never be fulfilled. Even though my wish never turns into reality, I have enough memories of these two years which I spent as a Prasadian.

As I had acquired my SLC level education from a bigger school, for the first time when I entered Prasadi, I felt only a part of it. But I realized education is more important than building like that beauty is something from inner not that what we see when we glance at first. Then came that 20 minutes break, I just imagined what could be done in that time but today I say what couldn’t be done. From having lunch to chit chatting with friends and even completing some home task everything can be done. So, thank you Prasadi for your valuable and indirect education on importance of time.

The home task and practical works that once used to be burden on my shoulder have been a part of my life today. When I am free from such works, I feel bored. I feel I should have more and more such works which have led to an excellent result at the end. I can never forget those panic hours and nervousness on my face during exam hours. These are some bitter memories that brings smile on my face today. Now, how can I forget bag checking and checking during exam time that has taught me to be honest and brought famous saying’ honesty is the best policy’ in practice.

As friends and teachers are important part of student’s life, Prasadi has provided me best of teachers and friends I would ever get. From G11 to M4, there were highly qualified and experienced teachers who made subject matter a toy and taught me how to play with it. GT sir, SBH sir, NA sir, RPY sir, SS sir, RB ma’am, SSA ma’am, RL ma’am, SJ ma’am who always trusted me, encouraged me and helped me in every step would be an inspiration for me forever. There were friends like Sumnima, Susan, Puspa, Kriti who never bored me, Sonika, Subbekchya, Shital who always supported me, Meryl, Pratibha and Nikita always taught me bitter truth of life, Abilasha and Shikshya always accompanied me and Manisha, Pragya and Kabita always helped me. I can never forget our picnic day when we danced out whole day and enjoyed a lot. Lastly, today when it’s time to leave Prasadi, my heart is heavy. I regret praying to God during those times for ending my college life. Prasadi has not only been a fun place to study and go, but it has definitely taught me to be a better student, better friend, better citizen and overall better human being. Though, it’s time to bid good bye to Prasadi, the time and memories spent here shall remain fresh in my heart and mind.

Deergha Shakya
XII Sci. M4
'Memories, even your most precious ones fade surprisingly quickly'. But I don’t go along with that. The memories I value the most, I don’t ever see them fading. The days I spent as a student in Prasadi Academy is no exception on becoming that valuable memory of my life.

The first day I entered the gates of Prasadi, I was gutted. I had expected the two years of my college life to be boring, dull and lifeless. Five classes of fifty minutes each and only a twenty, oh wait actually nineteen minutes of break in between. This routine made me dizzy. There was no way I could enjoy…. But well it all changed in a few days itself. I met the craziest, wonderful people who became the best part of my life. The classes never seemed boring since Shradha, Sabrina Swesha and me, we became the best of friends. They made my days pass on really fast and without even realizing, our first year in Prasadi was over…

In our second year that is, grade twelve, we were placed in different sections. The new class actually seemed bizarre because of all the new faces I saw. But as in grade eleven, it took no time in finding friends and forming a new bond. Thanks to Manju ma’am for arranging the seats because I added two most valuable people in my life, Alisha and Geetanjali.

Prasadi has given me countless blessings. Two of which I cherish the most. One, my friends. I’ve found the best of friends here. The way we did everything together, understood each other with just facial expressions, the way we laughed about absolutely nothing, said the same thing at the same time, understood each other during every difficulty, the way we’ve irritated almost all teachers, it’s really a blissful thing to remember. I’ve learnt through them, a new way of living, the ‘damn care’ way.

The second blessings I value the most are my teachers. All the teachers who taught here were wonderful. The way they loved us, inspired us, motivated us and sometimes scolded us made me feel that they were no less than my parents. They always encouraged us to learn more and to be the best out of the bests. They made us realize that the challenges we face are for no other reason but to make us stronger and prepared for the real life in the streets. I can never thank them enough for the changes they’ve brought in me and undoubtedly in all of us.

I don’t believe in first impressions anymore. The thought that first entered my mind when I came in Prasad has totally changed now. It is not a boring or a lifeless place but rather, it is a place where we are transformed from an aimless teenager to a responsible teenager who has a clear vision of what we want to become. Dreams are what make us go to a particular direction. But hope and trust are what keep our heads high during the journey if we meet dark times. That hope and trust is what I got here in Prasadi. I consider my two years in Prasadi Academy to be the best chapter in the book of my life.

The feeling of leaving Prasadi is sad one. Like, it is said, ‘when someone you love becomes a memory, that memory becomes a treasure’. Prasadi is the most precious and valuable treasure in my treasure trunk.
LUCKIEST BATCH … THE TOUR

This year our college organized a tour to a beautiful place Chitwan and Pokhara. This was really exciting as we grade XII were the first batch ever to go on a tour organized by Prasadi Academy. The tour was for 4 days 3 nights (13 Poush 2070-16 Poush 2070). We were 42 students who were guided by Bishnu Panthi (BP) sir and Reeta Lama ma’am.

On the Saturday morning we departed from Prasadi Academy. As soon as we reached Chitwan we were taken to the elephant safari which was quite fun. Riding an elephant was good experience. Then, we saw sunset view from Rapti river. The best part of the Chitwan was the Tharu dance done by the local villagers. The dance was really amazing it was the highlight of Chitwan.

On Sunday, we made our way to the elephant breeding center and bird watching. There the fun experience was the baby elephant, it was most famous as all my friends were so much eager to take a picture with the baby elephant that the elephant got scared and started to chase all of us which was scary but most memorable. Then we had got information about the Tharu village. After this we moved to Pokhara. On the way we went to Begnas tal and checked in hotel River Park.

On Monday, we were taken to Sarankot to see sunrise. It was the most beautiful experience we had as we were so close to nature, the beautiful breath taking mountains, the fresh refreshing air. This day we visited museum, Davis fall, Gupteshwor gufa and Chamero gufa. The most memorable was the Chamero gufa (where all the boys had to come out of the small exit and the girls, teachers were cheering for them which was fruitful as all boys came out successfully). At night we went to street festival, we enjoyed a lot there.

The last day we went to Fewa tal after that we had free time where everyone was enjoying themselves doing shopping and all. After that we left for Kathmandu. We didn’t want to leave as we were having lots and lots of fun and the best time ever with friends, but we had to as we were taking precious memories with us.

I would like to thank Prasadi, Chief sir and the teachers (BP sir and Reeta ma’am) for this wonderful experience and would request the management to organize these sort of tour for every batch as these sorts of memories makes college life worth remembering.

SHORT FLASH BACK TO PRASADI

How amazing it is time runs very fast and we are unknown about it. The first day of mine in Prasadi Academy is still fresh and it’s already time to say good bye unwillingly. I still remember the very first day of Prasadi Academy; Chief sir coming in class and distributing a sheet of paper with clearly mentioned rules and regulation of Prasadi in it. At the very beginning of my college days, I thought that I just chose a college which restricts me on many things but after being familiar with Prasadi academy with a time I understood that it was my good luck to get an opportunity to be a member of one of the best colleges in Nepal, as a student and to be called as Prasadian.

My heart is full with all those memories I had in these two years in Prasadi Academy.

What didn’t I get from Prasadi? I got a warmth of teacher specially on lab. I got quite good knowledge of being punctual and maintaining discipline. The most important habit I developed from Prasadi is doing homeworks, maintaining note copies and struggling hard with some fun and masti. I learned the importance of choosing best college in right time, as Prasadian are provided with extra question bank and numerical bank of physics which are beneficial for students.

Wow! Whenever I remember picnic, I become happy from inner core of my heart. I just like to share my happiness by jumping with joy and saying I love Prasadi in a loud voice. The whole day dance with lots of friends especially on song, ‘Dil hay pani, pani, …..’ was unforgettable. It was also a golden opportunity for us to make new friends from other sections, and the surprise gift from management team was really very exciting.

I never felt sad on losing something before I entered Prasadi but now I am really sad and afraid to lose the most precious gift of my life ie. Prasadi and each and every sweet memories interrelated with it.

I am afraid of losing my label Prasadian and being called as ex-Prasadian. I am afraid of losing all the love and care of teachers as well as non-teaching staff, esp. when I was sick and was in time-office. I am afraid of losing that entire friendly and peaceful environment with greenery of my college.

After leaving Prasadi, I will be missing cross-checking hair, nails, bags and pockets as well. I will be missing surprise presence of chief sir in middle of class with his encouraging lecture and funny laughter sometimes. At the very moment I am really very sad & upset that I will miss saying ‘proud to be Prasadian whenever and wherever someone talks or asks about my college.

I enjoyed a lot these two years. I got to learn about people’s nature and many more. At last I would like to thank all respected teachers and loving friends who supported, encouraged inspired, and cared me throughout the year.

Smita Banskota
XII Sci. M8
PRASADI MEMORIES, BEST MEMORIES...

It seems just like yesterday waiting in a long line to give entrance exam and now it’s time to say goodbye. I can’t believe how these two years have passed just like a blink of an eye. I’ve never thought even in my wildest dream that day in Prasadi will be so much fun.

I got to learn so many things in Prasadi Academy. Firstly, I got to learn punctuality, secondly discipline and thirdly sincerity. Prasadi Academy has taught me how to be determined to achieve the main goal.

In grade 11, E13, me and my best friend Shreya happened to be in same section and we got to sit together. Then, Barsha also became our benchpartner. Then, we became friends with Bipana, Dipa, Anjali and Juna. The never ending talks were always there between us. I will never forget the talks and our gossip. Then in grade 12 N2 my best friend got separated because seat planning was done according to our roll numbers. Then, I met Nabina and Diprina. I’ve had amazing and unforgettable memories with them. The hand games that we used to play, the songs we used to sing and the gossip we used to do about the actors and actresses, I will never forget. I became friends with Sneha, Daisy, Pratima, Geetanjali, Sushmita and Alisha with whom I used to sing the evergreen Nepali pop songs, banging desk during lunch break. Picnic 2070 rocked. We had a blast in our picnic. We danced all day but still we weren’t tired. It was the best picnic of my life. I am gonna miss Saroj Pyakurel sir’s dialogue- “Don’t produce extraordinary sound”, Manju mam’s inspiring speeches, Rama mam’s motivating speeches, Bhadra sir’s hearing ability and Pankaj sir’s expressions. He is truly a expression king.

I am gonna miss my bench partners Nabina and Diprina and the most of the days in Prasadi which were the best days of my life. Proud to be a “Prasadian”.

Anjali Shrestha

LIFE AS PRASADIAN!!
Experience of being Prasadian
Let me share,
It is the place where,
I got huge love and care.
The first day I stepped inside,
I was filled with fear,
Now I came to the end
And my eyes are full of tear.
Beginning from G11
I came to meet my friends
Nikita, Deergha and Meryl
Are my priceless gems.
GT sir is the best teacher
I have ever met,
How could I forget chahana
Sharing with me chocolate.
Our class started with
RB ma’am’s incredible smile,
I know, it’s just a few steps
And we have to take journey of mile.
Akhilesh, Avinash were the one
Who used to make huge noise,
And SJ ma’am had to shout at them
With her beautiful sweet voice.
Honestly, get tired of getting
Homeworks in ton,
The classes of SBH and YKG sir
Were full of fun.
RPY sir is the one
Who made solving numerical easy,
In gossiping, Lasata
And Rashmi were always busy.
It is the life.
But we are taking it as race,
I really admire Kabita’s and Anamika’s gentle face.
I wouldn’t get caring teachers
Like SS sir and SSA ma’am again,
I hope sweet smile of
Shakshi and Pragati will always remain.
I’ll be missing BPP sir
Who is always motivating,
Oops!! Manisha and Pragya
Never get tired of chatting.
Samikshya and Luna are the one
Who are silent and shy,
Umm!! Someone is missing here,
Anuj, the Google boy.
I won’t forget
Loud laughing of Ranjana and Rimsha,
And of course
Simplicity of Ojaswee, Shreya and Ayasha.
Meeting and departing is not new thing,
It’s just a trend,
Ho! How could I miss
Saurav Gautam and Sharma, my dangali friends.
Now, lets say bye but it is not end
Rather it’s just a beginning,
Every moment spent in Prasadi
I’ll certainly be missing.
Frms, it’s a rule we have to depart
And can do nothing much,
Except promising each other
To keep in touch.
Pratibha Budhathoki
XII Sci. M4
IN PRASADI

It is proved that we human beings need only those things forever in our life which is impossible even for god to do. Writing this article in the last hour of Prasadi premises made me fell to accept the truth. Just I don’t want to be a ex-Prasadian but it’s an obligation & necessity both. Summarizing the most precious two years in Prasadi made me both laugh & cry. Laugh in the way that all the mastee & joy that my life got when I was nearby my classmates in Prasadi and cry in the way that after few days I couldn’t be wearing my grey colour shirt with the logo of Prasadi and my identity “5270”.

On the first day of my Prasadian’s life with a lot of new faces in the section G7 there started my starting point of bright future. With the best teaching way of teachers I got enlighten in every aspect of my studies. Care of non-teaching staff bounded me within the limit of discipline which I need to be a successful man in a future. Of course! Who can forget the most inspiring speech /words of Chief Sir. With friends like sandhya, Sangam, Nissan & Ranjana I couldn’t figure out how eight months ended.

Ahh! There a long class in the ground floor of the Prasadi building which has got name “section M8” where I got enrolled in XII. After spending nine months in M8 we collectively called as M8ains. I am thinking how I could spend rest of life without being with M8ains in a big room facing towards our respectful teachers.

These are those parts of my life which will always make me delightful, proud and happy being one of the member of M8. M8ains is incredible, unforgettable, rocking, cool, and most humorous along with passion of best studies. We were the torture for teachers but still they accept this & gave their best to bright up our knowledge, so a great salute for all our Prasadi teacher who taught us in classroom, as well as in lab. I have not expected that I would be attached so strongly with M8 & Prasadi that I would like to cry as a baby while I was stepping out from Prasadi gate wearing college uniform.

There are few things that will never experience in whole life.

i) Eating in canteen with friends, playing table tenis, visiting library and entering in class in 5 min. before the end of 20 minute break.

ii) Expecting for “bag checking of boys” where ever I am late for college.

iii) Staying whole night & completing home assignments.

iv) I will never be enquired of being absent to my parent.

v) I will never be called as Prasadian on few days on wards.

Mandip, Diwas, Bipla, Prashant, Nishan & Smita are those who are my all time close and best. For two years I was under the culture of care, tradition of hard work and under the habit of chasing excellence and now feeling proud of being Prasadian.

At last again M8 which is a bunch of firecracker would create the great explosion in near future serving humanity showing whole world who we are and who made us. Pride of being M8 and the most joyous picnic marked with wild dance with M8ains,

When we first met
I had not thought that our departure would be so painful.

Somewhere, somehow you gave the best memories of my life

I’ll miss you badly…

Thank you for these awesome days;
M8 & Prasadi!!!

“Proud to be Prasadian”

Gaurav Rasaily
XII Sci. M8
A LETTER OF MEMORIES...

Dear friends,

As I am writing this letter I realizing that I don’t have many days left as a student of this college. Soon, I'm going to leave this college and enter a huge world which is unfamiliar to me. The two years I've spent in this college and the people and friends I’ve met will soon be a memory.

Speaking of memories, I remember the first day in the college...

Strangers, strangers around me,
There’s no one who I know.
I saw the chief sir standing,
Who led us where to go.

Then I entered the classroom G11 where I met Susan Karki for the first time. Slowly, all the classmates arrived and we started introducing ourselves. We all were from different schools and different places. Oh! Yes how could I forget the lunch break in the first day.

Pushing, pulling and jumping to take the canteen tickets.
That was all, as the memory in the first day of Prasadi Academy. Then,

Next day in the library,
Every morning all the fun,
Playing basketball turn by turn.
But soon it was taken away,
And I’m sure it’ll reopen someday.

In the class I used to have a lot of fun with funny jokes with my 3 idiots and how could I forget “outstanding award” in CR maam’s period? Spending all those days together, all the strangers became the closest and dearest friends.

As the time passed by the days of grade 11 were over and we reached grade 12...

Yes, of course everyone had to choose different path,
So some chose bio and some chose math.

In the 1st day of sec. M3, it was a surprise,

As less were the girls,
more were the guys.
All the fun then started,

Sec. M3:
Remembering 5 star break, the name comes Mr. Suresh.
All the time being bingo!, bingoiest Bishal, Sanjog and Nikes.

Aryan: Ek dewana, the joker,
Aakash the guitar player.
Nikhil the dhakal and dhakal the junir,
Always struggling to win...

Where Nikhil the other, thinking about the sin,
Here Rakesh KC is always busy in something,
And Nitesh Yadav doesn’t care on h.w. doing.

Jenish is baje, Diponkar is the topper
And Kamal, Amit, Kushas are the hard workers.
Where Sandesh the rapper lead the phrase,
And Proush, Nischal, Nitesh have football craze.

Sudip Bogati and Gaurav are the talented ones,
Where Nishan and Robin are the silent ones.

Rakesh tigrinya my bro,
Giri the gooplunte!! Where Sulav’s the katti roll..
Chip+Aalu=Chipalu..

Aman Nayanshi’s daju.
How is Sarad Aman’s son?
Sushant sleeps even before dawn.
Sagun is the great warrior the ram
And supreme is the loyal shyam.

... she is totally different from others, who never bothers,
She is Nayanshi, who wants a brother.
Anisha is the one with all the secrets,
She doesn’t talk and never regrets.
She is none other than our loving Aava.
Rajani, dreaming in URT sir’s
Struggling in SBH sir’s ..
Somebody please save her.
Her joke makes us laugh and she is always smiling,
She is Alka, who is waiting for her prince charming.
These all are the friends of mine,
Who will remain forever in my mind.
I’m grateful to all my teachers for their warm support,
who led me to the path of success towards my dream. In Prasadi Academy…
Come to college always in time
Otherwise URT sir make you stand in line.

As RKS sir and RPY sir asks, on the very first date.
Chemistry has all the reaction, can’t be understood,
YKG sir says, “Etti pani audaina, u all are fools!”
Organic chemistry le khancha tauko,
SBH sir said hamì sabai ghash ho!!
Math seems all complicated, oh noo!!,
H/w of RT sir plzz don’t forget to show.
If you wish to be all cool, follow the rules taught,
But if you try to make teachers fool, you’ll be all caught.
So stay focused and do some rest…,
As chief sir said “EAST OR WEST PRASADI IS THE BEST!!”

It seems yesterday, I came to Prasadi but like a dream
the two years time had gone so fast. Prasadi has given
me a special gift that is going to be with me till I die. The
“PRIDE OF PRASADIAN” is going to remain forever in my
life. I believe I came to this college as a girl and I’m proudly
leaving as a women. At last but not the least, I’m gonna
remember all the days spent in Prasadi… I’ll miss u guys!!

THE ULTIMATE GUIDE TO STUDY IN PRASADI ACADEMY

Surviving two years in Prasadi Academy is not everyone’s cup of tea. Fret not, as I’ve prepared a list of “dos and don’ts” that will help you to pass through the hurdles of Prasadi Academy.

1. Make habit of submitting homeworks on time. Do not postpone your home works because you’ll have to do it either today or tomorrow.

Doing home works on time saves you from getting punishments and also penalties from RKS sir.

2. Trim your nails at home. Don’t think that Prasadi will allow you to grow long nails. Yes, you’ll ultimately have to cut at college but the worst part is, the nail cutters provided by the college literally sucks. (sometimes, I feel like Prasadi does this intentionally)

3. Work book is the most common thing that a student of Prasadi forgets. I suggest you to bring your workbook daily along with your Meaning into Words book. It does not weigh much and you’ll certainly be saved from the punishment.

4. Go to library. One thing I’ve learned from Prasadi is that going to library is a must in student’s life. The teachers collect question from everywhere. If they’ve taught you to solve 2+2 in class, you should prepare $\sqrt{4}$ too. Make sure you practice everything or be prepared to sweat in exam.

5. Do not depend on your friends in exams. There will probably be 3 or 4 people with the same question paper as your and they’ll be spreaded in 4 corners of the exam hall. Forget about asking, you’ll hardly get to see your friend’s face. Trust me guys, been there, done that. So make sure to be self dependent in exams.

I hope these tips will help you a bit while you are at Prasadi. Keep in mind that you can actually have fun here.

Hope you have an amazing journey at Prasadi. Good luck!!

Nicky Shrestha
XII Mgmt. N5
The time has now come to leave Prasadi. It seems that it has been only few days back that we joined this school. Time waits for none and these two years went by in just a blink of eyes. I’m gonna miss all those moments that I’ve lived within these two years in Prasadi.

All the teachers who taught us with love and care, gossips with friends, those laughs and giggles of cracking jokes, dance in picnic, eating chocolates in classroom, teachers’ inspirational advice, etc. are the precious memories in Prasadi that I’m gonna cherish forever.

I will really miss Manju ma’am. The way she taught us with love and care and her cheerful face always encouraged me. I’m gonna miss the love and care she gave me as her own child.

I will also miss the way Pankaj sir taught us with love and care and positive and cheerful environment. And all other teachers who taught, and cared us like their own children would always be in my memories.

And how can I forget the fun I did with my crazy and true friends: Alina Dangol, Sulakshana Khadka, Shreeya Maharjan, Monalisha Maharjan, Sabrina Joshi, Reshma Rajbahak, Sejal Shahi, Ashish Thapa, Rabin Thapa, Beken Rijal and all other mates. There are many memories with you guys which I’m gonna cherish forever!

Just keep in touch!

These two years went so quickly. And within this time period, Prasadi taught me so many things in my life which I later can share them to others; with my head up saying, I am proud to be Prasadian!

Arpana Maharjan
XII Mgmt. N2
Ah… it’s been 2 years in Prasadi academy. It seems like yesterday, when I entered Prasadi with the excitement and enthusiasm. With the new faces around me and the nervousness inside me, I hardly got the way to my class. Everything was strange. Even the friend with whom I share my bench was strange.

Fewer days passed on but I could not get to know many of them neither other got familiar with me. maybe I was of shy nature I couldn’t gloom with the class environment with so many ambitious mates around me, I found myself very low. But with that I found our teachers very encouraging and inspiring. Specially Som Nath sir who saw some potential inside me helped me out to bloom my talent. The way he taught and the way he made all the class participate in study activities also helped me to show my skills and helped my confidence to boost up. His teaching technique helped me to improve my mass speech and to face them. Slowly and gradually, I started to cope with the environment of class and with the unique and strict system of Prasadi.

The friendship which (Kusum, Sabita, Anushka) was so wonderful that I did not realize how soon the time past. Grade XII was also strange to me but this time, the confidence within myself helped me to cope with new environment in short period of time. I still remember the day when I first met my new bench partner Meghana and Ayusha. Meghana said on the very first day, “I’m too talkative, please don’t get irritated…”. Also Ayusha, who seems very quit at first turn out to be more talkative than us.

Each and every moment spent in Prasadi is going to be missed out. Our RKS sir presentation in the first period, Saroj Pyakural sir calling me “oh! Top ten out miss Shruti Tamang… “ and yes our B. Math sir’s mathematical problems, which we (me, Mehana, Ayusha) used to solve very quickly then start to talk and sir calling out Ayusha’s name aloud in a class. Our unlimited gossiping, laughing and homeworks are memorable. Mostly the surprise bag checking in the morning, carrying loads of books and copies in the bag, surprising holidays notice, everything is going to be missed out.

And of course how can I forget, the title “student of the month” which I was awarded. For this specially I would like to thank to Som Nath sir without whom I would not be able to boost up my confidence and would not come this far. And I’ll always be respectful and thankful to supportive teachers GT sir and BP sir and URT sir. And of course great thanks to Bikram sir and Prasadi Academy for teaching the lesson not to compare ourselves with others, if we try our best, one day it shows.

And now with this all, I think my parents and my sisters decision for choosing Prasadi Academy for me is best decision. I’m always and always going to be great thankful to Prasadi Academy and Bikram sir for what I am now and for what I learned from them. All the time spent in Prasadi Academy is going to be the best days of my life. Finally, I can say, “I am always proud to be a Prasadian”.

XII Mgmt. N3
GATES OF PRASADI

The wide open gates,
The unlocked doors,
Welcoming me from within,
Unlocking barriers towards the destination,
Leaving no boundaries to explore,
The tall trees that is ever green,
Providing the fresh breeze,
Feeling rejoiced I walked in with ease,
Guarding the gates are the trees standing by,
Giving a place to aim high,

The timing of gates so perfect,
To open, to close is what it’s made for,
Opening wide it leads one towards the destination,
Closing tight some late comers are left behind,
This is just to teach them the value of time,
With gates so punctual,
A student is examined from inside out,
Noting every inch of students hair,
Checking finger nails to centimeters,
And behavior to millimeters,
Checking every corner of students bag,
To insure them a bright future,
Days go by but gates don’t change.
Time has come for me to leave,
But gates stand still wishing me good bye,
Gates stand still welcoming the new minds,
Gates stand still and it always will.

MEMORIES OF PRASADIAN...

The first day at college and the last day are always disappointing. The first day always gets flunked and the last day “THE MOMENT OF DEPARTURE” always rips your heart into two.

For every teenager, college life is always a prison, and so was for me. From the very first day classes, until the last, my eyes were always on my watch to see “WHEN WILL THIS BORING PERIOD COME TO AN END?” if it weren’t for free classes and friend’s support, I couldn’t have survived in such a place. However, this perception of mine changed in the last months of my college life. I met many friends, my best friends Sama and Nicky who always helped and supported me. They lent me their shoulders to cry on when I was sad. They were there to guide me. They were there to make me smile when I was driven off by some nasty happenings. They were there to make any normal day a big blast. They were the ones who multiplied my happiness and divided my sadness. I made the sugary and spicy moments with my friends, the recesses when I copied winky Rojesh you all are the most precious gifts of my life. Srijan, thank you for peeping deep down to see if I was ok after a terrible incident had occurred. Ps Srijan I always hated the way for pulling my bag. Well, this was a short description of my short listed friends. But still there are uncountable no. of friends with whom I have enjoyed each and every moment of my college life.

My adventure during these 2 years have turned out both awesome and awful. I always detested examination. I felt as if I was on a new planet, breathing in a new atmosphere. I also detested students having code numbers but, now in the last few days of my college, I considered it as a total witness reality location programme. The memories of the days I’ve spent at Prasadi are the most valuable treasures. I am gonna miss the way we used to keep nicknames. Manisha, Shreya, Sristi, Surakshya, giving stupid nicknames (chipku, budhi, dayan, jogi, etc). It was fun seeing the person your friends hate and calling your bestie. (sama, Nicky, we had a lot of besties!!). Manisha, I am gonna miss home works and so on. We always spent our time laughing, smiling and giggling. My bench partner Manisha always encouraged me and tried her best to stop me from singing in the class. But she sangs herself! You could always hear Manisha and her laughter. Thank you Sama, Nicky and Manisha for increasing my confidence when I ran out of confidence and trembled with anxiety. Thank you for listening to my endless/pointless dramas. Sristy was very studious, who was never furious. Shreya and Surakshya both were quiet who never got involved in fight. Simron, Juna were beautiful girls with wonderful sense of humour. The long walks while returning home with Nicky, Sama, Srijan, Ankeet, Rishav laughing, smiling was the best part of my day. The panipuri moments had always been awesome. Birthday treats had always been awesome than any other occasions. I am gonna miss the treats we had. Sama, Shubham Prasai, Nicky micky, (kothe momo) jacky, singing songs with you and writing down the lyrics and jotting (Bistarai, bistarai). When I recall these moments, I flash a smile. Srijan, I am gonna miss us talking about our personal life and giving stupid suggestions. Ankit, backbiting about the person we hate was atti awesome. I am gonna miss us talking about reality shows especially big boss.

(Gauhar khan le esto garyo, Andy is my favorite.......... Blah blah)

At last, hope you all to be proud to be a Prasadian. Thank you all for giving me the best moments of my life and for filling my college days with fun and laughter. And with a sad and painful heart, Good bye Prasadi. I will be missing you a lot.

Good Bye!

TWO YEARS OF MY LIFE

Two years of my life has passed
Has passed so fast,
Leaving many memories
Making me excited at first and emotional at last
Inspiring classes of SSA, SJ, YKG, RB
Made me who I am today
Funny classes of SBH, BCG, URT, CSG, GT
Taught me to play; play with time
Knowledgeable class of RPY, RKS, RT, NP, BPP
Made my brain full of knowledge.
Memorable moments that I spent
Spent with teachers and friends
Will be imprinted in my heart till my death … till my death.
Canteen time with Gaurav(GT) and Rakesh (RKS)
Class time with Nitesh (Dhoni), Suresh (SS), Alka (AK), Sumnima (SR)…
Were the time
The time I’ll not forget.

Studying with Manish, Pragya in a break time
Gossiping with Kiran, Raju, Dipendra, Chahana… in a class time
Were the time
The time I enjoyed.
Especially, the time I spent with each and every members of Prasadi
Were the time
The time which will be in my heart
Even after my death.
Finally, time has come to depart
To depart from each and every members of Prasadi
The time to return back
Return by packing all emotions, courage, knowledge…
The knowledge that we have gained.

XII Sci. M3
I don’t know how days passed in Prasadi. It seems as if I have joined Prasadi just day before yesterday and now its time to say good bye. But I’m not going alone, I’m taking all the memories and experiences I had in these two years. There are some precious memories that Prasadi has given me which are still fresh in my mind and which I can never forget.

After my SLC, when I asked my elders whether to join Prasadi or not. Some said, “it’s very strick college and they will tie you up with rules and regulations.” But some said, “Prasadi is very good college. It’ll teach you how to be in absolute discipline.” Finally I decided to join Prasadi.

When I first entered school premises, I was very happy and proud to be a part of No. 1 college in the country. I was very happy for couple of weeks. But when teachers started giving homeworks, I got frustrated. Regular bag checking, hair checking, homework checking, co-ordinators shouting, “carry your all books,” teacher’s scolding, “submit your assignment on time”, I thought all these things were nonsense. I felt as if I have come inside a prison and teachers are punishing me for my sins. But now I have understood importance of these things. These things has helped me a lot to be in discipline and to be regular. At first Prasadians may have problem with strick rules and regulation but later on, they will get used to it.

Coming back to memories, all days in Prasadi were memorable. Gossiping with friends, getting scolded, answering all questions asked by teachers and getting praised if answers are correct otherwise getting punished, standing on line to get lunch, climbing up stairs, science students disturbing in last period. Among all days, two days are most memorable i.e. first days of college and next is picnic day. In first day when I entered inside E7, I saw all new faces full of ambition and willingness to do something good. I slowly walked in and sat on first bench. No one talked to me. I was all alone and little scared. Later on my best buddy Sumit joined me. He has been my good friend from first day and has been helping me till now.

WE PRASADIANS

Prasadi the place of quiet and calm
Kept me safely under love and warm
Taught everything that to have learnt
Got chance to sharpen mind which was blunt
Provided all the nutrients that I need
Now this memorable phase has come to an end
Astonishing and inspiring teachers are really awesome
Will be remembered every moment in M8 which was full of fun
It has helped me stand on when I fall
No doubt Prasadi is the best choice for all
Unforgettable acquaintance it has given me
Proud to be a Prasadian where ever I would be
Caring, loving, gossiping and labouring guy
It is the time to bid good bye.

FOR MY FRIENDS

Friends are the flowers in the garden of life.
They help you through time of trouble and strife.
There’s nothing like friend to make a heart sing;
True friends will share with you most everything;
They will not abandon you in time of need;
They aren’t overcome by envy or greed;
Real friends give and allow you to take;
I don’t know how I would survive without friends;
Tell me, p/z tell me, what I would do;
If I didn’t have a garden full of friends just like you!
Have a beautiful life my friends;
“I am proud to be a Prasadian”.

HIGHLIGHTS TO MY DAYS IN PRASADI ACADEMY...

“PRASADI ACADEMY”, yes, it was what I had seen above the gate during my first visit to this college, probably because the first two letters ‘P’ and ‘R’ had been made some what unnoticeable by some leaves.

However, I still remember the indefinable moments after admission. I had a sincere smile on my face and my eyes filled with pride because I had been admitted to one of the best and the most top-graded colleges of Nepal- Prasadi Academy!

The first day of my college life started from the very first week of Shrawan as I headed towards my class- the one and only- G10. The class was pretty awesome; it was at the centre and it became easier for us to go to the canteen, to the reception, to the gate and of course, to the toilet. Similarly, we had normal classes on the first 3 days of the week, but only the G10ers went home on hour before on the other 3 days. The first day- the only thing I remember about that day is nothing! I just sat on the second bench and hardly did anything the whole day, neither I spoke with anyone; nor with my bench mate. I had found that day quite unpleasant and this had made me think that it was better to fully focus on subject matters rather than on making friends. But I can never forget getting punished by the discipline incharge and having my name written on the first week itself due to improper ‘hair’, although on the previous days I had had my haircut thrice, in a sequence! Grade 11 proved out to be much more difficult and unexpectedly advanced than 10. Slowly and surprisingly, I became closer to many of my classmates and teacher as well. The awkwardness of being completely new to the college seemingly disappeared and we began enjoying each and every day with each other. By the time the first year had come to an end, I had made a lot of friends and had shared quite amazing moments with them.

My life took me to another level when I entered M3, with many new faces and some from my previous section as well, and I got seated with one of them. At the beginning, I often felt bored and the environment did not appear to be as good as it was in the previous year. Though the subjects we had to study were similar to grade 11, the courses were hardly comparable; grade 12 appeared to be even more advanced and much tougher in comparison to 11. However, talking about fun and memories, grade 12 proved out to be unconditionally amazing and somehow indifferent to the rest. Although I was not close to all of my classmates, I can look back with fondness to the ones I shared many unforgettable memories with. Back to back laughter’s, unexpected pranks and mischief’s, new nicknames time and again, and completely insane moments throughout and within, not only in class but at the canteen and other places too; no single day M3 went without leaving a smile in our faces and it was in fact our strategy. Not only the students, but the teachers too were involved and equally included in our priceless moments.

And most importantly, the only day in our entire college life, when we were taken to Tribhuwan Park for picnic, no doubt brought all of us together forming a huge mass and made us go completely insane, when we rocked the ground found that day quite unpleasant and this had made me think that it was better to fully focus on subject matters rather than on making friends. But I can never forget getting punished by the discipline incharge and having my name written on the first week itself due to improper ‘hair’, although on the previous days I had had my haircut thrice, in a sequence! Grade 11 proved out to be much more difficult and unexpectedly advanced than 10. Slowly and surprisingly, I became closer to many of my classmates and teacher as well. The awkwardness of being completely new to the college seemingly disappeared and we began enjoying each and every day with each other. By the time the first year had with our self influenced dance modes and enjoyed the particular moment to the fullest.

There is indeed a colourful jumble of standout moments from Prasadi Academy that I can recall vividly. The excessive homeworks and weekly haircuts no doubt gave us severe headaches, but besides them, these two years spent in this college have also given many refreshing memories along with unforgettable inspirations, that will indeed be remembered throughout our lifetime. Although my college days will soon come to an end, I will always be proud being a Prasadian!!!
LIFE IN PRASADI

There were times in Prasadi when I really thought of running away and finding Nirvana in a jungle. Loads of home works, fortnightly haircuts, surprise bag checking, etc. life was difficult in the beginning. But as time passed by, everything seemed normal. Without the friends I made here, life would’ve been unimaginable. I was quite afraid of getting separated from the friends I made in grade XI. But to my surprise, I found almost half of the same mates in XII as well. Sohail, Aaditya, Samir, Prashanna, Sudip, Aavash, and many more. Sahil got added to our group as well, alongside Pukar and Raju. M2 was amazing from the start. Just a few days to interact and the entire class turned into a gang. Those moments are cherisable and will remain evergreen. Creating caricatures was the one thing we were extremely fond of (hope it’s taken lightly). I don’t quite remember a single teacher who’s been left to be trolled. These words can never be forgotten:

SBH sir: “Ghaas haru padnu xaina: kta ho, I will cut your …………..tongue”
YKG sir: “Haaaw easy? Vaaary easy”
SK ma’am: “2: M2”
URT sir: “A timro kapal vaena hai…pattakai vaena…ali chatta, chi ttika milaera voli aune hai… yaad gareu?”

RPY sir: “you have to absorb it, as well as absorb it.”
RRG sir: “Ah well…. Where were we”
SJ ma’am: “Ae halla nagara na (in a crying tone)”
SSA ma’am: “Timi nae vana ma timlae k garam?”
SBS sir: “I also you all know that.”

We’ll have these moments to cherish in our near future. The fun and the knowledge we received from all the teachers are precious. Chief sir was extremely encouraging. Each time he delivered lectures, a strong desire of studying arose in us. (though it faded away after a while). Hamal sir thank you for improving my organic chemistry. I honestly sucked at XI. At the beginning, we were like, “when will we get outta this hell hola?”. Now the situation is , “can we spend a few more days here, with our mates?”. These two years seems to have gone so fast! I’m sorry if I accidentally happened to hurt anyone. All the mates of M2 will be missed. Time and tide waits for no body. So we’ll have to move on. Though we’ll move on, we’ll have the remembrance of being a Prasadian. I’d like to thank everyone. I hope all you guys have a bright future ahead….

Madan Dhakal
XII Sci. M2
TWO YEARS BEAUTIFUL JOURNEY WITH PRASADI!!!

Sitting on sofa at the corner of my room with huge smile, wet eyes and cheeks with tears rolling down, you might be thinking what’s going on to me? Well! I am collecting each and every cherishable moments in these two years beautiful journey with Prasadi. I got huge love and care, sometime scolded and got punished as well. I’ve got very delightful memories, sweet and sour which I’ll certainly be sharing with my new friends and at that time I am damn sure that there will be charming smile on my face and eyes will all wet.

I could clearly remember the very first day in Prasadi, 1st Sharawan 2069, when I stepped inside class G11 strange feeling came within me with huge excitement and little nervousness. There were all new faces for me and I was quite afraid that I’d able to be friendly with them as with my school’s friends or not but they were even more loving, caring and friendly. Well! Recalling 1st day how could I forget sumnima, sitting on first bench, laughing loud, asking for names, joking, making fun and creating school’s environment which made quite comfort for all. Laughing, gossiping, sharing secrets with companions, we came about to end of class 11 session and unfortunately, to the end I got punishment of 50 minutes standing in front of class which was honestly awkward moment for me and made me embarrassed as it was the first time I have ever had been punished. But I wasn’t alone, there were my companions too. Sweet Shikshya, chatpate Avilasha, naughty Nikita….. hah! With these colourful memories session completed.

Now from 20th Jestha 2070, new session started with new hope, new enthusiasm, excitement and of course new friends while most of faces were known this time. Incredible smile of RB ma’am, funny jokes of YKG sir, funny dialogues of SBH sir, love and care of SS sir made our whole year just amazing. I can’t forget sitting on first bench, covering mouth with scarf and sharing chocolates at class time with my lovely bench mate Nikita and Chahana. Umm! Oh! How could I miss non-stop dance with my dangali bestiee Avilasa, and of course with Meryl, Deergha who were always supportive and with all my guys in picnic.

Honesty, how fast the time moves, it feels like yesterday, waiting in huge line for collecting form and now today the time has come to say good bye to Prasadi. Thousands of thought strikes my mind within few seconds and appreciates the time while the very next moment I wanna spit on to the face of it because it is the time which gathered us together made one family “Prasadian” and it is the same which is compelling us for painful departure. It is no longer to see that some of us will be engineers, some doctors, some leaders and bla, bla bla……. But all of us will be fruitful outcome of Prasadi and will always be feeling proud of being part of Prasadi and being Prasadian.

Pratibha Budhathoki
XII Sci. M4
WAVING THE HAND OF DEPARTURE...

It was Shrawan 1st, 2069 when we first stepped into own classes at grade XI in Prasadi. From that very day we got a new school and a new family. Obviously, the beginning was very hard to adapt over here. Strict rules, late night homeworks and precise records at each and every student seriously made us worry a lot. But gradually situations taught us everything. As time passed by, we realized that every tough situation invent a new courage to overcome through it.

Having some bitter and many great experiences in these two years of time, in this paradise, we gained, we lost and we realized many things side by side. Returned home, did up and down (20 times) carrying a bag full of books and copies in front of Chief sir and went to the study room for being 4-5 minutes late were some bitter experiences but it taught us a great deal too. That’s why, the lessons of discipline and punctuality that we learned here will always be own guideline. I really loved the short lectures of chief sir. The classes of SBH sir, RKS, RPY sir, GT sir, KBP sir, RL ma’am and RB ma’am were really funny and inspiring. So, we’re grateful to all our teachers. You’re the real idol for us and will be forever. Now, if we talk about our unexpected bag checking, homework checking, practical book and apron checking etc and etc, of course they won’t trouble us anymore. But we’re seriously going to miss all those days a lot. And friends….., who could forget that memorable day, “The picnic day (28th Magh, 2070)”? Continuous dance and great group photos… wow.. It was awesome and probably the best day ever with Prasadi inmates. Similarly, the two years of time spent together with Prativa, daily fight with Chahana, funny jokes of Lasata, smile of Anamika, acting of Rashmi, group work with Deergha and Meryl, Gentleness of Shikshya, Ragini and Sonu, outing with Tapasya, fun talks with Abhilasa, side talk with Muskaan and Bimala, sincerity of Manisha (cute) and dance with Pragya were the best memories with friends. Thus, there are innumerable, meaningful and memorable times with you guys which are inerasable and will always remains in our hearts and minds. It’s really hard to get departed but as my heart says, “Don’t be dismayed to wave the hand at departure because departure always doesn’t mean the end of everything but merely the beginning of something new to be happy again.” Isn’t it right?

Nikita Bhandari
XII Sci. M4

PRASADI AND PRASADIAN

If you want to dazzle like the dew on the lawn
You have to choose right path on your own
Which can help you to be away from proletarian
For this, you should enter Prasadi to be Prasadian.

I was totally unknown when I entered KTM
But able to withdraw knowledge like ATM
This is because of a team only known by Prasadian
Who always try to be father of proletarian.

I am thinking and my heart is full of fear
How can I be the template of proletarian
Now I’ve decided to follow steps without any tear
Because it is taught by Prasadi to every Prasadian.

Md. Shami
XII Sci. M2

FUN DAYS IN PRASADI

The day has come to say good bye
Moments spent in Prasadi is alive in my mind
Time has passed too fast like blow of wind
Had loads of fun without leaving any hint

Teasing friends and teachers, laughing all day
In our own little world creating a small story
Feeling of love and sisterhood that will never end
None of the relation is more trusting than friend

Hiding from teachers and having paper chat
To have fun, always discussing to sit at last
Sharing the news and thought without emotions
All with different characters proud to call M8ians

Picnic that gave us more opportunity to be close
Both studies and fun being acting that always oppose
Music loud party all day with love and care
Departing from Prasadi is my only fear.

Pooja Rauniyar
XII Sci. M8
MY AWESOME TWO YEARS IN PRASADI

Times in Prasadi has passed unexpectedly fast, Seems like yesterday but it’s about two year past, 1st Shrawan 2069, me ‘5589’ stepped in straight Inside Prasadi academy to design my buffer state, 30/11/070 my deadline to depart from M9

In spite same prescription, study here quite tough, Despite this distinction in HSEB exam is sure enough Indicate the determination of Prasadians is great, So never underestimate it because it gonna fill your fate. But it knocks everybody that only few passes the internals, A lot of home works make you diurnal as well as nocturnal

Made here everybody to wear proper dress, Punctuality is what Prasadi want the first & fore most, Attendance in every period is what makes me surprise the most. Why Prasadi frequently check seat plan, books….? My question arise, Re test & extra classes are to make student standardize

Talking about my friends, Bipal & Mandip, the best navigation guide, So far Prashant & Gaurav are stood very close aside I’ll miss moments with them in Gorkha & Pokhara site, Doubtly Roshan’s bombarding questions taught me good lessons Talkative Yogesh’s nonstop gossip & S. Agrawal’s unmatched talency, Rockstar Sushil’s music & Sanjay’s silency remained a mystery

Subham Adhikari’s awesome break dance in picnic cheered up all, Anuj’s fluency in speaking & Mohit’s accent would make u fall. Noone can defeat cunning Dependra & innocent Subham Bhattrai, Oh I forgot friendly Abhilasa, Sachi, Rajan & Dhiraj Rai, Anusha & Sadmi always have the race to get thing first, Melina & Prishma are close friend just to trust.

I’ll never hear RB ma’am saying “I hate hooting in my class,” RKN sir threatening “Pitai kancha” for distracting the mass. Heart pounds louder when scholar RPY praise “Smartly said” SBH’s jokes, BBP’s gaf after every numerical are famous, DD’s my dearest friends “always made him close with us. YKG’s simplest & funny questions made us cry, Well Prasadi! It’s time to bade you good bye!

XII Sci. M9
These two years in Prasadi have definitely been a blast. It seems like just yesterday we all became friends. I guess time flies unnoticed when we’re having fun. Not endless even in this short period of time, we were fortunate enough to make wonderful memories. I clearly remember my first day here. After hearing our daily schedule, I wouldn’t even imagine how I’d get through a single week, let alone 2 years! I was terrified. I saw all my +2 dreams getting smashed right in front of me. And all the nightmares I’d heard about Prasadi were coming true. However, it wasn’t long before I got accommodated to the college routine. I started making friends. I got used to all the workloads the teachers gave. In fact, I began enjoying here.

Altogether I’m proud to have been a Prasadian. Prasadi provided me a platform to excel in my studies and also created a strong foundation for my future. It taught me lessons of hard work, patience, tolerance and most importantly time. Who knew so much from having lunch to going to the restroom to completing our remaining assignments could be done in mere 20 minutes. It’s a wonder what we do for rest of the time. Moreover, Prasadi brought me towards wonderful people who have become friends for life. They have been both a laughing buddies during happy time and also a firm shoulder to lean against when the world is cruel and unfair. All the memories shared with them will be cherished forever.

I’ll never forget my teachers. I’ve learnt so much from them, not just academic related but moral values and life lessons as well. I will forever admire their sincerity, devotion and diligence. They made my time in Prasadi very fruitful.

In the end, I’m glad I chose Prasadi. It was difficult in the beginning but nothing can be achieved without a little hard work. I’ve loved every moment spent here. Stepping out of Prasadi I feel like I can overcome almost any difficulty, thanks to constant inspiration given by our college. A few years from now I see myself enjoying, boasting and maybe craving a little for my Prasadian days. So thank you Prasadi for all the values, all the knowledge, all the pride and all the fun and surprises you gave us. It has truly been a bliss...

WE ARE ONE M1

XII M1 the noisy class you might have heard
But here all students are brighter you mightn’t have got
It’s on the new building on the 1st floor
With the three windows and one door
Students of here are of different character
But we all help each other like a big matter.
We have got little member in our family
From which 35 boys and 6 girls only.

I don’t know from where to start
As all the friends are super stars;
Let start with Sachin and Ashim
Who are topper of the class
But Kamana always tops them at last.
Gaurav, Adish and Dikshya are always hard working
Sabeen, Abhisen and Bibek are ever talking;
Two Abhisheks in our class but not the twins
Rupesh and Prabin make their pen always swing.

Bharat, Sampurna and Nitesh are the simple ones
Shreejan and Sajjan always joke if they get chance
Robinson, Anup, Sumit and Saurav always want the class silent
But, Ashutosh the only one makes the class wildest.
Kiran and Yunish are the brighter dear
Doing homework only their fear.
Pushpa is a beauty queen;
Kriti and subina start talking if they get any hint.
Shashanka and Bikash the gentlemen of the class
Yogesh and Samrat make the class blast; by sitting at the last.
Prativa Shukla is the polite girl,
Deepesh thinks the class is hall.
Shubhang and Anukal make the class cool
Nishan and Bal Krishna try to make us fool.
Like this my class is full
Only one guy is left, it’s me fool
Our class cannot separate and nobody can
Bcoz we all are one;
So, our class name is M1.
Not last, the least
At this stage we the bestie
As the teachers think we are stupidians
But we are proud to be Prasadian
Proud to be Prasadian.
Thank you!

CREATIVE ACTIVITY

BEST MEMORIES AND LESSONS GAINED FROM PRASADI

Still I remember my first day in morning section B10 with my new bench mate Sonu and Rajani. I was completely innocent and unknown in that new environment. But as time passed gradually I started to manage all those compulsion in Prasadi. I am glad to get chance to learn from such caring and inspiring teachers. Every lectures of them were really precious and courageous. Likewise how could I forget those days when I get sent back home from college for being 4-5 minutes late, 10 times up and down, loads of book especially on home work checking day, unexpected bag checking, late night home works, wild dance in picnic with my friends Nikita, Sonu, Ragini, Narbada, Abhilasa, Alisha, Aishwarya and so on ... Regarding teachers SBH sir jokes, Chief sir refreshing short and impressive class, BCG sir saying ‘yesterday’?, RL ma’am ‘Daka’ RKS sir Chiya guf, RRG sir it’s not important what you write only, it’s important how you write: GT sir’s anger, SK ma’am M5, BBP sir facial expression while teaching and YKG sir its simplest and jhurest. Those all are some of my best and unforgettable memories which I always appreciate to remember.

Now, let's talk about the lessons. I gained a lot from Prasadi within such short period of time. Firstly, you have to enjoy these two years of time as much as you can since you are certain to miss it. Secondly do not get scared much and lose your hope to do the best at difficult situation rather face it boldly by being optimistic and patient. Do not give chance to your parents to build up thought that they were wasting money on you. Never expect high without hard work. You are born to win and you can if you believe in yourself and go on laboring since we are Prasadian mere dost...

Lastly, I would heartily thank to Prasadi for making me such bold and strong girl, who was completely innocent and weak in past.

Tapasya Rai

FUNNY TELEPHONE CALL

Caller: Hello! Can I speak to Annie Wan, please?
Operator: Yes, you can speak to me.
Caller: No, I want to speak to Annie Wan.
Operator: Yes, I understand you want to speak to anyone. You can speak to me. Who is this?
Caller: I’m Som Wan. I need to talk to Annie Wan! This is urgent.
Operator: Look! If no one was injured and no one was sent to hospital, then that accident isn’t an urgent matter. Maybe you find this hilarious but I don’t have time for this.
Caller: You are so rude. Who are you?
Operator: I am Saw Ree.
Caller: Yes, you should be sorry, now can I have your name please?
Operator: That’s what I said. I am Saw Ree.
Caller: Oh.... God !!! ([dial tone]...
MEMORIES...

I feel like it was just yesterday when I took my first step at Prasadi and now time has come to head to different goals and dreams gonna come true very soon that dream which couldn’t be possible without Prasadi. Prasadi has created a beautiful chapter of all the feelings and memories within 2 years. A step from G12 to M4 was really unforgettable. The time of fun and giggles within which I belonged with all my friends has now created a memorable trace inside myself. Days were easy when friends were there, we fought, we shouted, we laughed, we knew how to enjoy every single second of life in togetherness. Studying became a part of fun and it stepped an easier phase to move with friends. I will really miss all those awesome gossips and talks we had in G12, all those funny pranks and jokes. Memorable picnic and wild picnic dance with unexpected fun. Ah, yess! How can I forget the time I had in tour. Late night running here and there, living a life out in a different way reminds me of days I spent with my besties and management group.

Prasadi taught us to walk in rules and regulations, to utilize every single second of life and to know the value of time. Difficulties may arise, but I have aimed to keep moving myself because everything is okay in the end, if it’s not ok, then its not the end.

PRASADI TEACHES

Never shy, this is why
Do not let your confidence burn
You will never know, even opportunity passes by
Never turn, from the meaning of learn
Never lie you know why
Else into pool of darkness, you may get drawn
Your dignity never reaches high
Always learn, knowledge you earn
Always try, never cry
Success is the one, you get in turn
Let your hope & confidence freely fly
Never say never, try forever
Never stop, on the way to success club
If you are clever, do hard labour
Reach the mountain climb its top
You get in turn, double or triple
Never drop, from its top
Success, fame, name and it all
Gather your weakness, shut it up
On your face a shine of pebble
Always love, your learning job
Nice & sweet smile with a cute dimple
The best potion you make than the medicinal herb
Prasadi teaches you and Prasadi makes you able.

Bibek Subedi
XII Sci. M5
My mind still contains an apparent picture of the day, on which I decided to admit in Prasadi Academy for higher education. To choose Prasadi means the commencement of an adventure to me in the sense that I had to live alone far from my parents in a completely unknown place with totally unfamiliar people. I knew that I would face lots of unexperienced and even hard situations but I convinced myself that without pain there would be no gain. With the nostalgia I arrived at this city and my journey of education in Prasadi Academy initiated.

I remember that I had entered the class on first day with the feeling of excitement, enthusiasm and little bit nervousness. A beacon of hope was glowing brightly inside me to achieve the goals. But in contrary to the situations I found huge difference. For the first couple of months, I felt very difficult to conjoin my study and living and rather became a homesick. I encountered quite unexpected and dreadful situations. Whenever it seemed I was in severe difficulty, I used to remind the theory of Charles Darwin; one should struggle for the existence, which encouraged me to keep on moving. Gradually I started to get used to (familiar) with those situations, began to feel more comfortable and the challenges were being friendlier. Formerly I wasn’t able to complete my tasks at time but slowly with constant effort I balanced my works and managed to be punctuate. I got adjusted in the friend circle. I started to feel the life filled with same energy as it used to be when I was in home. Progressively the situation which was contemptible for me became a source of contentment.

When one is in difficulty she/he feels that time is taking too long to pass and during the good time one feels that time is passing very fast but we all know that time has its own constant motion. Same happened to me. When I was in my difficult situations, I felt it much tedious but after I managed and made things alright, found such wonderful friends and got to know the precious teachers, I felt the time accelerating rapidly that I have arrived at the edge of the journey. I want to live up this more but the two years of journey is now at its boundary and I have to depart. Although the time of separation has come, these memorable events cannot be separated from my memory and I’ll always miss these events, friends and teachers.

Prasadi Academy has provided me the chance to develop many experiences and helped me to mature. It has taught me to live away from parents and solve the problems myself. It made me more practical, patient and punctual. I learned to struggle and face the difficult situations. I want to thank Prasadi from the core of my heart for these greatest lessons of the life. It showed me that life is dynamic where pain and pleasure alternately come and go. Hence I admire Prasadi Academy and I am proud to be Prasadian.

THINGS THAT GET NEVER ERASED FROM MY MIND

It was raining when I went to Prasadi Academy on the first day. I was so nervous to speak with anyone. Time kept on passing and I made new friends. There were many besties in the XI where we made a lot of noise.

Let’s move to grade XII N4, right? The first word comes from Subham and Ellen when the teacher enters in the class as “Good morning sir/ mam”. Here we start from a silencer Suraj hang Rai who never sits straight, having a back problem. Suraj Kasaju is another guy who is found to be the wet cat or the class who have no any smile in his face. Jay Bahadur is a Drummist and Nishant a singer. Ellin Bista having a still body always tries to fight with Pramish who is known as “Mark Hendry” of N4. Nirjal and Rohan two besties who can never separate from each other. We had a group of five man army in a single group of Nishant, Kapil, Jay Bdr., Sudip and me (Himal sen) . we always made our class rocking when we had a singer and a drummist too.

Here comes Juna and Rosana as a silencer as well as statue of the class from girls side, Trinka and Anuska are supposed to be hair stylist, Simron, who had got two statue friends, needs to turn back to make noise and she is always caught by the account sir. Luniva who has red hair needs to sit alone, her bench partner Pratha is supposed to be the tourist of our class.

How can I forget the teachers like Saroj sir who always says “however do help me” RKS sir telling “haina, haina” after telling every correct sentence. Here comes our class teacher Binod sir who says “bhai padhunu mann xaina, college k garna aako?” RKN sir saying “bebahakup” when he angry. Our tourist teacher Bhogi sir who always respects us and says “hello sir, hello man” when we make mistake. Our another tourist mam Rama ma’am who gives out of course lecture. Oh! Here’s our English ma’am Amala Dhungel ma’am who never punished us.

I cannot forget funniest friends like Satish, Adhish, Biki, who try to sleep. Grishmi and Ashma from girls side as a laughing hunter and get caught. Shneya, Aruni Lama, Susmita, Rasmitsa remain quite silence. Here’s my jigri ‘kapil’ who always want pen from girls side as I taught him to ask pen with girls.

Finally I wanna say is that “I salute all the staff, teachers, chief sir, principal sir who showed us right path. I’ll be missing these two years of Prasadi. I am proud to be a Prasadian.

COLLEGE DAYS

Standing alone at the college gate,
And recalling the days gone by,
I recall my first day in Prasadi,
Entering the empty classroom.

Oh! How quickly time flies,
Two years have passed,
But it doesn’t seem that long,
With memories as fresh as the early morning dew.

These two years have taught me so much,
Giving me better reasons to live for,
Showing me how life should be shared,
And the beauty of every relation, if cared.

Soon, our college life would be over,
And we would be taking our separate ways,
Like sand slipping out of hands,
With only memories of by gone days.

This is the sour truth of life,
Whatever has a beginning has an end,
But no matter where destiny takes us,
Keep in touch, we’ll always remain friends.

Now it’s time to bid goodbye,
Wish life could just rewind,
Once again become college guys,
Till the painful moment of separation.

JOURNEY IN PRASADI ACADEMY

It seems like yesterday when I entered the gate of Prasadi Academy. I was so happy and excited to be a member of Prasadi family. On the very first day of my college, 31st Asadh, 2069, me and my two friends Merina and Sneha entered the world of Prasadi Academy. We were nervous, excited and happy as well. Three of us got separated to three different sections. I was sent to section E13. All of the new faces, but among them, only one face was known to me and she was Rashmi. She was so happy to see me in her section. We became best friends. Slowly the friendship list of mine was increased. I made lots of new friends. Among them Divya, Limi, Dipa, Simron, Purnima and Bipana were always there to make my each and every moment of grade XI awesome.

Finally, I stepped in grade XII N2, after completion of grade XI; we three best friends, Divya, Rashmi and me always had a fear of being separated in grade XII and unfortunately we were separated. All of us three girls were very upset. I was sent to section N2, Rashmi to N4 and Divya to N5. But during our 20 minutes break, we always used to meet each other and make loud noise. Out GT sir often used to come and scold us but we never got changed. We always had a group of girls and shout, laugh and gossip. In the journey of N2 I always had a good company of Nabina, Sneha, Pratima, Diprina, Anjali, Reza, Shreya and Rojina. We were never tired of singing songs, gossiping and cracking jokes.

The most memorable part of Prasadi Academy was our first tour. We were the luckiest batch that we could go on a tour with Prasadians. It was an educational, enjoyable and memorable trip to Chitwan and Pokhara. During tour as well we made lots of new friends with whom I really got very close. Shweta, Grishmi, Monalisa, Nelisha, Binisha, Rimsha, Cristina, Smriti, Rinku, Garima, Nitesh, Ankeet, Suraz, Mahip, Sushan, Gaurav, Shubham, Sachin and Pradip added a sweet taste on a tour and made it unforgettable, memorable and enjoyable. How could I forget the picnic day, the one and only day when we danced and sang whole day with Prasadi friends. Ratna Man Dangol sir’s class was really interesting. I find myself very lucky that I got chance to attend his class.

Ahh… there’s a lot of memory from Prasadi Academy. Each and every teachers of Prasadi Academy encouraged and inspired me. They were really frank and nice to me. I will never forget my new name kept by Panthi sir during our tour as “DJ”, URT sir’s style of calling my name out, non-teaching staff’s pronouncing my name as “Desi” … Pankaj sir’s expressions, Rama ma’am, Manju ma’am and Amala ma’am’s way of inspiring, Saroj sir and Bhadra sir’s way of getting high tempered, Sudden appearance of chief sir and many more, it’s uncountable and inexpressible.

I enjoyed a lot in Prasadi Academy in these two years’ time. At last I did like to thank all my teachers, friends who supported, encouraged and inspired me throughout the year. And feel proud to say that “I am a Prasadian”.

XII Mgmt. N2
SOMETHING I FEEL...

Many of times we sit down to write something, we have so much of mixed feelings in our mind and heart, we feel like noting it down but we don’t get words, isn’t it? Yes we modern people know that these days facebook is trying to extend a hand of friendship towards us, isn’t it? It tries to ask how we are feeling now- dumb, happy, excited blessed etc. yes, facebook does ask but what after sharing our feelings, it just fades away with the news feed.

Friends, most of the times I have found that the first glance what I get of any person isn’t the real him/her. It’s just the momentary description. So, judgment about them or their characters must be done only through detailed analysis. Most of the times we don’t show what is in our heart or express our feelings to everyone because we do fear being ignored, being made fun of and taken in negative form. We do share our alien feelings and amazing worried thinking only to our tagged best friends.

I think knowing a person is really a difficult job because nobody can read up another person’s mind and heart. But I want to give you a chance to know how I feel; what I feel, friends. If someone was there to ask me “How can we become happy?” My answer would be: “The simplest way to stay happy is letting go of things that make you sad”.

Friends, yes we meet up with many people in this long journey of life and you must be honest and true to everyone. You must deliver a good speech of trust and friendship. It’s because being honest may not get you a lot of friends but it’ll always get you the right ones. And, do keep in mind that, trust doesn’t come with a refill once it’s gone, you probably won’t get it back, and if you do, it will never be the same! And, friends that’s a fact. In this journey of life, sometimes we make mistakes and sometimes our partners do. But I think being human means knowing to forgive. You better acknowledge that “weak can never forgive forgiveness is the attribute of strong”.

Friends, I think we all know that the most beautiful relationship in the world is of “mother-child”. But, I found the relationship of best friends too a precious one; worth mentioning, isn’t it? Best friends are the ones who know how stupid you are and still choose to be seen with you in public specially we teenagers know how important best friends are because we all have realized that having crush is useless until you have your best friends to share about it. Best friend isn’t the one who’s just always there for you. It’s someone who understands you a bit more than you understand yourself. So, I feel, sometimes talking to our best friends is the only therapy we need when we feel low, don’t you?

I do sometimes feel that we all must be thankful to God for everything we have in our life. You wake up every day, you get to see the beauty of sunrise, feel the mildness of wind, that’s great, isn’t it? Even when you get sorrows and failures you need to sing about God’s grandeur because these sorrows and failures are the ones that helps to taste the sweetness of happiness and success. And I think my new feelings will continue to rise in my heart until I breathe. So, I feel that one thing you must remember is: “Do respect love when it is given not after it is gone!”. And my friends, always believe this thing –love comes to those who still hope even though they’ve been disappointed, to those who still believe even when they’ve been betrayed, to those who love even though they’ve been hurt before.

So, be honest, collect as many best friends as you can, love them to the fullest and don’t dare to forget to be thankful to God for all these beautiful things in your life.

HOW CAN I FORGET MY DAYS ON PRASADI

I still remember the first day to my college ‘Prasadi Academy’ just alone with all other unknown faces, but it’s time to depart from Prasadi. These two years’ time in Prasadi passed like a blink of eyes. I studied very willingly during this period…. Whenever I thought of departing from Prasadi Academy I found myself sad and depressed but the memories I have collected provide me energy and strength to be forward in my coming future. Indeed, Prasadi has become the great platform where one can bring excellence and talent out of himself/herself.

I can never forget all those moments I have spent here. What I experienced is that Prasadi Academy is only one of the best alternative for our bright future and excellence. How can I forget these two years of my life, where I have collected lots of cheering moments. I still remember doing lots of homework till midnight, carrying bundle of books and copies, preparing for exam whole night, surprise bag checking, also unexpected entry of chief sir in the class … But I will ever remember his encouraging and inspiring lectures, which I can’t get back now. Other teachers were too supporting and friendly. They used to give very inspiring lectures with funny dialogues. I will ever remember RRG sir’s English, brilliant lectures with his saying “what you write is not only important, how you present is important”. How can I forget our GT sir’s way of teaching physics. We used to have a lot of fun during this period. RKS sir with a nice cup of tea. SBH sir’s double meaning lectures with his famous dialogue “Ghaas haru question nai sodhainan” . YKG sir’s very good and most simplest and jhurest question. RL ma’am ‘daka haru’. SK ma’am’s irritating. SKS sir’s you stand up etc. these all moments are memorable for me. I will miss my two best friends Sujita and Shilpa who always supported me during these two years and my close friends Subechha, Muskaan, Ita, Stuti etc. How can I forget the picnic with non-stop dancing and enjoying with friends. I can never forget time spending with my friends and teachers. Each and every moment seem to be memorable forever.

Finally I would like to thank ‘Prasadi Academy’ and our chief sir for giving a great platform to show the talent. Yesterday I was alone here but today I am departing from Prasadi with lots of cherishable memories. Though I will be known as ex-student tomorrow, those unforgettable memories of Prasadi will always remain in core of my heart as one of the precious parts of my student life.

I just wanna say,
..... I am proud to be a Prasadian...

UNFORGETTABLE MOMENTS IN PRASADI

There were loads of moments which will last forever in my memory. The love of teaching and non-teaching staff made us feel like home. I still can’t believe that we have already come to the end of our college life. Prasadi Academy is the best thing so far happened to me. I can never forget the fun we had in tour and picnic. I never expected I would even dance in my life but I did in the tour. There are some very good memories which I can never forget. Here are some dialogues and popular sayings of our teachers and friends:

Binod P. Sir: Eh! What happens? “Both are falls”
RK ma’am: very excellent. “No inspiration from your side”
SP sir: Baaaalance sheet. “Eh fatah!”
RKN sir: pitai khalau hai keta ho, feri!!
AD ma’am : come on everyone, “Tyo Suraj lai her na”
Ellen: khali sisi, falam, kagaz” (Don’t take it seriously. This is just for fun)

Motivation provided by teachers and chief sir will always help us in a positive way. Eating in the class with Ishwor, Shubham, Suraj and Adhis will be missed. URT sir’s warnings will be missed as well. I want to thank everyone for making me know myself even better. Hope you all guys live a great life. Nitesh and Kapil will be missed a lot…

Ankeet Amatya
XII Mgmt. N4
WHEN MY HEART WAS FULL...

Oh! It’s time to leave the college. I can’t believe this I’m so much grown up and I have passed my school and college life. I remember RRG sir who told us, “when your mind is full your heart becomes empty and when your heart is full your mind becomes empty.” It’s true today my mind is empty and just my heart is full that’s why I am recalling my past and now I am just full of emotions...

When I entered Prasadi Academy I was impressed by chief sir. We know first impression is the last impression I was willing to read here. Being one main centre and hope of my parents, teachers and my district I started my college life. But I am sorry my parents I became unable to maintain my position in first term of XI. I couldn’t tolerate this I just became emotional and lost my efficiency, I was blind, vaccum, my eyes were full of tears. At that time I was thinking to leave Prasadi. But chief sir encouraged me and provided confidence to get my aim. I am very much thankful to you sir. I remember when you told me, “Beti you have ability to achieve your goal in your life”. I felt the presence of my own father. At that time my heart was full. And once again I moved towards my aim with full energy and confidence to get victory over failure. I was continuing my study in Prasadi.

When I was nearer of my pre-board of class XII, I faced road accident and it was one dreadful day for me. I was lying on the bed unconsciously. My friends helped me when I opened my eyes I saw URT sir and GT sir which made me proud to be Prasadian. When chief sir told, “Sonu, I would come but I’m very much far from you and you …”. Only your courageous words were sufficient for me to get up from bed. Once again teachers of Prasadi made me to be thankful towards them and Prasadi. Presence of URT sir, GT sir and Chief sir’s word made my heart full.

At last I am proud to say “Prasadi is the place where care is culture.” And “I am proud to be a Prasadian.” Thank you! Prasadi and all teachers.

Sonu Dhakal
XII Sci.M5
“Education for civilization”. We started our +2 level with this motto of Prasadi Academy. The moments that Prasadi Academy provided us are the most precious gift of our life. The results with stars, unexpected 11 results, meaningful lectures of Chief sir and others, dance at picnic, tour and most essential guest lecture by Mr. Ratna Man Dangol all these moments made our class 12 a short but precious memory. These moments are really very memorable to us. We’ll never forget these memories. As we all had a great start of 12 in room no. 4 ie. N4 with our class teacher Binod sir. Binod sir used to give us lecture which used to make us laugh because of the way of his teaching. “Both are falls from the beginning” is the best one that we heard. Raj Kumar sir’s “Haina” is his best one that he speaks. Saroj sir is the best teacher of most of us. His English language is so cute. “Ok, however, do before me, don’t do discuss each other” are the best one. Amala ma’am really gets irritated while entering our class. Her best dialogue is “come on boys, come on “ and “tyo Suraj hera na tya”.

As time passed away we didn’t know we have come to an end of +2 level.

The memories that we had in class 12 are the most meaningful ones. Because we had never expected that we would be so close to each other that it would hurt when we would be apart. We have spent a lot of time with each other so the relation has got too much strong. The rockers of N4 are Elin, Nishant (me), Kapil, Nirjal, Himal, Roshan, Pramish, Jay Bahadur, Ishwor, Shubham, Suraj Shrestha, Ankit, Sudip, Satish and Suraj Hang Rai. Prasadi is the most important part of our lives. We’ll always remember the name “Rocker’z”.

As this is our last stage in Prasadi Academy so we have some more things to say. We want to apologize for what we did knowingly or unknowingly. If we have hurt anyone then we wanna apologize for it and want to wish a best of luck for our juniors. “we are proud to be a Prasadian”.

Rockers of N4
SWEET MEMORIES OF PRASADI

Ask me two abstract things which according to me, can never be swapped with any precious stone or any huge amount of money in this world. And I will say childhood and college life. They are the most enjoyable, lovable, memorable and fanciful phases of our life with lots of nostalgic and immortal memories. And yes! College period has been the best phase of my life.

I have spent about two years with my friends. They were strangers to me two years ago but now… I think I know them better than anyone else does. On the first day of grade XI, we all looked a bit nervous and excited simultaneously. We all were new faces to each other. But being classmates, we came forward and shook hands. Thus, the foundation of a new friendship was laid.

Next, my teachers who were always there for me at the time of need. I still remember Pankaj sir inspiring me to give presentation, Saroj sir telling me to solve the problem on the board. At the beginning, Business Studies and English were very boring for me but as time passed, I started to come up with them. How can I forget our Uddhav sir to whom making excuses during hair checking was a new challenge every time.

As nothing last forever, my journey of Prasadi has come to an end. But I am glad that I chose Prasadi to pursue my higher secondary studies. Prasadi made an ordinary student like me to think special and to do great. So, thank you Prasadi Academy, thank you Chief sir for choosing me the students of the year 2070. Proud to be Prasadian!

Roshan Kumar Yadav
XII Mgmt. N3
PROUD TO BE PRASADIAN

It is the best institution
For preparation
As it makes us similar
As radius of gyration.

It makes us capable to resist
Any oxidation and reduction
As a result we never have to
Face any problems of suffocation

Among students there
Is no any comparison
So each and every one can
Get better education.

They design us and show
Us our perfect destination
As only perfect machine
Is designed by great technician

Its goal for
Care and prevention
Ultimately leads
Toward new invention

They try their best
To make us Nepolean
So we are proud
To be Prasadian...

Dipak Shah
XI Sci. V6

A LETTER TO PRASADI

To
Members of Prasadi,
Dear sir,
Last year I upgraded to a Prasadian. I was excited but by the tight schedule and less break disappointed me. Gradually, I met my friend, we started to talk, play, study in G10. We used to have lots of homework pressure, practical assignment. I cannot forget doing homework at night till 3am of next morning. When I was promoted to grade XII then I enjoyed the days in Prasadi. I can never forget some funny moments with teachers. And the funny dialogues of teachers,
YKG: easiest and jurist
RKS: moj garne moj, chia khayau…
RPY: Don’t absorb it, absorb it
KBP: there by (sound like her bhai)
BBP: but…
RKN: “girls” …, pitaikhanchau…

After leaving Prasadi I never can forget 20 minutes break, samosa in Prasadi’s canteen surprise bag checking, hair checking, pressure during homework checking by management, gossiping with friends, eating chocolates in last bench, rotation of bench.

Now the time of saying good bye to Prasadi is coming closer and closer. I’m going away from Prasadi but all the memories that I had with Prasadi are lying in the core of my heart. The days with my teachers and friends are unforgettable. At last I would like to thank all teachers who supported, encouraged and inspired me. I would like to thank our Chief sir to prepare us to fight against obstacles in our life.
Thank you sir,
Yours Prasadian

Milan Nayak
XII Sci. M4
Two years have gone by in the making of you more human! In these years, the staff members and students have grown together - both you and they... you have battled together... you have fallen together... and you have rejoiced together. You have always been the subject of your teachers' actions, the object of their thoughts and the compliment of their endeavors. It is through you, that they have learnt so much. Yes, you have taught them so much!

It is through you that they, once again, experience the joys of school life...by being a part of your pranks, by sharing your secrets and by sharing your jokes. Your days of adolescence, I am sure, were the toughest to deal with. They at times, might have been a little too harsh with you. But trust me, it was not to hurt you, but to make human out of you. It is all part of the process.

And today, as you stand at the other threshold of the institution, do not look back at what you have not done, but look forward to what you can do in the future and take with you the fond moments you cherished here.

Change is the only thing that does not change; change is inevitable. Therefore, a lot will change, for sure. But the memories, the fun, the experiences... these all can’t be taken away just like that. High school life is still the best ever. Here, you can feel the hardships, sense of responsibility, the fun of life, the game of love, the puzzle of choices, the mending of heartaches, the signal to move on, the time that you are being pressured, the friends you can talk to, the teachers you once both loved or hated, the events you will never forget.

Every start has an end. But, the question is: Is this really the end of it? I don’t think so. I know that there’ll be more to come. Think positive always. Set your choices and goals in life on the right track. Cite your target and aim to success!

All of these, all of what you have now were made possible by your hard work, the sweat and blood of your parents, teachers and the guidance of God. Our parents are our greatest treasures and carriers of traditions and cultures. They have gifted you with roots and wings. Yes, it is true your wings are grown, but remember without roots our wings would never grow.

May it be that what you have learned over the past years will mold you to be better people: people who don’t just go along with this fast-paced world, but people who see the end of the road clearly. As what Mr. Gasapo said, “You must have a 20/20 vision”.

Dear students, HSEB Certificate is your key to that dimension; a dimension which will offer you a lot of opportunities to choose from. And from these opportunities, will be your life. Live that life. Never waste it. Stand to what you believe in is right, as long as it is really the right one. Show the power of the youth. Don’t put yourself down caused by the words of other people. Take it as a challenge in life and say, “This will pass.” Yes, “this will pass”. You have passed a lot of controversies and difficulties. You have survived and will continue to survive the quest of life.

So, you are given to the world armored with the P-factor-the PRASADI factor. Go! The world has a shortage of young educated people like you. Go and make the difference. Be righteous in your actions and dignified in your ways. Let your words bring happiness to others and your actions bring hope. Be good to people on your way up. They will hold you up when you tumble down. Believe in yourself, and you can do what you want to do. And some time in the future, do come back to your alma mater to tell your teachers the stories of your success…. for in your success lies their life’s fulfillment. I would like to share two lines with you... I read it somewhere:

The future lies before you like a hidden mass of snow,
Be careful how you tread on it, for every mark will show.

Keep the knowledge you have learned. Live the dreams you have dreamed of. Show the world what you really have. It is our hope that together, forever, we will stand. PRASADI bids you goodbye today, but never will you go away from the memory of your teachers. You will look back to your alma mater for it is here, where it all began. Adieu and see you again in the crossroads of life.

Bhavatu Sabba Mangalam! (May All Beings Be Happy!)
How would you like to introduce yourself in the context of the field that you are involved in?

While simply talking, I prefer introducing myself as a theater artiste since I began my career with theatrical performance. I feel that I have been able to perform better in theater than in other fields. Theatrical performance is only the common medium of art and expression. So, I have been related more with theater work. In the latter period, I have worked as a film actor and director as well. For this, the credit goes to theater experience because theater performance is the basis of various fields.

Were you interested in literature? If yes, in which genre?

Yes, my interest was in poetry. I still love literature. I used to write poems before I entered the theater field. Once I became first in the district level poetry writing competition. I feel the beauty and the liveliness of poetry encouraged me to be in theater work. In fact, a poem expresses the inner feeling or desire concerning one’s social and cultural aspects.

What do you say if you have to clarify further the relation between you and the theater?

I have a strong relation with theater and it is like Nepal has with Sagarmatha. I understand this as the reptilian relation of a man with land. Theater is as much important for me as land is for the reptiles. So, theater is my base which I should not lose until the last moment of my life.

You reached India in the process of study. You would get a lot of opportunities there. Why did you return to Nepal?

There was a challenge to upgrade theater along with the advancement of electronic media and consumer society. There was a necessity of an academic theater artiste. In fact, I went to India only to study further for the development of Nepali theater but not for any opportunities. I was already confident that my sacred land Nepal is my place of work.
Would you please say something about your formal education and its role for a theater artiste?

I began my formal education from Prithvi Narayan Campus, Pokhara. I completed Bachelor’s Degree in Geography and History. By that time, I had already entered the theater field. Then I got a full scholarship to study in National Drama School, New Delhi and completed the higher study in acting there. After that I returned to Nepal and started working for the development of theater. It is the general belief that formal education is needed in every field. My meaning is the need of formal education should not be limited to only one field of career. We should not have only the knowledge about curriculum but also out-knowledge related to an area of our study. It brings us an educational maturity. Informal education or out-knowledge strengthens the formal education. So, informal education is equally important to understand a lot of things.

Would you share the story of your success with us?

In fact, inner desire is the means of success. The inner interest sharpens one’s talent. Time determines a person’s interest or desire. A certain environment is needed to motivate such an interest or desire. I had such environment in my house. My father, Durga Baral (Watsayan) is a famous cartoonist and fine artist in Nepal. His support and inspiration are the sources of my success.

General people have a thought that those who are involved in the fields of art, literature and theater have a difficult and poor life. Is it true?

It was a hard life for them in the past. It has changed with time now. There are artists or artistes living a better life than those who are in other professions. There are a lot of positions and chances in art field. Next important thing is that ones who work well, they always get good position in every field. They never have to live a troublesome life. In every field, there is always a poor life for those who do not work sincerely.

The involvement of experienced theater artistes in film line is increasing these days. Is it appropriate?

There is a lot of change now a days. The concept of making films lively has started. For the advancement of this concept, the acting skill of theater artistes is seen more appropriate. But it does not mean that only the theater artistes are able. This should not be the limitation, either. There are many famous film artists who have never worked in theater. My point is that if they have experience of working in theater it will be an extra quality for them like ‘fragrance in gold’. Now onwards, the involvement of theater artistes and film artists in each others’ field will further increase.

What is the main achievement that you have got by being active in this field?

In my opinion, theater plays a role of leading source in the development of a nation. Through theater, I think I have developed a capacity that spreads the message about the establishment of all developed society by protesting against
the perversities taking place in our society. I have been able to contribute something in the development of our nation by creating national consciousness through theater. I feel that this is an important achievement.

**Our plays are much dependent on foreign stories and dramas. Is it because of the shortage of domestic stories and dramas?**

In fact, we are either unable to run with the time and society where we are living or we are careless with the situation. The already available contents that mean stories and dramas have been old and unfit to address the present time with and move ahead. Next thing is that we have worked for an appreciation. I think we have failed to understand the outside world and context in order to develop theater. For the promotion of theater, it is very essential for us to understand writing skill, presentation and situation of international standard. So, it is not because of the lack of local stories and dramas. There must be a comparative study on this for its progress.

**Is it necessary to have course about theater included in school curriculum?**

There is a strong lack of proper cultural policy in Nepal. It has affected the views of seeing the art and culture. The inclusion of lesson about theater from the lower level of school will upgrade the creativity in children as well as bring progress in theater. Drama is the united form of art. It plays an important role in one’s personality development. Theatrical performance is the medium of the expression of the change in human civilization. It keeps activating a person. Hence, state needs to prepare a proper policy to include course about theater from the primary school level.

**What is your experience in acting and direction since you have worked in the fields for a long time?**

In fact, experience makes people mature. It upgrades their working capability and teaches them other many new things. In my view, how much we can perceive out of all they are to be learnt is important. We happen to make a lot of mistakes in life in the process of learning things. But we should realize mistakes otherwise we have to face a great problem. We need to have positive thinking to everything. The work guided by positive thinking is never useless but the eye to see it can be harmful. While working, we should take care of every small thing. They can also be important for us. In fact, none is perfect. For this, we should work hard to learn and understand things.

**How much satisfied are you in your profession?**

Everybody remains happy while getting chance to work in the field of his/her interest. The path of my choice is really difficult. In fact, the meaning of life is struggle. We get a different kind of pleasure in the success achieved through a struggle. I enjoy pain in struggle so I am satisfied. Desired trouble is better for me than unearned pleasure.
Is the establishment of a high quality college in the development of Nepali art necessary?

The establishment of a college for the advancement of art in Nepal is quite necessary. If there is a teaching college like this in Nepal, it does not take a long time any more to uplift Nepali art. In order to bring a cream product in acting and direction, a separate theater college is strongly required. There is already a college for music, fine art and films. Now there is necessity of a theater college.

What kind of role do you think the state has to play in the upliftment of an art field?

First of all, state has to bring a change in its eyes to see art and culture. It is necessary to prepare a policy for this. The cultural activities of a country are the parameter that measures its civilization. The richness of civilization popularizes a state’s cultural activities. So, state has to give a value to its cultural activities. Art and culture help one flourish his/her personality. So state has to focus its attention on preparation of curriculum in the development of art and culture.

Is the role of theater important in social change?

Theater is a source of consciousness. It tries to weaken the perversion in society focusing on the support to strengthen good aspect. There is a great role of theater to go with the changes in the world. Especially through social, cultural and political consciousness, a theater can imagine a society that is full of justice, civilization and all development.

Is there anything left to say in order to clarify your talent and capability in the field of Nepali theater?

In fact, we sharpen our talent and develop our capability while working. Practice is needed in order to introduce one’s talent out. For this, a working place is needed so that we can move ahead with action. There are still a lot to be done. I am doing my best to reach the destination.

What kind of support and advice will you have to those who want to get involved in theater?

I would heartily welcome and respect those who want to develop their personality being into this field. Come and let’s work together. Let’s use our talent and capability in this theater world with co-operation and honour. It does not take a long time to gain success if it is our inner interest. It is good to enter this field with certain aim. One can achieve success in this field if he/she understand life in the form of struggle.

At the end, what kind of advice would you want to give for the students of Prasadi Academy like us?

In fact, I am happy that an educational institution like Prasadi Academy has been publishing interviews with personalities from the fields of art, literature and film in its annual journal. I would like to express my deep gratitude to Prasadi Academy for the space given to me as a theater artiste this year. If all the higher secondary schools from all over Nepal contribute something in favor of art, literature, culture and plays, they will get enriched soon. I want to suggest that you should move ahead with deep interest and desire in the process of career building. If there is inner desire, there is success in every field. Success is in your hand if you work with honesty and carefulness. At the end, I would like to wish Prasadi Academy and the students all round progress in future.

Memories:
Almost all the moments spent in Prasadi Academy from the very first day to the day of departure are memorable.

Message:
When you were born, you cried while the world smiled. Remember to live life such that when you die, you leave with a smile while the world cries for you.

Name: Supriya Thakur
Class: XII, Section: N2; Fac: Mgmt; Code: 5133
Email: supriyathakur@yahoo.com

Memories:
- Always happy with friends
- Crying with some friends
- Being happy, laughing, talking, dancing
- Bunking classes
- Dancing
- Leaving the school
- Farewell party

Message:
When everyone is smiling. Be too big for worry and too small for anger. It takes more muscles to frown than to smile. Be positive. Study hard. Work hard. Success is all yours.

Memories: Firstly I did reflect in studying in Prasadi Academy. But, at the time of leaving, I made new friends in the college and started to enjoy being in Prasadi. In these two years, I really enjoyed with my new friends. Moreover, it was full of laughter during my first year in 'XIII'. And as I went on realizing the class was changed, but in this yr there were full of surprises. we were taken home to Shilpgram and Pokhara (two memorably times of life). And the regular sports points to Pokhara pink (was just awesome).

Message: Just enjoy being in Prasadi as it has got full pleasant surprises.

**MEmories:**
At first, I thought it was going to be a very short time but as the days passed by, I started to realize that time flies really fast. So, the memories beginning to appear in my mind. From the first day of school, I remember the teachers, my classmates, and even the people I met outside of school. The whole experience of being in school was a great one. I will never forget the good times and the bad times.

**Message:**
If you want something, then struggle to get it. If you don't struggle, then you never want it.

Memories:
- Having frequent haircuts, reciting poems & ghazals, late night homework preparation are my best memories in Prasadi.
- I won’t forget the extra physics class.

Message:
The first step to getting the things you want out of life is to decide what you want.

Name: Miraaje K.C.
Grade: XII, Sec: M2, Fac: Science, Code: 5304
Email: miraaje_kc@live.com

Memories:
- Petty fights, arguments, din hona, canteen ka struggle, Randh, sawat hua, physics ka risht, CR man ko period, Rebirth.
- Honesty, kath ho ke hoops, jina hona, course homework, class. That moment when half of the class was crying in class.

Message:
- Whenever you feel sad, remember somewhere in this world a kid just dropped his ice cream.
- In here, the right to obey, there is the right to rebel.

Memories:
Each and every moment spent in college is unforgettable. Once you have bag checking, daily homeworks, eating, etc. I remember a lot. Guess, in XI, I was with my best buddy Khadga Shresta, Manisha and Pragya will always be in my memory. Daily fight with nitika testing traffic with dance and beautiful jokes. Of course, in XI, Pragya and Anagita, crazy things at Prasadi & Manisha, apple nike, a story without a story.

Message:
Failing test will not make you mean any. Keep trying, do not give up.

MESSAGE FROM SCHOOL CHIEF

It is a matter of my great pleasure to say that Prasadi Academy has just turned to be of 16 years. The Academy has succeeded to send out its 16\textsuperscript{th} batch Science and Management students after their completion of +2 study. It seems to be simple that every year new students come to join this institute and pass out with the completion of their +2 study. But there is the matter of joint contribution of teachers, staff, students and parents to come as new products that can face the new challenges and global changes. It is my confidence that Prasadi Academy has not left any stones unturned in order to impart quality education for the production of compatible manpower demanded by the modern society. This great achievement has been sourced by no other than the grand sharing of knowledge, experience, hardwork etc. among students, parents, teachers and the institution themselves.

I am very glad to come with ‘Prasadi Souvenir 2071’ at this moment. The variety of literary texts inside this souvenir deserve to be informative and entertaining. In fact, it is a literary platform where students have presented their creativity with articles, stories, poems, essays, jokes etc. based on their experience, knowledge and learnings in practical life. I am sure that this is an opportunity for them to express themselves with freedom that enhances their imaginative power. Moreover, this opportunity is supportive to them for deepening their knowledge and widening their understanding of the surrounding world. I would really like to thank all the students for their creative efforts to bring this souvenir into success.

Prasadi Academy can not walk alone, but always follows the policy of working together in order to conquer the apex of success. I believe that we need to continue working together for materializing our commitment towards the development of education in Nepal. We need to carry on our collective enthusiasm, wisdom and dedication to be on a new height in the days ahead. Then only our vision for a better Nepal and a better world will come with success. Therefore, Prasadi Academy always expects a genuine co-operation from all the sides- teachers, staff, parents as well as students.

Bikram Rai
Chief
