Seventeen years of glory has elapsed since the establishment of Prasadi Academy and it has become able to make the trademark of excellence in education. The incessant effort of teachers and staff has driven this institution to achieve its goal by inculcating the students, which is the demand and desire of parents, society and nation. While meeting the degree of excellence different hurdles are sure to occur but this year it occurred differently which did not leave Prasadi alone. We happened to meet irreparable loss of our student named Bikey Shrestha and some important structures as well as documents. In very short period of we had to recover the losses which were urgent. We did not lose our resilience and got dedicated to our duty and responsibility of providing students with quality education without any care and anxiety. To boost the confidence of students and parents/guardians, we constructed zero floor class rooms and commenced classes without any delay.

Now, I am glad to come with the voices of students in the ‘Souvenir 2072’ by overcoming the nightmarish moments caused by the natural calamity i.e. 25 April Earthquake. This souvenir has become a platform which encompasses the literary as well as ingenious creations. Students are the storehouse of knowledge and imagination which are rarely emanated in academic performance and remain silent. Which is why, this annually published souvenir has helped students discern their potential.

We are here as Prasadians because of team work in which there’s the pivotal support of parents/guardians too. So I would like to thank all who are the part and parcel of the success of Prasadi Academy.

God Bless Prasadians!

EDITORIAL

Since publication of the first edition of Prasadi Souvenir, its main motive was to let the Prasadians develop their personality to the fullest by exploring new horizons and not limiting themselves to bookish knowledge. The annual publication gives them an opportunity to express their highs and lows and everything in between while in Prasadi. It not only commemorates the worth mentioning but also remembers tiny, silly and funny incidents which have made a place in the hearts of Prasadians. The handwritten recollection of autobiographic memories certainly fetch smile on Prasadians’ faces whenever and wherever they decide to open the pages of this souvenir.

It has been laying poems, paragraphs, short essays and reflections of Prasadians. The interview section of the magazine has always been more informative and resourceful to its readers. Furthermore, it has been incorporating suggestions of its avid readers in each of its new editions every year in order to make it more interesting and joyful to read. No matter how many years of publication it passes, the goal of the magazine remains the same, which is to give platform for young, innovative and radiant minds of Prasadi to convene.

Once again, we would like to reiterate that responses to each edition will encourage us to work even harder to make the magazine worth reading. We are really grateful for the resources and guidance provided by the head of the institution to bring the magazine in this form. The entire management team along with respected teachers remained a source of inspiration in the whole process of publication. Finally, before bidding farewell, we would like to share a mantra that we learned being Prasadian for life with our dear readers, which says, “Never stop learning as life never stops teaching.”

I am pleased to learn that the Prasadi Academy Higher Secondary School, Manbhawan, Lalitpur is bringing out a Prasadi Souvenir 2072 on the 17th years of its establishment.

Education is the key for the progress of humankind. It makes people more civilized and cultured. It helps to create an ideal society. The development process of each sector of nation is guided by proper education. Hence, we need to make our education system qualitative, competitive, scientific and practical for making our society more prosperous and developed. Government is always effortful to make education easily accessible, cost effective, qualitative, modern employment oriented and practical to all citizens.

The contributions made by the founders, social activists and educationalist to establish and smoothly operate this prestigious academy with realization of quality education are commendable. Students who began their study at this academy and graduated from here have been contributing in various spheres. I appreciate the contribution of founder, board members, teachers, members of the management team and students for their continuous effort, support and devotion.

I am confident that the souvenir, published on 17th years of installation will incorporate thoughtful, analytical and creative articles from educationalists and students. It will be useful for those who intend to know the academic status of the Prasadi Academy.

I extend my cordial greeting to the Prasadi family and wish the publication all success.

Jaya Nepal!

25 September 2015

Sushil Koirala
MESSAGE

It is my great pleasure to learn that Prasadi Academy Higher Secondary School is publishing Prasadi Souvenir 2072 with students’ academic and creative writings. I am more than happy to be informed that Prasadi Academy is a brand model Higher Secondary School that has been honored with HSEB Excellence Award for last eight years. I am indebted to the institution for playing significant role in providing quality education and guiding students on the path of progress and success. Life without education is like the flowers without incense.

Knowledge gets impaired if there is no moral value and I am really glad to know that care is culture at Prasadi Academy and Prasadi Souvenir is the expression of students’ spiritual strength that they acquired in this materialistic world. Education without moral values cannot drive society in the right direction and this should be the concern for all those schools that run whether in private or public sectors. I wish you all the best.

(Chitralekha Yadav)
Minister
It is my great pleasure to present the good will message for “Prasadi Souvenir 2072” on the occasion for its completion of 17 years in the academic era. In my information, Prasadi Academy Higher Secondary School is one of the most competent Higher Secondary School in Nepal. It is producing middle level Human Resource in different stream with high credibility, which is the strength of nations too. People’s bless will always remains with the academy for its further success. I extend my best wishes to Prasadi Academy on behalf of Higher Secondary Education Board (HSEB) for the victorious higher secondary education in Nepal. Hope Prasadi promotes positively and progress permanently in future. Finally, I like to appreciate your successful management to complete the 17th batch in Science and Management.

Thanking you all,
Wishing you best in future endeavors.

Regards

Chaitanya Prasad Sharma
Vice-Chairman
A QUICK FLASHBACK

I still remember the day when I had passed my S.L.C. and decided to join Prasadi Academy. Rest of the friends from my school questioned like ‘Are you serious? Prasadi?’ … ‘Will you enjoy there?’ … ‘Homeworks!’ … ‘Strict rules’ … and blah blah blah.

But now, on this final day of regular classes of Prasadi, I have realized that I actually made a better decision by joining Prasadi. People say, this time of the teenage is the time when one might go out of track and it is very difficult to get back if we are out at this age. So, now I have come to feel that all the stuffs of homework, strict rules and regulations, etc are not just for torture. They are for our benefits. Knowledge is not everything nor is fun. But when one can gain knowledge along with having fun and still staying in discipline that is the best achievement in life. No doubt Prasadi Academy builds a base for students to get such type of success.

Asmin Poudel
XII Science ‘A6’
Life is a book containing several chapters when one ends, another begins. And now the chapter of Prasadi is about to close soon. Though the chapter of Prasadi is short (two years only) but it is loaded with lots of memories and moments I had with my friends and teachers. So, it will never fade away and will always remain in core of my heart.

I still remember that day ‘28th Asar 2070’ the first day when I entered Prasadi Academy. Looking at pages of rules and due to rumors in market that Prasadi as the very strict college I had expected two years of my life would be boring, dull and lifeless. As time passed I found Prasadi like a coconut very hard from outside but very soft from inside.

What didn’t I get from Prasadi? I got warmth of teacher; I got knowledge of being punctual and maintaining discipline. I developed the habit of doing homework and struggling hard for exams. With my all inspiring and all loving teachers and supportive friends those two years passed so fast. Yuvraj K.C. is the best bench partner ever. Friends like Ashim, Sanjit, Manohar, Jeevan, Basanta, Animesh, Sanish, Raj, Samrat, Manit, Pradeep, Samikshya, Kripa are very difficult to get. Oh! How can I forget Sagar, Alok, Arjun and Prabesh who had always been an inspiration for me to study and work hard. Swarnim and Dikshika are the best of the best. Walking 1km just to eat that ‘chatpate’ and our long walk for college to Kalanki is unforgettable. The moment that I had spent with you all will be always be in my memory.

Wow! How can I forget the picnic at ‘Tribhuvan Park’, it was fabulous. The whole day dance with lots of friends especially on song ‘paari tyo dada ma hera gham lagyo ramilo...’ was one of the precious moment. And Anjila’s dance move and facial expression were superb.

Today, when I have only few days to study in my college, a strange pain deep inside troubles me. Silent tears covers my eyes when I think about the company of my friends and teachers. I will miss Hamal sir’s organic classes and his dialogues. I will miss English period of MDM ma’am a lot. I will miss SSA ma’am, SK ma’am and my favorite bio lab. I will miss each and everyone from ‘V6’ and ‘B13’.

I would like to thank all the respected teachers and loving friends who supported, encouraged, inspired and cared me throughout the year. Because of you all today, I have the determination to touch the moon. So, I consider my two years in Prasadi Academy to be the best chapter in the book of my life.

Thanks to Prasadi Academy.

**Prabesh Acharya**  
XII Science ‘B13’
Flash Back to Those Days in Prasadi

College (+2) life over!!!

Once I have read that memories are like…. So ‘recall it as often as you wish, a happy memory never worn out because some of my happiest memories are from my college life, the life in Prasadi… Prasadi Academy. Let’s go back recalling the sweet memories of my days in Prasadi Academy.

27, Ashar, 2070, that was the 1st day of my college in Prasadi, actually very frightening, fear of ragging, new teachers, new friends…everything new. Frankly speaking, my 1st year (grade 11) in Prasadi was really boring just because the everyday was like teacher coming to the class, lecture then again new teacher then lecture… like that and no any extra programmes. That time I was in section ‘R 11’ and I have been with my sweet friends, Ambuja, Sanzib, Bishal… . They remained always with me every time.

By the end of 1st year, my section also got changed, then I was in section ‘C 7’. The second year, the most special year of my life, gave me lots of unforgettable memories. Teachers were always helping, friends were awesome and umm… everything was great. Talking about my new friends Bhuban, Asish, Sandesh… Among them, Bhuban, my best friend with whom I can share anything, even I share my secrets with him…. all the joys and sorrows…. Ahh… everything. Umm… Umm… I would like to tell some special about my other friends: Subham hehe… owi ‘kumvakarna’, who always used to sleep in class and when sir touches him, he used to shock. That was really a funny time. (He is gonna kill me after reading this hehe…) .

Now come to Sandharva, fan of Salman Khan. He is an entertainer, always joking, cool, no any tension about study and his rocking dances in picnic hehe… ‘Jhumme ki raat hey, chumme ki baat hey’ well. …umm… talking about teachers, they are the best.

29 Falgun, 2071, that will be my last day in Prasadi. Only a few days remained. I wish it would be the beginning of college. I’m really gonna miss my teachers, friends, Prasadi Academy… just everything. I would like to thank my great teachers for close co-operation and Prasadi Academy for giving me right direction. Now from my inner heart, I can say that, “Proud to be a Prasadian.”

Kiran Gurung
XII Mgmt. ‘C 7’
Life is not mystery to be solved  
But a mystery to be alive.  
Life is not a puzzle to be justified  
But a puzzle to be enjoyed.  
Life is not so tough to make it simple  
But to sophist.

“Action bears fruit and fruit determines the path of rider”  
no better line than this had been the first sentence of my article to Prasadi Souvenir. I know, life possesses pile of problems but I strongly believe that dealing with the problems with full confidence is the factual way to live a life. I actually don’t want my article to be monotonous by saying- What is life? What is its purpose? But without writing all these my topic would not get justifications and it’s my duty…

Have you ever felt that when you postpone one problem to another and so on, a vicious circle is created and then you get trapped into it? Finally, we remember to sow seeds in the winter beneath the snow and with a belief (a false belief) that upcoming spring will bring the blooming ROSE. Success is not happiness but happiness leads to success. Destiny is merely the path that leads towards the way to bright future. Do you know what life always wants? An ambition, yes ambition. A person without aim is always failure. Nobody asks you either you got pass or fail if you didn’t take examination. In life, sometimes we have to take a step back to gain the momentum to leap further. Then you will feel problems are nothing but opportunities in disguise and it introduces an individual towards the perfection.

Life is made only for those who enjoy, not for those who take it as a burden. A drunkard spoiling his/her life is unknown about the meaning of life but for a cancer sufferer life means a lot. So enjoy every moment…

High school life, an incredible part of your life, is second light of your day, when you have just learnt to stand on your feet holding a support. Here only you are sharpen and stimulated to dive in the pond to quench your thirst. And I claim my high school life as Prasadian has been new turning point to my mission. This turning had built me up, brightened my mission, directed me to the right path, and erased all my shyness and my ignorance. For sure I will now no more be jammed with my looser as I have learnt to shake hands with problems, make eye contact with my failures and welcome my humdrums. I want to yell at the obstacles on my path of destiny. “Come and touch me, dismantle me, shatter me but mind one thing, you are powerless, you are trick less” because Prasadi had made me strong enough that rocky, intense mountains are afraid of me, stormy, wild wind begs me.

Yes Prasadi is the credit holder for my confidence (the word I sought since my childhood in me but never
got it on my own) I gained in these two years and each day of these two years was especial for me because I got to learn indispensable things everyday in V11 and B13 from my teachers and friends oh! The coolest friends (more than just friends) I have ever met. I can’t move ahead without mentioning abbreviated names of my loving, caring teachers like SSA, SH, KBP, YKG, SK, CSG, NA, SKL, GT, URT, BPP, RT, JPY, RB, MDM, … etc. Adjective would lack in the dictionary to describe these godly persons, they were just awesome all the time, a real role models. I want to express my gratitude to all the teachers who taught me, who forgot all my misdeeds and helped me out of my problem.

I am sure I will be kicked if I don’t mention my besties name, after all they deserve my gratitude because they were the one to hold me up, to warm me by their love, cheer me in hard situation. Roshani (my sole bench mate throughout the year), Aayushi, Nisha, other rocking V11 girls, Pramodita and Sushma. I had a great time chatting with Adhish, Lochan, Sushank, Hemant and many more...

If my memory power assists me I’ll cherish these moments even in my 90’s and the day I will always remember is the day when chief sir praised my handwriting in the examination hall. Oh God, I was overwhelmed … Always I will thank my Prasadi for helping me to find me, my friends and my mission..

I realized that the wisdom and the effect of any verdict can change with time and circumstances. Hence, always take a decision judiciously (the judicial decision of my father to send me to Prasadi Academy). The manner of our living will pave path towards our death. But be relaxed and flexible. Life too will pass … then you realize, it seems to be just a blink.

To all my friends:
Arise, awake and stop not till the goal is reached.

Ritu Shah
XII Science B13
MEMORIES TO REMEMBER

Some memories always bring a smile to your face, no matter how hard and troubling the situations were. At first, I regretted for being in the Prasadi Academy. Gradally, I felt comfortable and Teachers really co-operated like a family. Now, finally at the end of two years I have a lot of golden memories that will always have a special corner in my heart that will never perish away.

Style of teachers, style of Nirvik and many of my friends always brings a smile whenever I think of them. My 4 friends with whom I shared the bench for 2 years made my college life even more beautiful (Nabin, Nirvik, Sarad and Sabin). Shouting in the middle of classes, fighting for seat, being wild and sometimes sentimental added colours and joys to my college life which was going in a black and white way. Telling my own stories to Nabin and when Nirvik and Rishikesh used to hear them, the way they made joke to my emotions will always make me smile. That’s what we call friends. They just make a joke of your emotions when you’re serious and become serious when you’re joking. The way teachers like RL ma’am and SK ma’am teased me were really funny. Maths classes with Rishi, Swarnim and Anand are the most memorable ones. Playing truth and dare and performing dare infront of class were just shocking. I will never be able to gather all my friends this way and spend my time with them. It’s really impossible to forget them who gave me so much to remember. I never thought that leaving Prasadi would be so painful. Each and every moments are just hanging over my head that I dare not think how will I be able to live without them. I just thank Prasadi for giving me so much of memories to remember. Picnic at the last moment gave much more additives to my memories. Asking to one of my friend for apology ever in that day are funny. Wild dancing in the picnic was the most happiest moment.

A sheet of paper can never be enough to describe all my feelings. Miss you guys! I will miss my friends in every moment whether I’m sad or happy. True friends are hard to find and I can proudly say that I found the best one. Prasadi, I do have to say you that I love you; I love you a lot and will always have a place for you in the inner corner of my heart.
THOSE MOMENTS IN PRASADI...

A friend is someone who: (A)ccept you as you are, (B)elieves in you, (C)alls you just to say “Hey”, (D)oesn’t give up on you, (E)vision the whole of you, (F)orgives your mistakes, (G)ives unconditionally, (H)elps you, (I)nvites you over, (J)ust like to be with you, (K)eeps you at heart, (L)ove you for who you are, (M)akes a difference in your life, (N)ever judges, (O)ffers support, (P)icks u up, (Q)uiets your fears, (R)aises your spirits, (S)ays nice things about you, (T)ells you the truth when you need to hear it, (U)nderstands you, (V)values you, (W)alks beside you, (X)plains about the things you don’t understand, (Y)ells when you won’t listen and (Z)aps you back to reality…! So, I can’t forget my dearest and nearest friends of Prasadi!!, especially of B13 and V11. Gonna miss u guys!!

Two years of time in Prasadi passed so fast like a blink of an eye! It feels like yesterday when we got admitted in Prasadi but now the last moment has come and it’s time to say ‘good-bye’! Every single moments of Prasadi are marvelous and unforgettable. Although there were a bit tough time for us such as homeworks, exams and so on but we faced it and succeeded at last! Those days in grade 12 were awesome. Cracking jokes, making fun of others, laughing … with Sagar, Brajesh, Prabesh, Rishikesh, Subesh, Suraj, Ashim and many more!! In fact, we enjoyed a lot here. How can I forget the all-loving and all-inspiring teachers of Prasadi? Moreover, classes of chief sir were full of inspiration. We can’t forget them. Those funny and inspiring dialogues of some teachers like:

- SH sir: Kei Aaudaina yr! Ghass haru… very bad performance…
- CSG sir: ok… ok Boy… that is the…
- RKS sir: why … why?, ye, you chhane… latokosera
- GT sir: hehe!! Thoit yesto ni huncha!!
- BPP sir: ‘question ask’
- YKG sir simplest and jhurest question
- RT sir hey u stupid!
- SP ma’am: cork cambium …(with melody) and so on.

These all beautiful moments will always remain with me! leaving this place by getting knowledge, discipline and lots of precious moments and memories… I wanna thank to all of my friends, teachers for good and valuable support!

At last but not the least: Proud to be a Prasadian

“Thanks to Prasadi”

OUR ‘D6’

Welcome to our D6
Where all the miracle you can see.
We are the ones to keep our voice down.
And only the ones to scatter around.

Kamala is always very frank,
She is found making pranks.
Pooja is sweet and cute pie.
Urusha is one who is very shy.

Kusum, Kripa and Barsha are simply awesome blossom.
Kritika and Barsha P are popular chatter.
Sarah, Aasma and Bhawana are always silent.
We have Sonika as a lazy guy.
We have Dev who speak very low.
But Bishwas is never slow.
And the handsome- Roman
And the talented Sarthak.

Prashant never solves problem of account
As his brain is not so fast
Biplov is every bodies buddy.
And Shubam is the sweetest guy.

Rupesh is the one who is always serious
We all have some very mischievous.
Subin is the one!!!
All of us are precious gems.
We have great unity and cooperation among us.
We are expert in having great fun.
Our heart is as clear as crystal glass.
D6 is regarded as Best Class.

PRASADI ACADEMY, A DIFFERENT WORLD

Ever since the world has dipped into the modern era (the world of gadgets as I like to put it), people have forgotten the importance of nature, the value of time and most importantly the essence of life. The world now has so many inventions coming daily to make life better and easier, so many inventions, social Medias to communicate faster but we have never felt so lovely and out of touch as much as we do today. Hidden behind the screens of smart-phone tablets and laptops, we are unknown about what the nature has to offer us. We live in a world where we move forward just through our inventions but not through the understanding of each other. We shut our minds from knowing about the people around us, their thoughts and beliefs. And we blame them for being different. The feeling of togetherness is slowly diminishing with the increase in inventions, technologies and luxury. We live in a world which is capable of making tridimensional copies of almost everything but in the same world, about 900 million people go to bed hungry daily. And in this big world batting between luxury and poverty, there exists a small world, Prasadi Academy.

Prasadi Academy is a different world of its our kind that has its own principles. Prasadi Academy is such a place that has not only limited the students up to the lessons of the books but also to the lessons of life. It has given nature a chance to see the miracle of togetherness. Punctuality, discipline and adaptability that is slowly disappearing in today’s world. The strict rules and prohibition to the technologies in Prasadi Academy at first may seem a bit hard and difficult to digest but, when you are actually brought into the environment of Prasadi Academy, you realize how much capability you have inside to adapt and survive against your will. The 20 minutes leisure time and the sharp entry at 11:30 in Prasadi Academy has made the younger (students) punctual and made them realize the importance of every second. The change in section during the life span of 2 years in Prasadi Academy has allowed the students to know about the people around us, their thoughts and their beliefs and to enjoy the feeling of togetherness. I am very thankful to Prasadi Academy for making about a change in the life of today’s teenagers and for letting me to be a part of you!

Karina K.C.  
XII ‘B7’
Girls row. Just when I was about to pick my bag and rush towards the boys' row, a rather slim figure stood in front of me extending his hand for a handshake. His name was Diwasp. He decided to join me so I didn't change my seat and we sat together. Then entered B.P. sir, the best physics teacher I've ever met, the way he taught was excellent. Teachers like SBH, BPP, SJ and SSA literally lit up my adventure here. If someone would ever ask me how many friends I made in Prasadi I could only give them a few but at least they're real ones. My first day was a bit tedious and boring yet only a beginning of a new life. Then Asmin, my school friend, Tony, Santosh, Nabin, Chiranjivi all joined on our gang of mischief. Endless laughter talking in class seemed to be on a whole new level playing truth or dare, long yawns will be missed forever.

Grade 11 passed which I felt ages and finally came grade 12. It seemed like god had pressed the fast forward button in his time remote that these moments in 'B10' passed in a blink of an eye. Friends like Manish, Salina, Sweta, Sushan, Laxman, Pranat, Shital, Binit, Sahil, Ashish, Peter, Prabhat, Saurav, Sujan and Bishal shared their journey here with me and I thank them for giving me an unbelievable time at 'B10'. SBH sir’s unique style of teaching and the way he repeated every chemical term in a different vocal, RPY sir’s connect here, KBP sir’s amusing voice saying A boy … ya! (jhyappa) forever will be on my mind. So, after several years in the future if I somehow or anyhow end up to be an astrophysicist then I surely would love to build a time machine helping me go back in time and relive these moments once again over and over. I don't want to be an ex-Prasadian but that's what I have to cope up with now. I would like to take this time out to thank my friends, teachers and mostly every member of Prasadi from every cell present in my body that they've given me these 1/0th charitable moments. And believe me leaving this college is even more tragic than I had felt when I left school. …

XII Science ‘B10’
**THE THREE BENCHMATES**

Separated from a year long friendship, we were jumbled up with few others in section ‘B12’. We were strangers and enjoyed the company of our own friends. But call it a fate or was it BPP sir, we ended up together and Agya, Avilasha and Selika became ‘The Three Benchmates’. It was an awkward, obviously. But the awkwardness couldn’t stand amidst the beginning of our utter friendship!

Days passed and so did our cheerful moments. We even made a pact not to be absent for even a single day. And guess what, we succeeded!! Drawing in every page of the book, talking about nightmares or ‘chucky’ and ‘grudge’ and our crazy imaginations took us to another world during the class hours. Getting obsessed over Gregory house’s sarcastic aura, 10 and 5sos mania never came to an end. Furthermore, k-pop and k-Dramas garnished our oh so delicious moments. Watching people dance in the picnic gave us an opportunity to see our classmates anew side. Eating nothing at lunch period and then tempted by the thoughts of food stuffs by aroma of food in the canteen. (Drools all over).

Moreover, Ram’s yeeesss sir!!! Will always be a memory. Glib’s talking Rishikesh’s gibing, Shambhu’s uproarious and circuitous questions never allowed us to zero in on the lectures. The boys’ jeer in RKS sir’s class brought upon cacophony. But even in such a milieu, Birat, Sharad and Louis were always vehement towards studies. Also, Jenisha’s melodious tunes and sketches never failed to amaze us. And Urusha was always as sweet as a chocolate lava cake. A11’s uproarious laughter even made ‘B12’ chortle. And everyone else from ‘B12’ will always evoke pleasant memories.

Unfortunately, the journey of ‘The Three Benchmates’ came to an end, but the moments shared by all three of us will be treasured deeply in our hearts. Amidst all the unexpected bag checking and pressurized environment, the envisage of ‘B12’ will always remain extraordinary!

*Agya Regmi, Avilasha Singh and Selika Shakya
XII science ‘B12’*
MOMENTS

When I first came into this college I thought the next two years of life would be pure torture having only 'studious' people beside me. After spending here I realized how wrong I was. I have many friends who have made my 2 years journey in this college bearable, fun and my college life memorable.

In grade XI I had made many precious memories of 'R12'. Time spent with my bench partners Aakriti, having Sunila and Alisha as my front bench partners and Monica, Alysha and Rasu as my behind bench partners will never forget having out, outside our class (at the garden) in our break and playing truth or dare during economics class.

In grade XII I have made my precious moments with the help of my bench partners Ghale and Sanju. Having Reshna and Simran sit in front of us and Astha Khadka, Nasala and Salina sit behind us. Grade XII was more memorable by spending making lots of noise in class or in basketball court with Reshna, Rikita, Asmi, Monica, Anuska, Kanchan, Aakriti, Suzanne and Rasu. The picnic was an unexpected fun with those girls (despite the rain and mud)

However I will miss waking up early, doing homeworks, rushing to college, getting punished for being late, falling asleep in class etc.

I hope the current Prasadians will enjoy and have lots of memories to cherish here as I did.

Keepa Maitri Tuladhar
XII Mgmt. ‘C7’
The time has come to bid a goodbye to Prasadi, to walk in our own path but we can’t help looking back.

The time spent in Prasadi, we people have generally measured it in class periods, school days, holidays and eventually two years have gone. And now here we stand. Our rule is over, and its up to other lucky people to step into our shoes and take over. I will measure my time here in different way, all the friendship I’ve enjoyed those last two years. Some were pretty casual and others were much doser but I’ll remember all of them. I know every Prasadian will too. And when all the memories will start to fade, it will not be the periods or days that we’ll be counting but the friendships we have made and the time we’ve spent together in Prasadi.

Prasadi actually has made us Punctual, disciplined, and to understand value of time, love, respect… these are the things that we’ve learnt from here or these things will for sure contribute to make our future bright. And I thank Prasadi from the bottom of my heart. I’ve cherished, we all have cherished lot of beautiful memories here. The 20 minutes break, our bag checking, our home works, the bags (heavy), my classmates, my bench mates, tempo group things getting seized and many more… I will be treasuring all these memories as they have become so special for me now. of course, have problems in our life… there’s no gain without pain and how can there be a rainbow without a rain… but wherever we go and no matter how much we are troubled, Prasadi has taught us or has given us strength to face the problems to fight for ourselves and move forward.

I owe a huge debt of gratitude to all our teachers for sharing their time, talent and knowledge so unconditionally, selflessly. Yes, we know, it was your job to do it, but what you did for us was beyond the call of duty. Also, to the non teaching staffs, custodial staff and canteen staff… for keeping Prasadi safe and clean. You actually deserve some kind of medal. To the Principal and the chief, thank you for keeping things run so smoothly. And yes, the surprise entry of Chief in our classes has always brought smile to our faces. We’ll be missing this. The best way we can show our gratitude is by doing good deeds and making a good place for the upcoming generation we’ll pay that debt of gratitude forward.

Thank you.

And I love Prasadi.

XII ‘B12’
COULD NOT SUM UP IN A WORD OR TWO

As we hurriedly turned the pages of the last year’s souvenir I found myself reading about the experiences of our seniors (while the others were concerned over their photographs!). Those seniors shared their moments, first days and memorable events spent here. Most of the seniors, said they would miss Prasadi. At first I was like ‘Ha! Who are you kidding? I won’t miss anything about Prasadi! Because we all had our days when we wanted to leave Prasadi, the very next month.

We had our time when we stared at the black gate wandering about what happens next (most of them did that, I didn’t) or simply entering it (like me!). Times, when we were shocked to find a list of rules in our hands and only 19 minutes to have our lunch! We had out days when exams felt so near and we were caught up in homeworks and felt like we would die of excess homeworks. Days, when we got hungry fast, fought over somosas (they always finish so fast!), stood in a long line to have our bags checked, rotated for the clock to hit 11:10am. And days when we ran (I mean literally ran) because we were late and BPP sir always saying ‘late’. We had times when ‘picnic’ came near and became a superstar because the entire college talked about what to wear or what weather it would be like. Times, when grade 11 result published and almost everyone was happy.

If I look back now, I can see myself laughing with friends, eating late or entering library so that we could go to class late, dancing in picnic and having random pictures taken, having my heart beat fast when a teacher suddenly asks questions. And when grade 12, turned into last days of Prasadi and we were asked to write about our memories in a piece of paper, I realized that I couldn’t sum up my entire Prasadi journey in that. I had lot to say and share. I wanted to thank my friends (all of you, the one I know and my classmates), teachers and the entire Prasadi team. Our library ma’am for being so sweet, our bag checking and nail, hair checking ma’am for being strict (I guess), our ‘didi’ for taking with us nicely, and others as well. I seriously thought I wouldn’t have words to say, but even after writing so much, I feel I haven’t expressed much. And, I’ll have to admit that I will miss Prasadi Academy.

Chand, Shuda, Salina, Jesika, Bipana, Benorika, Shraddha, Priyanka, Roza, Sujata, Pooja, Nyayeeka, Prinsa… and many more. I know you people are grateful for having me in your Prasadi journey (haha) but I’m more grateful to you all.

DAYS IN PRASADI

Prasadi this name is really precious for me. Today I remember the proverb, ‘Time and tides wait for no one’. I feel it’s only yesterday when I entered the gate of Prasadi as a new student.

Unknown place, unknown people and unknown environment has now become so own that, leaving this place is really hurting me. loving teachers, supporting friends and inspiring lectures of chief sir will be missed very much. The moments in class 11 ‘V6’ was unforgettable. ‘V6’ so called noisiest class. Ha…ha…

Ambika and Selica were really supporting and fun loving. Sagar’s jokes in KBP sir’s period, funny jokes or other friends like Animesh, Yuvraj, Prabesh, Aceem etc. were also quite recalling, laughing in the class with no reasons, cracking jokes on others, getting scolding from the teachers will be most precious days of mine.

After class 11, when moved to class 12, all my friends were separated. I was sad for the reason. But, when the time passed on, I got much closer friends like Roshni, Nishu, Smarika, Sweta and Pratikshya playing truth and dare in the class hour, eating pastries and rumbles in last bench were full of fun. The most memorable was Nishu and I eating whole chocolate in SBS sir’s period sitting in the first bench; it was Roshni’s birthday that day.

Moreover, jokes cracked by URT sir and SBH sir were very humorous and I will really be missing those. Good lectures of SSA ma’am, SK ma’am and RL ma’am were really inspiring. CSG sir’s dialogue ‘yes….ok….yes or not’ was really popular. Similarly, other loving teachers like GT sir, BPP sir, SKL sir, RPY sir, SJ ma’am etc. will be really missed.

How can I ever forget the ‘picnic’. OMG, it was so wild. Dancing and jumping recklessly, non-stop whole day is really valuable for me.

Thereby, there are lots of memories as ‘Prasadian’ and this small sheet of paper is not enough to explain out each and every moments and experiences spent over here.

So, lastly I want to thanks Prasadi to make me one of your members and give me such precious memories and valuable friends.

Hence, Proud to be Prasadian.

TWO YEARS BEAUTIFUL JOURNEY IN PRASADI

When I was about to get admission in Prasadi Academy, I heard many rumors outside about Prasadi that it is a strict college, it gives too much homework pressure to students, it has regular bag checking and hair checking. Leaving all these rumors, I admitted myself as a Prasadian and today, I am feeling proud to be a part of Prasadi. If I hadn’t admitted in Prasadi by hearing all those rumors, today I would have regretted and wouldn’t have gotten any success in my life as a better and qualified student for further studies in my life. I feel that I had just entered to Prasadi Academy yesterday but now I am at the end of my two years in Prasadi. How amazing is the time which runs very fast and we are unknown about it so I cannot believe how these two years have passed just like a blink of an eye. However, I have never thought even in my dreams that days in Prasadi would be so much happy and enjoyable. I still remember that time having fun with friends in classroom. I will be missing each and every moment of my college time with friends. I will be missing all the teachers who taught me with love and care with good guidance. I still remember having unexpected regular bag checking, hair checking and book checking as well as giving the exam in strict environment. I remember doing home work till late night just before the day of home work submission to teacher for checking. I remember my grade XII bench partner (Saurav Ghimire and Yuvraj K.C.) cracking jokes with them and eating polo chocolate given by Yuvraj during the lecture of teachers. I will be missing MDM ma’am’s period. I’m gonna miss the time having fun in Sajha Yatayat Bus with grade XI brothers (Prakash K.C., Rahul Pun, Sailesh Basel) and sister (Bina Gurung) as well as with grade XII friends (Ashmita K.C. and Anamika Sharma). I will never forget the picnic day (2071/11/20) taken by college. I will be remembering all the teachers of Prasadi Academy and some special dialogue of teachers like…

RPY sir: where the attention goes there the energy flows…

YKG sir: you can’t do … it is the simple and jhurast question…

RKS sir: pheri, pheri … chupne! Kasto latokhosera cha yo…

RKN sir: if you won’t give HW by Thursday I will start punishing… (repeated every week)

BPP sir: stop doing other work otherwise I will give round kick…

All these moments are glorious, unforgettable and everlasting…

XII Science ‘A6’
SWEET MEMORIES OF PRASADI BEING PRASADIAN

Every moment from 1st Shrawan 2070 to 29th Falgun 2071 from R13 to C12 was memorable. I feel that I just entered the Prasadi Academy yesterday but I'm at the end of 2 years studies...

While, when I was in R13, teachers used to say, R13 can achieve success because we can see many faces of toppers. But, when I reached to class XII, section C12, teachers started to say, ‘yo class jasto khattam class taw kunni chaina,” this batch is worse than last batch, hehe… maybe, we used to make lots of noise.

Reached C12, time changed class changed, section changed, friends changed but also got support from both friends of 11 and 12 and realized it didn’t matter even class or section changed. The first word came from my bench partner Salina and Shreeya who helped me to do work, who smiled with me, supported me and also made too much noise in class but Salina, the one who always got caught from teachers. Reeya and Pratima, two besties who could never separate from each other. Neha Karna, the noisest girl and Neha Shrestha who always used to do homework from 1st period till last period. Alisha, who had got two statue friends, needed to turn back to make noise and always caught by account sir. Anjana and Sunila were supposed to be hair stylist. Prastuti who always had to sit alone, her bench partner Nisha was supposed to be the tourist. Chadani and Prinsa the padandas OMG, how to forget our sweet Mona…

Let’s move in our boys side, right? Kumbakarna Kumar who would start dreaming from 1st period. Bikens the guitarist and Arpan the drumist. Shaket and Bibek ware the funniest and noisiest guy. Sushant Khadka the fan of Manchester United who started to talk about football game while coming from the door. Sagun the American tourists and Rahul chitrakar, the African rapper. Pratap, the padandash. Sushant Shakya, who never talked in class. Pratik, the tourist from boys side.

Here are some dialogues from our teachers which will always remain in my mind:

URT sir: (for Boys) “A timro kapal vaena hai … pattakai vaena… ali chatter, chittka milaera voli aune hai… yaad gareu?”
RKN sir: pitai khalau hai keta ho, feri?
AD ma’am: come on everyone, “tyo… lai her na, pheri”
RKS sir: haina haina, after every correct sentence.
Dilip Sir: (for Girls) Is this a beauty parlour class??
BBT sir: always saying a, a, a … for whole period

But, the way of teaching and motivating to students by teachers will be missed a lot. OMG, noone can know more than Pankaj sir about new technology. Surprise, bag checking, bench partner, Seat plan checking were the most memorable days. Eating in class will be missed a lots. How can I forget the picnic with non-stop dancing and enjoying with friends in rainy days? Each and every moment seems to be memorable forever.

Finally, I would like to thank Prasadi Academy for giving a great platform to show our talent. And, today, I’m departing from Prasadi with lots of charitable memories. Thanks chief sir. As long as we were in Prasadi we hated to be a Prasadian and now as we are living we fear being ex-Prasadian… Proud to be Prasadian…

XII Mgmt. C12
My journey in Prasadi began two years ago and now it’s time to say goodbye. Whenever you move to new place, you’ve to make adjustments and definitely it’s not easy. Yes, at the beginning I used to feel like “when will I leave this college?” But slowly my feelings changed. I experienced studying on both morning as well as day shift. Both the shifts passed with adjustments, new experience, fun and struggle.

When I entered my section ‘R10’ there were all new faces. But definitely they all became my friends. This section would not have been interesting without my bestiees Ashmita (Rai), Anisha and Sangit and all the other friends like Kabina, Astha, Ruby, Aabha, Smarika, Ashmita (Ghimire), Shreya, Hishila, Urusha, Rohit, Ujjwal, Yogesh and many more. Maths (BBT) sir, GT sir, AD ma’am, SP ma’am, BBP sir, KBP sir, Hamal sir, BA ma’am and RPY sir are all unforgettable. Maths sir and Hamal sir are the best teacher I’ve ever met.

Now, it was time for my departure from R10 and enter a new section B10. The second phase of my life began. I again found many super cool friends here though I got separated from my bestiees. They were Salina, Manisha, Sweta chaudhary, Shephali and Shreya. We six were of two fixed benches so our evergreen friendship was also fixed. This time Hamal sir was our class teacher and it was great fun running marathon on copy. All the new teachers like SBS sir, YKG sir, SK ma’am, SKS sir, URT sir, RL ma’am and RRG sir always supported me. RL ma’am is just so supportive and caring. I will miss eating pani puri with Ashmita, Sangita and Anisha, miss mine and Manisha’s struggle to get food in the canteen and obviously miss dancing at picnic, miss unexpected bag and homework checking and doing homework overnight.

Prasadi gave me many new experiences, new achievements and friends like Ashmita Rai who always supported me in my every decision and to overcome my problems, Ruby who showed her kindness by once lending me her blazer when I was cold, Salina who supported me at that time when there was noone while fixing my seat, Manisha who became my home going partner and Sweta who always made me laugh. Thus Prasadi shifted my feelings from “when will I leave this college” to “now we are leaving our college.” I’ll miss everything about our college. Jai Prasadi.

XII Science B10
I know divinity’s just an illusion, but sometimes it seems divine does manifest itself through the teachers of Prasadi Academy. Maybe there’s a spark of divine in all the teachers of my college, through which they can brighten the life of students and show them the way of success in their life. By stepping in the world of Prasadi, I felt like I have stepped in the world of glory and wisdom. It has showered it’s blessing upon me and it has boosted my self-confidence and self esteem. I felt changed with energy and knowledge and my desire to be helped with energy and knowledge and my desire to be helped and humble is doubled. The teachers of my college have inspired me to follow the things that are of great value in the life. They have encouraged me and helped me to find inner strength. I hadn’t known that my inner strength and confidence were there with me. Now I’ve become my own mirror, I understood my own heart and my responsibility towards myself as well as others. The credit goes to all my teachers and friends. The two years of my learning in Prasadi is the most wonderful time in my life and it will be the most memorable time in my whole life. Even though I got scolding most from my teachers or I was praised by them, hated by my friends or loved by them, I’m going to miss them all very badly. And of course, felt as a lucky batch because we got a great opportunity to experience Thailand tour it was great time spent with friends and Bikram sir although we were in fun as well as fear and picnic was so memorable that it made all friends and teachers much closer which gave a fresh beat of 2 years time. But now it’s time for me to leave my college. I am exasperated and my heart is rending. My college life is the beautiful state of my life where I’ve learned many things and gone through many ups and downs. It was good to meet many of my friends with whom I’d shared some beautiful moments. Prasadi is a garden of various flowers giving fragrance and beauty by blossoming itself. Now as I’m the outgoing student and I can’t believe it. How can I leave the place where I’ve spent 2 years of time in my life? I’m able to write these things achieve knowledge, it’s only because of the experience, love and care given by Prasadi Academy. My experience with my friends and my teachers is very precious. Of those experiences only memories remain and those memories mean everything to me now. I am glad that I’m part of Prasadi Academy and I want to wish all my juniors a very good luck and just want to say that follow the rules and regulations, get inspiration from teachers and blossom like flowers. Lastly thank you very much all the members of Prasadi for the best moment. Thank you very much. Proud to be Prasadian.

A short message: winner never quit and quitters never win.

ABOUT PRASADI

My life changed a lot; so much so that the old self does not recognize me of now. The day, which was first blue, has become dark as the night continues to stay. The world seems so happy but sorrow spreads quickly and everyone becomes sad. The clock’s been ticking on day and night and time is passing by. I wish I could stop time so that the new day would not come. Each and every second that ticks away, intensifies the sorrow of separation. It feels as if I joined Prasadi just the day before carrying my heavy bag with all my books. But time has flown away so quickly that it is now time to bid a goodbye. It was you all who brought a smile on my face when I was in pain, always walking beside me, protecting, guiding and supporting me.

The memorable moments we shared are the ones I cherish the most: the laughter, the arguments, the mischief, the great feeling after completing and submitting homeworks, one of the greatest achievements here. And, of course all of our subject teachers and time spent during their classes, all of these gather a feeling of happiness. As I step out, I feel nothing will be same again. Even when we won’t be together, there won’t be single thing in this world that would take my memories in Prasadi away from me.

And, our teachers, thanks a lot for bearing freaks like us for about two years but yet so dear. We thank all teachers and staffs without whom we would never be complete. Last but not the least we thank our chief sir, without his ideas and efforts we would have been nowhere and who have energy and strength to move on which will always keep our Prasadi’s height above.

These words aren’t enough to express how I feel. I just wish this night is a little longer than it normally would be.

Will always be a true Prasadian.

XII Science B12
MY MEMORABLE DAYS AS ‘PRASADIAN’

This is my second, actually last year in Prasadi as a ‘Prasadian’. Now after a few days I’ll be away from Prasadi and all that I’ll have with me is my memories in Prasadi. These 2 years in Prasadi is the most memorable part of my life.

It was Prasadi where I learnt the true definition of life, where I understood the meaning of friendship, where I got opportunity to make new friends. R8 and C13 are the best sections. Section which was full of unique friends. Most of them had joyous and fun loving habit. Specially Prastuti, Smriti, Dasing, Rabina, Anju, Sweta, Pritishma, Suhana, Anita, Nasala and Nikita will always be remembered, with whom I always felt comfortable to share my feelings and how can I forget the rainy picnic in Tribhuwan Park. In Prasadi, I also got most loving, caring and motivating teachers who were always there for me, who guided me in each and every step of my life.

My journey in Prasadi began 2 years back and it has been a mysterious one. Where I came across many new challenges, consequences and compromises but at last I feel proud to be a Prasadian. My journey in Prasadi has been full of knowledge, laughter, regrets, scolding, love and care. Prasadi taught me to have aim in life, it helped me to know the value of time and it taught me to become laborious and sincere person.

I always wished my last day in Prasadi may come as soon as possible but now, I realized that it’s ending up I am feeling sad. Though I can’t bring those days back they’ll always remain in the core of my heart.

So, at last I would take this opportunity to thank all my loving teachers, supporting friends, non teaching staffs and chief sir for providing me an opportunity to explore my hidden talent and also wish all my friends and upcoming batch good luck with their future.

XII Mgmt. C13
LIFETIME MEMORIES OF PRASADI

It has already been two years but I still feel that it was yesterday that I stepped in Prasadi. I do remember my first day in grade 11. Everything was new for me new classroom, new faces and new teachers. I was quite nervous that day when I entered my classroom sec. V12 to see new friends. But it took me no time to get close with my friends. Salina and Namuna were my benchmate and they were too friendly that I enjoyed a lot being with them. And I met Sony, Bipana, Dikshya who were always supporting. I still smile when I remember those days in grade 11 with these girls, all those jokes, games, gossips, eating in classroom were full of fun. I feel blessed to get these friends in Prasadi who made my days full of fun. Then a sad moment started when we had to be apart because we were divided in different sections in grade 12. And I was in section B10.

Luckily Salina my benchmate was also in the same section. I was happy to see my other friends from grade 11 in same section. And most amazing thing was that Salina and I were again in the same bench, and partners in all labs. I came to know new friends Smriti, Shreya, Sweta, Sephali who were always kind to me and friendly. As we two bencher were fixed I wasn’t able to be so close with other girls but they were always good to me. Our section would never be full of fun without Adish, Pranat, Aashis, Binit (tourist of our class), Pravat, Peter, Shisir and many other boys and girls. Every class of SH sir was full of fun, inspiring classes of chief sir, classes of RPY sir, SSA ma’am, SK ma’am GT sir, KBP sir, SBS sir, SP ma’am … are unforgettable.

Oh! How can I forget wonderful picnic day. It was one of the best days in Prasadi. Whole day dancing with friends, eating, photo shoot and the rocking music made my day. These two years in Prasadi has become my wonderful journey with my lovely friends and teachers. Prasadi has given me a lifetime memory and wonderful friends. Now only few days are left to study in Prasadi and this is making me a bit sad but I am really thankful to Prasadi for giving me a new identity as Prasadian.

Thank you Prasadi! I will miss you.

Manisha Gaha Magar
XII Science B10
I try console myself thinking it is just a day before yesterday when I joined Prasadi inspite of knowing the bitter truth, I have only few more days left in Prasadi. My eyes fill with tears when I just think of being an ex-Prasadian.

I still remember the very first day 28 Asadh 2070. Chief sir standing in front and helping the students to search their classes. I was really shocked when I saw bag checking and hair checking in very first week. In few weeks, I understood that I have to study in Prasadi; I have to be self-disciplined, do homeworks late night and keep short hair. I realized that the gossip in the market that Prasadi teachers are so rude and unfamiliar was completely wrong because they were really so familiar that I feel them like my own parents. Time passed slowly and I completed class XI.

From the very first day of class XII, I started enjoying my class. I think it is what we call adaptation. Truly speaking they were my friends Aanand, Niraj, Rohit, Nirvik, Bibek, Einstein (Nabin), Upabesh, Sambhu, Sushil, Abhinash, Azarudin, Raksha, Surkacha and Saranga due to whom I was able to read 2 year in Prasadi sometimes laughing, chatting, cracking unnecessary jokes, playing hang man.

Class of SH sir used to more interesting than others. SK, SSA and RL ma’am’s classes used to be joking period. How can I forget those memorable words of my lovely teachers.

RPTY sir: connected from last bench or not...
YKG sir: doing bejat yaar! Kasto bakuf chau hai timi haru!

Even the institution was strict, full of rules but I enjoyed a lot in those 2 years. The institution gave me many thing and taught me how to build up my career. And I finally understood “all the rules of Prasadi’s were for the welfare of students.” The most enjoyable day was picnic day where I sang randomly in picnic bus and danced wildly in picnic spot. Miss u B12 and V12. Heartful thanks to my lovely teachers for their guidance and care.

XII Science B12
FIRST DAY IN PRASADI ACADEMY

With 5% confidence and 95% nervousness, I stepped inside Prasadi Academy. I will never forget my first day. All the way, I kept thinking that how shall I adjust in new environment. As I entered I saw new faces, I crossed my finger. Then, I went to search my class. There were teachers who were guiding us to find our class with their wide smile and warm greetings. I got my class and I entered. There were about 50 students but I didn’t know anyone. I got a seat. I immediately introduced myself to my benchmate, Shraddha. After that, Pritisma came and we three became good friends. I was in section R13. At the very first day of 11, we twenty five girls became friend. Then, sir entered in class. After making friends I accumulated confidence. The class started. First period was economics. I thought teacher would be strict, but I found them friendly. They didn’t let us feel that we were in new environment. One after another the periods passed. It was time for break. It was only 20 minutes. But, we make that 20 minutes adjustable. Again, the period started and then finally last period came. It was English. Ram sir was quite interesting. The first day, the first experience in Prasadi Academy was memorable. It seems like just yesterday I got admission in 11 but now the day came to say good bye to P.A. I proudly introduce myself as a Prasadian.

Roja Awale
XII Mgmt. C7
On 29th Asad, 2070- 11:20 am, I was so happy because I was stepping to Nepal’s top college and at the same time nervous because I had heard it was the most strict college. I mean I was so scared like heck. I was trembling, I had goose bumps all over and that reached its peak when chief sir was infront of me. But anyways, I controlled myself and kept still, I became furtive as I didn’t want anyone to notice my apprehensive actions. And today, I feel the same place as my home and I’m feeling too painful to be separated from this place.

It is said that 13 is the unluckiest number but I feel proud to say that I was the student of V13 and B13. With all those crazy friends around, my life saw it’s beautiful and exciting two years in Prasadi Academy. V13- how can I ever forget this section? Ujjwal (weed), Peter (Handi) were the most intelligent people I’ve ever met in terms of humour. Every single word produced from their mouth would make whole class laugh and all of us suddenly used to shout saying, ‘aan… aan… diyo… diyo’ and the scene after that—teachers used to scold and we used to be observed by college staffs from window. This action was repeated in every period in V13 which made it a wanted section.

Yes there were some emotional moments when we V13ians had to get parted in grade XII but grade XII turned to be more exciting. As I was tall, in fact very tall with some beard in face, my name was assigned in B13 as ‘Dai’. And in same section B13, there I met a guy named Sagar Lamichhane. This guy was really amazing. He used to irritate every teacher with his stupid actions and there were bunch of guys who used to support him. Ashim (funnel), Pradip, Brajesh (Jyapu), Prabesh (dai) and many more. I really wanna thank Sagar because without him B13 would simply have been boring. The shy face of Pradip Shah while teasing him, childish talk of Benju, laughing style of Maria, Sarad asking questions to teachers, ‘kichkandi laughing style’ of Rishikesh, activeness of Ritu Shah, silent and serious face of Sushma, how B13ians used to say —‘Suraj’. Really I am gonna miss this a lot and most interesting is doing hurr… in RKS sir’s period.

Along with these, I’ll also remember the teachings which Prasadi Academy has taught me. It has taught me how to be independent, it has made me able, confident, decisive and a person who can find the way to success in his life. Via this writing, I wanna salute to Hamal sir, without whom organic chemistry would have been sanskrit for me. salute to RPY sir and his teaching styles, salute to RKS sir’s hard work, salute to SSA ma’am love, salute to GT sir’s friendly behavior. Salute to SKL sir’s motivating dialog, salute to MDM ma’am’s approach to make our writing style the best one, salute to YKG sir’s some good speeches and yes salute to Bikram sir and Prasadi Academy for being a Prasad to me. Proud to be a Prasadian.

I WILL EVEN MISS YOU MY PRASADI

I don’t know why I am feeling very bad, very lonely to say goodbye to Prasadi, where my two years passed in a second. I found a dynamic environment in Prasadi which transfigured me from a child to adult within two years. I’m sure not only me but also all the Prasadians can’t forget any moments of these two years in Prasadi Academy. These memories will forever make us feel fresh. I will never forget my teachers, BBP sir, KBP sir, SH sir, SBS sir, YKG sir, JPY sir, RNM sir, RPY sir, NA sir, BP sir, CSG sir, GT sir, RKS sir, RT sir, BPP sir, RKN sir, URT sir, RL ma’am, CR ma’am, BA ma’am, AD ma’am, MDM ma’am and so on. Also I will miss Rita ma’am, Sushila ma’am, library ma’am, lab ma’am, Yonjan ma’am Megh Raj sir, Gyanmaya didi, Prem dai and all others whose name I don’t know.

My friends and my moments with my friends will always be in memory. There is a separate pleasure in being a Prasadian. We, the students of V11 and A8 enjoyed a lot in class XI and XII respectively. Some dialogs of teachers will forever sound in our mind and heart. RT sir’s, “Oe..., lu ta do it..., you grass..., Remember if a problem is always a problem then the problem is not the problem you are the problem. BPP sir’s “so how to do?... Mr. Sheshraj... talai ta...”. RRG sir’s ironical and humorous speech and lectures. AD ma’am’s “Herana, Gadha haru”, RB mam’s anger. RPY sir’s “look at... observe it as well as absorb it... Thailand...” RKS’s “no do, no do... no talk, no talk... hey...”. CSG sir’s ok! GT sir’s... A... uth... suppose... Hamal sir’s ambiguous lectures, “Talai ghas...” I will cut your... marks. YKG sir’s “Simplest and jhurest, A Babu...” BBP sir’s “Haa... students... bhan na bhan...” KBP sir’s “Jhappa... redox rxn...”. URT sir “Antaskaran... chhatta... khyal gar you” RL ma’am’s “daka haru”.

Mockery of teachers and other unnecessary sounds by friends was full of humor and satire. All those days of fun passed but they will always remain in my memory and remembrance. Picnic was full of fun and non-stop wild dance with friends in group was very fantastic and amusing. I never enjoyed as much before as I enjoyed dance in picnic. Unexpected chocolate from chief was very surprising. I wish I could undo my past. I love Prasadi and I’m proud to be a Prasadian.

Finding the right memory for us is essential to experience success in college. Prasadi Academy is the biggest platform for each student to learn differently, the strict rules and regulations are very effective for providing the average student the best chance to learn subject matter.

Studying subject matter is not a basic human behavior. Most people are not good at studying or learning new material over the long term. Finding the best college i.e. Prasadi Academy for students has become a study in itself. In Prasadi, there are even classes for those student who want to be better studiers. Prasadi Academy teaches students how to take notes, study for tests, take tests and apply their education to the real world. This helps students to have a better college experience and actually learn something in their classes.

How could I forget my first day in the college, my kool and funny friends and my dear teachers. Yeah, I remember JPY sir saying, “nani babu haru la vhana ta”, RPY sir saying, “observe as well as absorb”, RL ma’am saying, “malai tundikhel ko neta nabanauna", YKG sir saying, “most simplest and jhurest”, SSA ma’am saying, “halla nagarana”, SK ma’am saying, “halla nagari padha ta, natra bhaye ..,” SH sir’s hilarious jokes, RKN sir’s threatening voice, “pitai khancha", RRG sir and URT sir with their funny faces… hahaha!

Speech delivered by chief was superb!
Lastly, true friends like Dimpili, Dikshu, Praku, Uru, Saharee… are hard to find. They are like my precious gift in Prasadi. Guys!! Hope you have an amazing day! You have stuck by my side so I would like to say thank you for that. I want you to remember that I will always be there for you, whatever the weather or time...

How amazing it is, time runs very fast and we are unknown about it. Hats off to my Prasadi!!
Well Prasadi!! It’s time to bid you good bye...
“Proud to be a Prasadian”.

XII Science B10
The first day of my college life was really boring probably because we all were new to each other. We got to know all the friends by and by. Then the days started becoming much more interesting. I have collected some bitter and many sweet memories from V10 (XI) to A6 (XII) studying at Prasadi Academy.

As we got acquainted with each other I began to talk with them a lot. In grade 11, my bench partners were Rabindra and Bikesh, who were good to me. We three used to talk a lot and teased each other in every period but mostly in English and Biology periods. The funniest event I remember was sleeping in English period, the teacher caught me and told me to answer the questions. The teachers were also very good too. Eventually days passed, weeks passed, months passed and whole year passed. I was upgraded from grade 11 to grade 12 (A6) where I met many new friends. As I was from maths group, I knew many of my friends from bio group too. At the time of exams, the seat plans were made so I came to know many more new friends.

Some of the memorable dialogue of some teachers are:

RKN sir: ‘Jhappad layera’
RPY sir: ‘You fan side boys…’ and ‘you dirty mind…’
YKG sir: ‘You are right… but not’
SBH sir: ‘I will cut your… tongue’
URT sir: ‘Yaad gareau hai…’
GT sir: ‘Kasto raixa…’
BPP sir: ‘Padh natra feri mero round kick khalas’

RKS sir: Binesh badi na ho hai ta…’ (just for fun)

I can never forget the caricature of cartoons done by Hemant and also those talking, cracking jokes and laughing loudly in class. Ohh!! How can I forget Aayushi, a shy girl but very sweet. The most memorable day was picnic and that wild dance. Rejina, Susanta and Aashriti danced wonderfully but we boys Hemant, Sushil and me danced in hawa. But miss those masti done with our mitra. Every one of our group enjoyed a lot I hope.

Now, finally the day has come to bid good bye to Prasadi and become ‘ex-Prasadian’. I thank college staff and mostly GT sir and URT sir who were the inspiration for me and encouraged me a lot.

Thank you Prasadi Academy for giving me such a chance to meet and make new friends.

Love you all!!!
After completing SLC, I was very confused about choosing college. Fortunately, I got to know that Prasadi Academy as the best college for higher study. So, I joined Prasadi. When I first entered Prasadi, I was totally nervous as the environment, teachers, friends were completely new to me. But as time passed, I found them friendly and Co-operative.

My journey in Prasadi started from V11. Even though I felt uncomfortable in the beginning. I found Sneha, Sweta, Rejina, Aashriti… as my best friends. We shared many things, we cared for each other, and we had a lot of fun together. We didn’t know how this year passed.

Then, in grade XII, we all were scattered in different sections. I was in B10. Being separated from each other, we felt so sad. But as time passed, I found B10 similar to V11, full of fun. All those gossips, fun, those bags checking, and homework checking were unforgettable.

SH sir’s Tomatoes! I will cut your neck, write 500 examples… really he was so awesome and full of entertainment.

KBP sir’s: Jhyappa lagara…coffer instead of copper, haha!

RL ma’am: Galti ley mistake vayo

RKY sir’s: observe it as well as absorb it; where attention goes, there energy flows and that thing grows!!

URT sir’s: smiling face

JOURNEY IN PRASADI

BPP sir’s: I will give you a round kick
RT sir’s: Ghaass haru...
RKN sir’s: put formula and get the answer

I am never going to hear these all dialogues hereafter. All these things were most memorable.

Oh! How can I forget the fun which I had in picnic… all those poses, and those dances were unforgettable.

Being a Prasadian, I feel so proud because this Academy taught me to be punctual, disciplined, hard working. Chief sir’s inspiring words helped me a lot to labour hard. I am sure if I hadn’t joined this academy, I would have missed many lessons in my life. I feel proud to be called a Prasadian but also I am feeling sad because from today onwards, I would be called an ex-Prasadian.

Lastly, since it’s time to say goodbye to Prasadi, I would like to thank Prasadi family from inner core of my heart. Proud to be a Prasadian!!!

Prasadi, A Boon to Me

Knowingly or unknowingly, the first day in Prasadi Academy was my best day ever. The best day in the sense that I got associated with Prasadi on that day, the best +2 institution of Nepal. After passing 10th, we all have a wish to read in a college which tends to encourage us, provide us appropriate knowledge and teach us discipline and manner.

I’m very thankful to Bikram sir for establishing such an institution which could show a human how to walk on right path. I’m also thankful and speechless towards the work and hard labour done by BPP, URT and GT sir being fully dedicated for maintaining the quality and reputation of college. They’re always on their way to teach us meaning of life. The teachers and staffs of Prasadi, all are hard working and they always try their best in manufacturing quality students.

The 2 years journey in Prasadi was the best journey of mine because here I have learnt different aspects of life. The system to study and the peaceful environment in Prasadi are the plus points for this institution. The different strict activities like homework checking, bag and hair checking, giving punishment to students who made mistake, making students stand near notice board whole day, etc. all seemed rubbish to me in the very beginning but now I have understood the importance of those phenomena.

I’m really gonna miss the talks and teaching style of teachers like SH, RPY, RKS, KBP, RKN, YKG, RL, URT, BPP, RRG, RT etc. In this 2 year journey I’ve made many new friends. That moment when all teachers used to say that section A11 is worst among all, we all students of A11 used to feel proud. My friends (Ashish K.C., Saurav, Sagar, Dhiraj, Ujjawal, Ashok, Aashriti, Arjun, Pradeep, etc.) all were always with me. The time we spent together were the best time for me. And the best memorable moment was the picnic day for us. I’m really gonna miss my college days.

At last, I want to end my words saying that “the body of a human is lifeless without a soul and a soul without a proper knowledge, manner, humanity and dedication. So I thank Prasadi for making my life meaningful and a soul to my body. I love Prasadi and at last I must say that “I am proud to be a Prasadian”.

XII Science A11
TWO YEARS LIFE IN PRASADI

It seems yesterday that I entered this institution as a regular student. Today, I also remember that crowd of students who were searching their sections on the notice board. I ultimately found my section that was V10. It was a unique section because the students got 50 minutes earlier leave on Wednesday, Thursday and Friday while other section students were busy in learning and writing. I entered my class and as all the benches of girl’s row were already packed by the girls except 1st bench. I went and sat there. Soon after, chief entered the class and called two girls who were in the last bench to sit with me in 1st bench. Hahaha I remember how I introduced myself to Deepshikha and Laxmi. I am really luckiest person in this world that I have got you two together. There were some other friends like Manju (musi), Pratikshya (sorry but don), Sunita (lutepie), Anisha (lovely), Sahara (lovable) and many others. The most precious thing that I got from grade 11 was Laxmi and Dipsika. Taking exams, and enjoying our regular classes and holidays and finally grade 11 finished. But our friendship remained the same in grade 12 too. We used to come early in the college, chatted for minutes outside the canteen, ate vigorously in break time and waited for each other after the college was over. The grade 12 was little different from grade 11 and fortunately my section again ended with 10 that was B10. In grade 12, I found that I was not only Psycho but there are many more. Salina (pyari Sallu), Shreya (our biggest item), Shefali (lovable), Smriti (Cute pie), and Manisha (loveliest Mannu) these were who became close to me in grade 12. How can I forget that jokes crackled by Sudhir, Riwaj, Prabin, Rishikesh in grade 11 and Adhish, Pranat, Vinit, Peter in grade 12. Most awesome moment of my life was the college picnic, wild dance and playing antrarkshi in the bus while returning from picnic. The teachers who were just fabulous in grade 11 and 12. The teachers made us read and write although we were tired and as they do a lot for us we also think that we should do and we ultimately did it. Especially the class of RPY sir, SBH sir, RRG sir, URT sir, GT sir SSA mam and RL mam was really encouraging. I will never find teachers like them in my life. By the end of grade 12, I found my other best friend (Thunduk) and so I want to say that Prasadi has given me a lot. I want to say that Prasadi has given me quality education, loving teachers and friends. Finally, now it’s time to leave Prasadi. I really don’t want to be ex-Prasadian but it is the fact we have to accept it. So, it’s difficult to say but I have to say bye Prasadi. I am really proud to be a Prasadian.

PRASADI: A JOURNEY OF A LIFETIME

Why are you studying in Prasadi? Everyone from my friends to my relatives asked me this question when I told them that I was studying in Prasadi. When I was in school I and my friends heard that Prasadi was the strictest school in +2 levels. Nevertheless, I decided to study here. I found this institution to be simple and I liked it. It was simple and had a good environment for studying. It was quite the opposite to my previous school where we had countless functions, extra-activities and all, and maybe that only I found it difficult to study in my initial days here.

When I was in grade 11 I thought that I would leave Prasadi in grade 12 and go somewhere else as I couldn’t enjoy here. I had to travel from a far distance changing two vehicles and trust me it used to be very hectic and tiresome. But as the time passed and I came in grade 12, I started to put aside my problems in Prasadi and thought that it’s just one more year here and then I will be out of here and I would never have to look back here again. But as my days in Prasadi are coming to an end, I look back and realize that Prasadi is actually a place for you. The friends I made here, the teachers in Prasadi and every single moment happy or sad will always stay with me and I will cherish them as long as I can. Especially, to the teachers who have taught me I would like to thank them for putting on their best efforts in helping me to thrive. I know that I have disappointed them at times and would also beg them to forgive me for those times. I would also like to give my best wishes to all my friends for everything they aspire to do in their lives. I feel sad that I will not spend more time with them after we bid our goodbye in Prasadi.

Some other things that I will never be able to forget are teachers’ hilarious and ever top dialogues. The best canteen samosa’s which literally used to bring saliva from your mouth and of course the legendary Prasadi picnic that I can’t take off from my mind even right now while I’m writing this. To all my juniors who will hopefully be reading this. “Please, don’t think that the Prasadi picnic is overrated just go and see for yourself”. I am absolutely sure you will enjoy it.

Well, as we know every journey has to end. Hence my journey in Prasadi is also ending to start another voyage in our lives. I would like to say at last that Prasadi is fun for studying and I can’t imagine a better place than Prasadi. So, I bid my farewell to everyone in Prasadi while I travel to a new place, a new day and to a better future all thanks to Prasadi.

FLASH BACK TO PRASADI

The time of leaving Prasadi Academy has come but it seems I came to this college just yesterday. Now, I think time waits for no one. These two years have passed so fast giving me some great memories and friends.

I still can remember the 4th Shrawan, first day of our college. I searched my name on notice board and went to class V6, there I met Yuvraj, Alok, Sanace, Animesh for the first time. We began to talk but others were sitting silently, only few were talking. Then SJ came to our class, gave us Prasadi Academy calendar, routine and rule, after 15 minutes she began to teach. Most of the students were feeling bored including me. Then I thought Prasadi was too strict as told by my brother. Then new friends were made that turned class like a gang. After that, environment was too different as compared to the first day. Then days passed, class was full of enjoyment. Boys were all frank and friendly.

I think best part of Prasadi is doing homework and 20 minutes break time. When I look at my copies I am really surprised, that I did so much task just in these two years. 20 minutes break time seems short but it was a great time for us doing homework, practicals, having Chat with friends, eating samosa tarakari.

Taking retest was a great experience, I passed other subjects excluding Physics. I took the retest of Physics for four times. As I had got exactly 15 marks in Physics I had to study RPY sir’s extra physics class which was really nice. We could solve numerical ourselves and physics began to seem very easy. In this class friends were Amish, Ronald, Ronish, Sahil, Robin, Sanish. Due to their company, 12 was very friendly my days in Prasadi were much friendlier and enjoyable.

In class 12, only Saurav, Biplov, Dipak and Harish were in B10 from V6. After seat planning of GT sir, my seat was with Shital and Ashish who were too friendly. Peter, Susan and Shishir were in back. Binit and Prabhat rarely came to college. Adhish and Pranat were too frank. Their name was called almost by all teachers and RRG sir used to change their places.

All the teachers were good but the word ‘ookkaayye’ told by CSG sir, jokes of SH related of ‘Govinda ji’, YKG sir saying ‘it is very easy, yes? But not’, RL ma’am saying malai tudikhelko neta nabanao hai’ RPY sir saying connect here, ‘observe it, as well as absorb it’, the way JPY sir called my name I will always remember. SP, SJ, SK can never be forgotten. URT sir and GT sir were too friendly. All the periods of our teachers will be heartily missed in upcoming days.

These two years in Prasadi have given me lots of memories and experience. I am thankful and grateful to the teachers and non-teaching staffs of Prasadi Academy. And now time has come for painful departure. I wish we could enjoy more days in Prasadi. Do not lose your hope and enjoy in Prasadi. Prasadi is the best part of my life. ‘Proud to be a Prasadian’.

XII Science B10
IN PRASADI AND ITS MEMORIES

My first experiences in Prasadi started when I entered in Prasadi Academy for the first time. The first day of mine in Prasadi Academy is still fresh. I still remember my first day in class V13 section where chief sir himself came with a long sheet of paper of rules and regulation to be followed within Prasadi Academy. At first I was too scared by seeing such an environment where everyone was living sincerely and in discipline but now I have understood that choosing Prasadi Academy among many colleges of valley was my best decision I’ve ever made. Really I feel much proud to be called myself Prasadian among other.

My mind and heart are full of all memories and moments which I had spent within two years in Prasadi Academy. Prasadi Academy taught me the art of living. I was shy boy with less confident when I first entered Prasadi but Prasadi has developed confident in me to do something in life and to achieve the goal.

How can I forget the time when we friend used to enjoy ourselves in class by talking, gossiping, making fun at one other? How is it possible to forget when chief sir used to come in class and inspire us with real meaning of life? These all moments are never gonna be forgotten.

I made many friends in Prasadi within two years. I think they are my unforgettable friend of my whole life. I love all my friends. They made my two years amazing. I love all the teachers who taught us in two years in XI and XII. They all are friendly and best experienced teachers. I will never forget Hamal sir, RKS sir, SSA mam, SK mam, YKG sir, MDM mam, RPY sir and their amazing lecture. Really they are the ones who helped me to develop courage in mind. Their dialogs while teaching are unforgettable.

At last I want to say that I enjoyed these two years a lot. I got to learn about life, people, nature and many more. At last I would like to thank all respected teachers and my loving friends who supported me, inspired me and cared me throughout the year.

MEMORIES THAT CANNOT JUST FADE AWAY

The first day I entered the Prasadi Academy as Prasadian was quite normal. But soon the fun and wonderful moments with my V11 friends and teachers made my Prasadian life wonderful. Surprise bag checking, day to day hair checking, unexpected seat planning check, book checking, no Prasadian can forget those moments.

The most enjoyable moments in class was the time when chief sir entered class with filmy examples along with his short, fantastic and inspiring lectures. Who can forget the awesome teaching style of SH sir and his jokes. Instant smile from GT sir was also fantastic. I can’t forget these dialogs from some teachers

RT sir: Are you following me?
RB ma’am: No shouting, no clapping and no hooting in Prasadi Academy
R PY sir: Observe as well as absorb it, sakigo!
(Yfter doing numerical)
YKG sir: (after giving numerical problems) this is the simplest and jhurest question, finished?
RKS sir: This is live, live. So look.
AD ma’am: Are you getting me boys and girls?

SK ma’am Ae! which group chat of B12 is named, ae B12

KBP sir: Jhyappa!
The moments in B12 in grade 12 is the most memorable. No B12 students can forget the calling of Swarnim as sodium, and Prasanata as Prasant by KBP sir. Conversation (better call verbal fight) between Risikesh and RL ma’am was too funny. Time spent with Raj, Lochan, Bibhas, Aayush (Karn and Bhattrai), Sharad, Ram, Srijan, Krishna, those moments is not out of my mind. Yes sir! (in amazing voice) of Ram Shah, everyone just liked it. Picnic dance, wasn’t it awesome guys?

It is very painful that after 2 fantastic years in Prasadi Academy, we are about to leave it. 2071/11/29 is soon and from this day, no V11, no B12, no those moments with friends, no dialogues from teachers,.........

Willingly or unwillingly we have to face this day ....

Proud to be Prasadian,

Birat Basnet
XII Science B12
MY ROLLER-COASTER RIDE IN PRASADI ACADEMY

“Prasadi Academy”, my dream college, about which I came to know through the internet while searching top-10 colleges of Nepal. Since this college was very first in the list, my eyes were targeting to pass out its entrance exam and have a beautiful +2 career in Prasadi.

However, I still remember the unforgettable moments after admission. I always had my eyes filled with pride because I was admitted to the No. 1 and best college of Nepal Prasadi Academy.

The first day of my +2 career started from the last week of Asadh. In fact Asadh 28, 2070 to be more precise as I headed towards my class, simply the best; V10. The class was simply awesome, it was at the centre and it became easier for us to go to the canteen, play table tennis during break to the reception, to the gate and of course to the toilet as well- likewise, we had normal classes on the first 3 days of the week, but only the V10 students went home an hour before on the other 3 days. We were supposed to be lucky.

The first day-the only thing I remember is nothing! I just sat on the third last bench, being quiet and monologue with own self on how to make those unknown persons as my friends. I was really surprised and shocked when I came to know that we had to study the last 2 periods on the very first day of college life. Though first day went unpleasant, I am proud of myself that I was never punished or had my name written on notice board for hair by GT sir.

By the time first year passed, I had made lots of friends and had cherished each and every moment with them. My life raised me to next level when I entered grade XII B13 with many new faces and some previous ones as well. I was very sad when same section students from XI were not allowed to sit together. But, after wards, all became my friend. I had great memories with Ashim (funnel, Takle), Sagar (Ghas), Prabesh (Dai, Khambe, ‘Dale’ steyn), Pradip (PK, MD), Sulav(Sulu), Diwash (Gai), Pradip (Iyang Iyang), Sushant (Alqaida). Making noise, spending time, singing songs and eating biscuits and ground nuts (badam) with them in class were some moments to be cherished and cracking jokes all day, too.

Well, talking about teachers, they’re funny and friendly natured personnel. They’re like our second parents. However, I’ve made list of funny dialogues of teachers.

RKN sir:    Put the value, get the ans, that’s the trick. Bhaa…ta!
Hamal sir:  Sagar!! Where’s your… hand? Put your hand on desk.
RPY sir:    Boys connected or not? Screw it. Smartly said. Boys, dirty minded.
RKS sir:    Here’s also vacant space… yes?
SKS sir:    Keep quiet, don’t talk only listen. Hey! Hey! Why laughing why? Stand up.
Panthi sir:  See the derivative.
AD ma’am:   I’ll punish you, understood you, listen you (only you you you)
YKG sir:    simplest and jhurest question, yes? But not.
JPY sir:    Babu nani ho! Yeta sonata… (Corner boy stand up …)

Finally the time has come 2071/11/29, the day to leave Prasadi, eyes full of tears, will miss lectures of Hamal sir, MDM ma’am RPY, JPY sir. Chief Sir, though we’re scared of you, but wanna say that we like your inspiring speeches. Thank you sir from core of my heart and to Prasadi also. Bye! Bye!

“Proud to be a Prasadian”

Rishikesh Shah
XII Science B13
I entered Prasadi Academy as an ordinary child but as my days passed on, I felt a kind of change in me and it was completely intentional. Being a student from an average school, I thought that it would be quite challenging to complete with the students of the valley. But after I was admitted to the institution, I stayed consistent on my work. After completing my homework and other tasks, every day I gave at least two hours to study the things though. The result was easily observable in my involvement in the class while in grade XI. And the grade XII internal examinations results were the best evidence.

Distractions are always there. Being a human it is very natural that we like having fun with friends. But, this gives momentary satisfaction only. If you set a target in life and work on it with full faith, distractions easily disappear. Whenever I attended marriage parties and anything as such, I made sure that I studied for at least an hour after returning late night. This resulted in a habit i.e. now I don’t get asleep until I’ve spent some time with my text books and I’m very proud of this habit.

Teachers only guide in life but it's you and only you who can anticipate in study and make yourself a pride of your parents, family, teachers and institution, too. But, one can hardly achieve his/her goal if he/she doesn’t listen to the precious advice of the teachers. They are experienced enough to point out your mistakes very easily. I suggest, one should always listen to the teachers and he/she should never feel bad of their hard words spoken sometimes. Actually, they make one know about himself/herself in a very effective way.

My message:
Set a target; work on it with full anticipation and faith. And consistency is a must. Your dream will be much smaller one day in your view, and you’ll have another one then. Whenever you feel depressed, consult no one other than your parents, some guardians and few friends, who are very good at giving good advices.

Also mind that you make your work much interesting. The best example is Mr. Sundar Hamal. Making your work interesting lets you never feel tired of doing it and you get a kind of satisfaction by doing it, then.

PRASADI SOUVENIR 2072

CREATIVE ACTIVITY

PROUD TO BE A PRASADIAN

Prasadi Academy is a dream for many students. Among those students I was also there with a real dream to enroll in this Academy. After completion of this event of so called ‘dream’, my mind was fired on questions such as, ‘how my teachers are going to be and all’. These stupid questions really made me forget about the rumors of Prasadi Academy being a cell for students. The rumors were half true. The rules which were maintaining its discipline made it worse imaginable scenario for outsiders. Leaving these all aside, as a usual class first day of a new school would have been, the college first day was similar to it. The first day was very boring as none had a single idea about others. Slowly everyone started to get along and soon enough days became a part of life.

The days passed on and classes started being fun. The gestures of BBP sir, ‘Jhayapa’ of KBP sir. Error’s in speech of RB ma’am and lectures of Hamal sir which never missed laughter and endless writing. The best part among these days was the break time. It was like a survival game, with a time limit and mostly applied the law of ‘survival of the fittest’.

Hemant’s caricatures cannot be forgotten, Seshraj never spoke a Nepali word during the entire session. Time flew on like from first time dawn to dusk and classes started to become own more exciting. It might have been because we now had known the rules. Among most of the periods, English classes were the best as we always intentionally had a row with each other.

Soon when things got out of hand, MDM ma’am’s reactions were truly worth witnessing.

Finally, the day of picnic was the most memorable. My full confidence of not dancing a single step was changed when those almighty beats took one the atmosphere in an instant. Dancing until we could no more and the best was Guru sir was pulled inside and forced to dance with all of us. That entire day, the beats never let us go and we never let it down. The clock might have stopped ticking for us to remain and experience lot more within the academy’s premises but these memories won’t just fade away as I am and will always be Proud to be a Prasadian.

BEST MEMORIES IN PRASADI

How can I forget that glorious moment, when I first entered Prasadi Academy with Namuna (my school mate). My very first day in Prasadi was good. I found our teachers very interesting and thought my 2 years would be awesome for sure. But after few days I became familiar with the rules and regulations of Prasadi. I found this college different from others. Bag checking, surprise book checking and of course homework and homework. My class XI just passed out doing homeworks and making friends. And I will never forget each and every classes of SBH sir, BBP sir and JPY sir. Luckily, Namuna (kanchu), Manisha (manu), Sony (with smiley face), Bipana (Bipu) and Dikshya (Dikshu) were the people who made my class XI memorable. Our intimacy became deeper in class XII although we were in different sections. Fortunately, Manisha was my bench mate in class XII. It was really exciting. I still remember the first day of class XII. It was really exciting. SBS sir was teaching us. I really enjoyed his class whole year. Then I met Smriti (esmi). She was really a sweet girl with long and beautiful hair. As time passes by Esmi, Mannu and I became very close friends and bench mates. It was very interesting to be 1st benchers whole year. I am very grateful to SBH sir who improved my organic chemistry. In class XI, I was totally unknown about org. chemistry. But in class XII I was much more familiar with it. Gossiping in class, (cracking jokes with Sweta (pappu), Shephali (sweet and friendly) and Shreya (fantastic item), eating sweet tiffin in class, laughing talking with mannu, Sudden and funny talks of Esmi, funny classes of SBH sir, all the boys who made us laugh so much by their funny deeds, classes of RPY sir, GT sir, URT sir, KBP sir and RRG sir and wild dance in Picnic…. I’m gonna miss these all so much. Last but not the least I want to thank Prasadi Academy with my all heart for better education and inspiration.

MEMORY IN PRASADI

The first time when I entered the Prasadi Academy, I found the environment quite different from other schools. The first commitment of chief sir that gave us about our school rules and class routine. I found the rules of Prasadi Academy quite different from other one. The educational environment and way of teaching in P.A. is unique and impressive. Really chief sir is the manager because the manager must manage. He always manages to get things done. Actually the credit of our success in +2 level goes to teachers and especially our chief sir. I am thankful to my teachers I like the way how chief sir helps to our study and his guidance. I realize that chief sir has good leadership skills. He always gives us information to work hard.

I can’t forget all those funny, interesting and impressive classes of teachers and their dialogues:

SH sir: J bhaya pani keta haru xanee xan
YKG sir: it is very easy. Temi lai yati pani audaina.
KBP sir: uuu...boye
SBS sir: yo yes yo I am taking with you
JPY sir: babu nani ho, sapana ma pani na bhulne...
RPY sir: where attention goes there energy flows.
GT sir: padna man nabhay you may go out natra dhayan deey...

Talking with Panthi sir during break time is memorable in Prasadi Academy. Proud to be Prasadian. Thank you all teachers.

XII Science B10
WHY PRASADI?

“Simplicity is the best” a proverb that draws attention of every single person. It’s a big deal for every SLC passed students to choose the best college among the best ones. Holding certificate of SLC with distinction creates a dilemma in every students’ mind whether to join one college or the other. It was so for me as well. I didn’t waste my time much- I joined Prasadi.

Other students might have been attracted by the infrastructural facilities of other institutions and so may be the reason they didn’t choose Prasadi. Spending 2 years in Prasadi has provided me every kind of satisfaction that a student needs to have with their institutional centre. Occupied with well qualified teachers, the environment is perfectly suitable for the student who only wants perfection from the college. In the beginning, every student may have felt the burden of homeworks and practical works. As the time passed, the value of time is well explained by the habit of regular homework submission. Homework stuffs are all for a hardworking and competitive student. These all may be the reason why Prasadi is chosen as the best college with best academic results.

You will never know why Prasadi is good for your future unless and until you join here in Prasadi. It’s not only my opinion but rather it’s everyone’s who have studied so far and spent some particular moment and time in Prasadi. Always, Proud to be a Prasadian…

MEMORABLE MOMENT

College time comes and goes like a wind, what is left behind is a bunch of memories which you cherish for the rest of your lives.

Today, its time to leave Prasadi. The feeling of leaving Prasadi is sad one but it’s time to say hardest goodbye. But the memories I had with my friends and teachers during these two years will never fade away. My heart is full with all those memories I had in Prasadi Academy.

I cannot forget these two years of my life where I have collected lots of cheering moments. I still remember doing lots of home work till midnight, unexpected bag checking from teachers. Thank god, they won’t trouble us anymore but seriously I’m gonna miss it too. Who could forget that memorable day…?

The picnic day or rainy day, when we danced whole day. It was probably the best day ever.

Prasadi has given me lots of things to take further in my life. I’ll miss my beautiful friend Eureka and my cutest friend Sujata who always supported me throughout the year. As we have spent lots of time with each other. The relation has got much strong. And yah, I will never forget my friends of R7 because the section R7 was really awesome for me with lots of friends with whom I really got very close. Among them Anita, Monika, Priyanka, Riken, Lijan, Ria, Biki were really frank and nice to me. I would like to thank them because they were always there to make my each and every moment awesome. Every day in Prasadi with my craziest friends is my best memories. Hugs, I will miss you all!

Finally I would like to thank all my teachers, chief sir and my friends who supported and encouraged me throughout the year. Heartily, I wanna say college life is the best time of your life. You’ll not remember the class time but you will remember the time you wasted hanging out with frenz. So, don’t miss it and don’t ruin it either. Live it all!

BUDDIES FOR LIFE

Let’s start with Nasala
Whose name sounds like ‘masala’
A girl who is and will be always me
I love her till my last breath.
Then is Ojaswee, the Newari girl,
Whose front hair is always in curls.
After her is Sajish, the funniest person,
‘Baakaa’ is what we call each other.
Prajwol, a very good friend
And yeah, no one knows when his talking will end!
Then comes Riju, the constant topper
Who seems serious but actually is a party rocker.
Bipana and Aakriti are the cutest of all
Whenever I see them I go with the world “Aww Barbie dolls”.
Rikita, the most prettiest girl. Looking at her I always
Wish I could be just like her.
The one with the sweetest smile
Is Litish who is always by my side.
Mukesh, whom I call Mike, taught me to smile
Even if there are hard ships in life.
Last but not the least is Riken
A name that rhymes so good with chicken
A handsome guy indeed, without any greed.
I am what I am because they are by my side
And I swear I don’t wanna lose anyone of them
From my life!

MY JOURNEY AS A PRASADIAN

“Time and tides waits for none.” A decade is even short time to learn and experience new things. Well, this already is a long duration of two years now. Finally the moment to bid a goodbye has arrived, the moment that holds my sentiments and emotions, that fills my eyes full of tears and brain full of golden memories.

I never knew the time shall pass so fast, as fast as a blink of an eye, where my journey as Prasadian would come to an end, the end where I’ve to search a new beginning. The days spent here in Prasadi were never a less than a dream, a beautiful dream that one wishes to experience.

The fellow friends I’ve met, the knowledge that I’ve gained, the energy that I obtained, the thoughts that I’ve shared, the self respect and trust that I’ve earned and the faith I’ve owned among everyone makes me feel who I am today; a proud Prasadian.

As memories never fade away, one such memory is my life as a Prasadian and the days I’ve spent here in the academy. The inspiring teachers, the friendly and encouraging chief sir’s lectures, the delightful laughs and unending trust and care for friends are beautiful memories that I shall never forget; that has captured a special place in my heart. Finally, I would like to thank everyone including my parents for making my journey as Prasadian a memorable past and inspiring present.

Thank you everyone! Thank you very much.
Proud to be a Prasadian.

10 UNFULFILLED DESIRE DURING MY STUDY IN PRASADI ACADEMY

If I found god out of nowhere and if he asked my 3 wishes, then my 1st would be eight more wishes and together they are listed as:

1. To see URT sir without his cap.
2. To climb up to the roof and see how does it see.
3. To see students playing basket ball in basketball court.
4. To experience complete silence in RKS sir class.
5. To listen a ring from bell infront of college building.
6. To sneak inside the rooms just beside the time office and the entrance gate.
7. To see JPY sir without his bag and cap.
8. To walk through restricted area behind grade XI class building.

Remaining two;
9. To attend a class of RPY sir in which he doesn’t mention about himself,
10. Finally, to see boys and girls being seated in the same bench.

MY JOURNEY IN PRASADI ACADEMY AS A PRASADIAN

Life is like a book containing several chapters. When one ends, new begins. And how the chapter of Prasadi is about to close but the memories I had with my friends and teachers during these two years will be fresh, memorable in my mind till my last breath. The memories of Prasadi are even the best of all.

How amazing it is to know that time runs very fast and we are unknown about it. I still remember the first day to my college ‘Prasadi Academy’ just alone unknown faces. Sadly, it’s time to say good bye. These two years in Prasadi Academy as a Prasadian passed like a blink of eyes. When I entered Prasadi Academy on the first day, there were all new faces and it was totally new environment for me. The beginning was really difficult for me but as time passed by, every-thing seemed normal. At the beginning, I was quite afraid that if I’d able to be friendly with them as with my school’s friends or not. But they were even more friendly caring, helpful and loving. Well! When I entered my class ‘R10’ then my journey started. There, at first, I met Smiriti, who was my first friend in college. I found there other also loving, helpful and friendly, friends like Sangita, Asmita, Aabha, and many more. I really loved the short lectures of Chief sir. The classes of SBH sir, GT sir, SSA ma’am, BBP sir, KBP sir, SP ma’am in grade 11 were really inspiring, encouraging and grateful. How can I forget eating panipuri and chatpate with my sweet friends Janisha, Ritika and Sweta on the way to home. I will always miss them a lot.

When I moved on to grade XII in section B7 from XI, there were also new faces and slightly new environment. I have got Asmita, Nikita, Aabha and other friends also in my section around me. There in grade XII, I found other more funny, helpful and friendly friends like Pragya, Sristi, Karina, Sahara, Rachana and many more. And I met other new teachers like RL ma’am, RRG sir, SK ma’am, SKS sir, SKS sir, YKG sir, YKG sir whose classes were really inspiring, encouraging, funny and helpful. As friends and teacher are important parts of student’s life. Prasadi Academy provided me the best teachers and friends. They made my experience precious, memorable and unforgettable. Especially, I never forget eating panipuri and chatpate with my sweet friends Janisha, Ritika and Sweta on the way to home. I will always remember doing homework in canteen, reaching college at first, talking with Asmita and Nikita in bio lab, eating chocolate in classroom with Pragya and Sristi, dancing with Pragya in picnic, laughing unnecessarily and many more activities which are unexpressable. These each and every moment will be memorable forever.

I want to give lots of thanks with love to Prasadi Academy which has not only given me knowledge up to two years but also taught me fabulous layers of education to fight against the obstacles that come across our life enabling us to meet our own destination. Prasadi gave me actually what I wanted and Prasadi made me actually what I want to be. Not only this, Prasadi has made me able, confident, decisive, punctual and find the way to success in life which really made me proud to be a Prasadian. Today, when I have only few days to study in my college, a strange pain deep inside troubles me. I wish today would be my first day to college. Silent tears cover my eyes when I think about the company of my friends and teachers. Today, I have the courage to face the difficulties and I have determination to touch the moon.

Thanks to Prasadi Academy.

I still remember my first day in Prasadi Academy. I was quite afraid of the rules and regulations of Prasadi. Firstly when I entered Prasadi I found some difficulty in searching my classroom. But with the help of chief sir I found my section. My name was in V10. When I first entered the class, I was confused not knowing where to sit so I took last bench seat. Later, I found Sawan and Krishnakant as my bench partners. In grade XI I was so nervous and frightened of rules of college that I maintained discipline even though we (me, Sudhir, Bidur, Krishnakant, Sushan, Arpan, Prabin, Laxman) were so fond of cracking jokes. V10 was famous funny section in grade XI. My grade XI passed and I was promoted to grade XII. In grade XII I was in section A6. In grade XII we all were little frank with teachers and we knew almost all the students. In grade XII I found Denish and Batshal as my bench partners but Batshal left the college. So Aayush became our bench partner. In grade XII I started to enjoy my life in Prasadi. We had unlimited fun in grade XII. Hemant, Prabin, Minesh, Aishwant, Denish, Asmin, Aayush and Sanjeet were my friends with whom I used to crack jokes and make everyone laugh. And also I found Sabin as my inspiring as well as supportive friend. And Prabin as my common friend in grade XI as well as grade XII who was there to laugh with me in every funny situation. Time and tides waits no one, hence, my grade XII completed too and it’s time to say good-bye to Prasadi Academy.

I don’t know how fast these two years passed in Prasadi but I have collected a lot of memories in these couple of years from Prasadi as a Prasadian. I will really miss Prasadi as well as Prasadian in my life. I will also remember the picnic day and dance in picnic at Tribhuwan Park as one of my best memories. And chief sir’s motivating and inspiring words will be forever in my heart. And I will never forget BPP sir RPY sir, GT sir, Hamal sir, MDM mam, AD mam, SSA mam, SK mam, RKS sir, in my whole life.

Thank you Prasadi...
I love Prasadi. Proud to be Prasadian.

THE PAGES OF MY LIFE

In this smoky dawn I look out of my window. It’s nearly 9:00am, the whole world is soaring, but me, I am lying in my bed, wide awake. Today is the last day for me to wear my grey shirt and pants and Prasadi badge. It’s the last day for me to carry my bag over loaded with books and copies. And how can I ever forget my precious watch! One thing you don’t wanna forget while coming to college would be your watch because Prasadians should always be on time! I never thought I will be saying this but I will miss Prasadi. I have spent two years, 24 months, 730 days and billions of hours or minutes here. And each minute, each second is priceless. It’s not easy to study here. But once you adjust you will be enjoying every moment of it like I did. Even those difficult numerical of Physics, brain-eating chemical reactions and mind-boggling cells of Biology start to be enjoyable. It’s not so hard to adjust here at the same time. You just need to remember three things while being here:

i) Be on time
ii) Do your homeworks
iii) Stay in discipline
Oh! And for boys there is one more iv) trim your hair after every 15 days!

Initially I found myself struggling to adjust with this new and strict environment along with new friends, new teachers, new rules and new everything. It’s human nature to shy away from new changes in their life. Memories of class 11 is all blur. I hardly recall it. But, class 12 was a total blast. Not that it was fun all the time but teaching and learning became kind of covalent bond where both the team plays equal importance. And I will not forget even one lecture of English. It is a kind of break time for us from all these difficult subjects. Dedication of teacher is what makes Prasadi ‘The Prasadi’.

It will be difficult to say farewell to this Academy. The knowledge I gained and the memories I made are gonna be with me and carry on with my life. Accepting the changes in life and learning to live with I came to be a part of Prasadi Academy. It accounts for some of the most beautiful pages of my life. Now I can truly say: I am proud to be Prasadian.

Prasadi Souvenir 2072
Creative Activity

It used to be a great fun imitating the behaviors of the teachers. Some of them included:

BPP sir: for u marks, questions ask...
RKS sir: you need special treatment?
RPY sir: practice numerical yeah...

The moments when chief sir used to appear suddenly and we wished he would stay longer, feels fresh in my mind. His words seemed powerful and they used to bring an immediate impact in my mentality. I really adored his personality. And who can forget that days when I used to return home for late arrival, get my name written in the notice board for not getting my hair cut on time. Those exciting moments of playing truth and dare, and giving stupid tasks if ‘dare’ was chosen.

I found these two years full of enjoyment, and full of life. I’m grateful and lucky to be a part of Prasadi family. I loved every moment spent here. I feel much more cautious, competitive, inspired in the end days of this session. So thank you Prasadi for all the knowledge, all the fun and surprises you gave us.

Santosh Ghimire
XII Science ‘A8’

Changed Mind

The fresh memory of that day when I first stepped inside the compound of Prasadi Academy as a Prasadian feels like yesterday. I was absent on the first day because I had not known the day of session beginning. I was afraid I would not find a seat or a bench mate the second day. But I found a friendly bench mate and then my regular life at Prasadi started. Uff the pressures back then!! Homeworks! Practicals! Exams! Football updates! Self study and free time!! I had to manage them all in a tight schedule. Though I cursed myself for studying in Prasadi at the beginning, later I found myself being punctual and disciplined. And when I’m writing this article, I wish that those days could come back.

Friends, during these two beautiful years, proved to be an important gift for me. Finding time for Tiffin and gossips in a mere 20 minutes break time was not easy. That stupid talks between my bench mates and me during the study hours, spin around my head. Getting scolded for making noise, being the first one to stand up when the teacher told, “those who have no book/not done homework, stand up!!”, were unforgettable moments. Trying to get away from the homework assignments also in the memory list.
MEMORIES OF THAILAND TOUR

Thailand tour was a special journey of 13 students of our college “Prasadi Academy”. It was the first time in the history of Prasadi an outbound tour was conducted by our respectable chief, Mr. Bikram Rai. After finishing all process of making passport, I became a candidate for this tour. Then, 13 students including me, and chief sir started our journey through airways. I enjoyed that ride a lot. After that we reached Bankok and moved to Pattaya. My God! Pattaya what a lovely view of sea. How could I forget that awesome paragliding over there? At that time, it was like a dream to fly came true! Then, in Coral island, I did swimming even though I couldn’t… Once I sank too, thanks to my friends they saved me. But I think it was fun to sink also. We also had a tube on rent, but there were about 6-8 of us in that single-single tube, it was hilarious. Next destination was an impressive and extraordinary safari world. The fantastic and spiritual spies were sent me to space. Those funny chimpanzee show and dolphin show made us laugh a lot. Also, bird and giraffe feeding was a great fun. Then, the ride over the safari world was lovely, it was a miracle to view those tigers, bears, deers etc so closely. The famous Emerald Buddha temple and Grand Palace was our next destination. Emerald Buddha temple was a precious and miracle art, I have ever seen. It can’t be explained, need to see. Royal Grand Palace was full of history. I found them really interesting. Museums contained lots of historical things. Those mushroom shaped trees were really cool. Also, the soldiers on the gate of the Palace looked punctual and undirected. I enjoyed clicking photos with them surprisingly; chief sir took us for shopping. I would like to thank chief sir for all those shopping he allowed, most importantly for that laptop. These 5 days 4 nights tour will be memorable for whole life time. Thanks to Prasadi Academy for proving us the luckiest batch ever. Proud to be a Prasadian!!

BEAUTIFUL MEMORIES IN PRASADI

Memory sometimes play a very confusing role. It makes us laugh when we remember the days we cried and makes us cry when we remember the days we laughed. I feel my 2 years in Prasadi passed with a blink of eyes.

I still remember the first day in my Prasadi Academy which indeed was the most memorable and funniest moment as I had sat in wrong section i.e. R13 instead of sitting in my own R9. And URT sir helped me to find out my section. The first day with unknown faces around today seems like my own part of my life. There were so many students gathered to see their sections. I first met my friends Shweta, Alisha, Creepa and they were very close friends of mine. Teachers were all loving, inspiring and cooperative. First I was so bored of doing all time homework in grade XI. Though it was boring with passage of time it became a habit and now I feel that they all were for us. I realized that it was the right way to pave our path for a bright future. Grade XI passed by knowing friends and getting close to rules and adjusting.

Grade XII was much interesting and enjoyable. At first I was bored as all my friends were separated. But I came to contact with new friends: Alysha, Asmi, Creepa, Bipina and others. Let’s talk about our teachers. Bhogi sir, calling every student’s name with ‘ji’, Amala ma’am always my favorite. Dilip sir who used to inspire us all the time. I hadn’t ever imagined that we could pave this kind of strong bond and enjoy college days that much. Now I realize Prasadi is the best institution that I have chosen as it has given us many things. Thanks for everything to teachers, Prasadi, Chief sir.

Proud to be a Prasadian!

XII Mgmt. C8
WHEN MY HEART WAS FULL

Oh! It’s time to leave the college. I can’t believe this. I’m so much grown up and I have passed my school and college life. I remember RRG sir who told us, “when your mind is full your heart becomes empty and when your heart is full your mind becomes empty.” It’s true today, my mind is empty and just my heart is full that’s why I am recalling my past and now I am just full of emotions.

When I entered Prasadi Academy I was impressed by Chief sir. We know first impression is the last impression I was willing to read here. Being one centre and hope of my parents, teachers and my district I started my college life. But I was sorry for my parents that I became unable to maintain my position in first term of XI. I couldn’t tolerate this I just became emotional and lost my efficiency. I was blind, vacuum; my eyes were full of tears. At that time I was thinking to leave Prasadi. But chief sir encouraged me and provided confidence to get my aim. I am very much thankful to you sir. I remember when you told me, “chhoro you have ability to achieve your goal in your life.” I felt the presence of my own father. At that time, my heart was full. And once again I moved towards my aim with full energy and confidence to get victory over failure. I continued my study in Prasadi.

When I was nearer of my pre board of XII, I faced road accident and it was dreadful day for me. I was lying on the bed unconsciously. My friends helped me when I opened my eyes I saw Bhogi sir and Dilip sir which made me proud to be Prasadian. When chief sir told, “Satish, I would come but I’m very much far from you and you...”. Only your courageous words were sufficient for me to get up from bed. Once again teachers of Prasadi made me to be thankful towards them and Prasadi. Presence of Bhogi sir, Dilip sir and Chief Sir’s word made my heart full.

At last I am proud to say, “Prasadi is the place where care is culture.” And I am proud to be a Prasadian”. Thank you! Prasadi and all teachers.

XII Mgmt. C8
GOING BACK TO MEMORIES!

Two years of my enrollment at Prasadi have finally passed. I still remember the day I just entered in Prasadi Academy. I was quiet nervous because I had heard a lot about strict rules and regulations of Prasadi Academy. But as I was at the end of my two years studies, I realized enrolling in Prasadi Academy for my higher education was really worthy. Yes, being Prasadian was not an easy task but it was definitely beneficial. Prasadi Academy has taught me how to live with dignity and how to have fun under strict rules. It’s not only about the fun but also my education which has improved a lot though I had to attend retest for a several times. I’ll never forget my teachers who have always stood by my side and encourage me. How can anyone forget being scolded by teachers for gossiping, being punished for breaking every small rules and obviously being caught while eating in class. Though we knew that eating outside in the college uniform was not allowed but me and my friends Reshna, Rikita, Anushka and Suzane mostly used to go to eat panipuri inspite of several warning of URT sir. And, when one day we got caught we were called by URT sir and punished. Every moment spent in Prasadi Academy has been memorable for me. In the journey of R12 to C8 getting punished was used to for us. Even our class changed but we were the same no one could ever stop us from breaking the rules instead of that punishment.

I still clearly remember the embarrassing moment that we were eating in class and as we passed our food to next friend. BPP sir saw us then he started checking our bag. We were not nervous because there was nothing in our bag. But he was clever enough to search it under the bench. Then he found a big plastic bag with lots of foods. We were so embarrassed at that time. Beside of all those punishments, Prasadi has made me able, confident, decisive and successful in life. The journey of two years in Prasadi has passed very quickly in the blink of eyes. Today when I have only few days to study in my college a strange pain deep inside troubles me. I never thought silent tears would cover my eyes, whenever I think about the company of my friends and teachers. Though I am leaving my college, I’ll never forget these precious times, my teachers and friends without whom having fun was impossible. By studying in Prasadi Academy I am chasing my dreams and where are you? Proud to be Prasadian

PROUD OF BEING R12

Our class R12 is a great place
Filled with joys and a lot of grace
Happiness and sorrows are shared with all
Everyone here is the great pal.
Every day is a celebration here
It's a mine full of love and care.
The boys in our class are really friendly and cool
They are the ones who never disobey and rules.
Girls are really sweet and lovely
They make everyone feel very homely.
What happens we are always there for each other
That's why we are the friends forever.
Thank you chief sir for being so helpful providing us
a teacher ‘Rama Khanal’ who is always cheerful.
All these factors make us the luckiest student ever
These are the golden memories to treasure forever.

To
The Prasadians,
Manbhawan, Lalitpur.
Subject: Life and Lessons
Dear Prasadians,

The marathon whose start line was 28th Asar, 2070 B.S. has finally come to its finish line today on 29th Falgun, 2071 B.S. However, it isn’t the optimum full stop to our lives because Life is like reading a book. You’ll have Pages and those pages are the lessons You need to learn. Until you’ve learnt, You’ll have to read the same page Again and again. And once you’re through With the lesson you’ve another page To read; another lesson to learn. You’ve Infinite pages and you cannot escape It. You can only close the book, once Your body give up. So keep going folks. Lastly, I wish you all the Prasadians to have a marvelous life ahead and keep reading the ‘Book’. Will miss you all and the common thing that we all shared in these two years; Prasadi. Stay blessed!

MEMORIES TO CHERISH

Months have passed by like days and days have gone by like hours. But when I look back, the timeline shows two years. I can’t believe how these years have passed just like a blink of eye. My heart is full with all those memories I had in these two years in Prasadi Academy.

I gained so much knowledge of being punctual and maintaining discipline. Moreover, it was the environment of Prasadi that always motivated and inspired me to dedicate myself in studies with some fun.

At the very moment, I am really very sad that I will be missing all my friends from different sections, teachers and the peaceful environment here. I will be missing the surprise presence of chief sir in middle of class with his encouraging lecture, and also the cheerful smile of URT sir, the amazing expressions of Pankaj sir while teaching.

I am also grateful to every one for each and every sweet memories shared among us.

I will miss the wild dance in our picnic. Although it was a rainy day, the picnic 2071 rocked. We danced all day along with friends, teachers and had a blast.

Prasadi has not only been a fun place to study and go, it has also taught me to be a better student, a better friend and overall better human being. Though it’s time to say good bye to Prasadi, the time and memories spent here shall remain fresh in my heart. Lastly, I would like to say that I am “proud to be Prasadian”.

“A memory last forever and never does it die; true friends stay together and never say good bye”.

LIFE IN PRASADI

Two years that I’ve spent in Prasadi were awesome moments of my life. I met many friends. Everyone was very close to me. The teachers were awesome. I’ve come to know about many things in these two years. The main thing that I learnt was about the importance and value of time. I’ve got lots of memories and lots of love from all the Prasadians and teachers but it’s sad that the time has come to leave Prasadi. I really do not want to leave this place. I again want to do the homeworks till late night, wear school uniform and rush to school on time, get punishment from the teachers, eat samosa in canteen and many more. I will miss each and every moment of my life in Prasadi. ‘I am forever a Prasadian’ “Proud to be a Prasadian”.

Sharad Dhital
XII Science B12
It seems just like yesterday waiting in a long line to give entrance exam and now it’s time to say goodbye. I can’t believe how these two years have passed just like a blink of an eye. I’m gonna miss all those moments that I’ve lived within these two years in Prasadi.

All the teachers who taught us with love and care, gossips with friends, those laughter and giggles of cracking jokes, dance in picnic, teacher’s inspirational advice, getting scolded by teachers, etc are the precious memories in Prasadi.

In grade 11, R12, me and my two dearest and craziest friends Sunila and Sonica, we did lots of fun. The never ending talks were always there between us. I will never forget the talks and our gossip. Then in grade 12, Sonica got separated because she took marketing as the optional subject, Sunila and I happened to be in same section but we didn’t get to sit together. Then, I met Reeya, Pratima, Neha, Sona, Salina, Shreeya, Dasing, Mona and Tara. I had amazing and unforgettable moments with them. The songs we used to sing and the gossip we used to do about the serials and newly released films. I will be missing unexpected bag checking, nail checking, etc.

Picnic 2071 rocked. We had a blast in our picnic. It was raining the whole day. So I guess no one had thought the picnic would be so awesome and memorable. We danced all day but still we weren’t tired. And the most unforgettable memory in picnic was the ‘surprise’. We all were so excited about the surprise. And the surprise given to us was the ‘orange’ which was unexpected. And obviously we all were so surprised. It was the best picnic of my life.

I am gonna miss the fun I did with my crazy and true friends: Sunila Shrestha, Reeya Maharjan, Pratima Rajak, Neha Karna, Shreeya Maharjan, Salina Amatya, Sona Pandey, Mona Maharjan, Prajwol Bajracharya, Biken Maharjan, Amik Tandukar and other classmates. There are many memories with you guys which I’m gonna cherish forever! Just keep in touch!!!

These two years went so quickly, and, yet Prasadi taught me so many things in my life which I later can share them to others; with my head up saying, I am proud to be Prasadian.

BEING A PART OF PRASADI

‘Prasadi’, renown as a college for its disciplinary acts, rules, regulations, is usually the No. 1 College on the list for most of the people. The first choice in a sense that parents mark it as one of the best college for their children to join, whereas, there are even some students who mark Prasadi in the top of the list to avoid. Well, whatever might be the views, opinions and talks about Prasadi in town, I am now a part of it. It’s just me attending Prasadi as the first one from my family. My sister and brother too have applied but they were not selected.

The starting days at the college were quite frightening; not only because of the environment and rules here, but also because of the thing we had heard about it. Slowly, we got accustomed to the environment here and of course, facing re-exams and punishments for reaching late to the college were way too normal for us. Apart from these, singing, talking and making fun with friends, lining up in the canteen are some wonderful memories here. Apart from all these I find myself very fortunate to have had the company of not just one friend but a bunch of special friends, who have always been with me in my ups and downs. We have shared so much of our lives, smiles and laughter, tears and sorrows. They have all become an internal part of my life. Through this, I want them all to know, indeed how special they are for me, although writing all their name is not quite feasible here.

Being students, other may find my views different form theirs but many of us will realize it after we bade goodbye to Prasadi. However, as far as I have known and experienced my days at Prasadi, I can proudly state to be a part of it. Hope to see the same dignity, discipline, perspective and standpoint of Prasadi in the upcoming years.

WAVING THE HAND OF DEPARTURE

Times and tides waits for no one. It seems just like yesterday waiting in a long line to give entrance exam and now it’s time to say goodbye to Prasadi. Sincerely, I was very happy to be the part of Nepal’s no. 1 college. Being a part of Prasadi family was another unforgettable moment of my life. How can I forget all those moments that I had in R8 and C12.

Prasadi Academy has taught me how to live with discipline and dignity. I will really miss 20 minutes break, no, actually 19. The friends and friendship that I made in these two year period will always remain in my heart. All those 50 minutes classes, teachers’ lectures and advice, late night homework, re-test, canteen samosa, all punishments and especially the last bench fun will be badly missed. Yeah, I remember picnic, all day singing and dancing, it was best picnic of my life. I’ll be missing the short hairs of Prasadi and the dialogue of URT sir “Uhuu timro kapal vaena, patakai vaena, ali choto parera auea”. Similarly the two years of time spent together with Lomush, Kuldip, Bibeek, Saket, Uzwal, Pratik, Panish, and many others was simply awesome and memorable. Now, if we talk about our unexpected bag checking, nail checking, hair checking, coaching class, re-test and etc. of course they won’t trouble us anymore. How can anyone forget all those funny and ever inspiring dialogues of teachers?

Phanindra sir: “Education must bring change in human behavior”
Pankaj sir: (his acting and expressions were simply awesome) AD ma’am: come on everyone, “Tyo Partik lai her na”.
RKS sir: “Haina, Haina” after telling every correct sentence.
RKN sir: In a angry mood, “Bebaahakup”.
Bhadra sir: “Heey, ko halla gari raha tya bich maa”.

At last I am proud to say “Prasadi is the place where care is culture” and I am proud to be a Prasadian.” Thank you Prasadi, friends and all teachers.
CREATIVE ACTIVITY

PRECIOUS JOURNEY TO DEPARTURE

Ashar 27... yes! it was Ashar 27 when I stepped inside Prasadi Academy for the first time with great enthusiasm for being a Prasadian. I always had a glimpse of college life during my school days. I was most curiously waiting the day when I would start my college life. And the day finally arrived. It was in Prasadi Academy. I can play a HD video of my first day in my mind where I am standing in front of the black gate of Prasadi feeling nervous, excited and blessed at the same time. I entered Prasadi with new hopes and aspirations. I thought that college life would offer me a free life, here restriction would be few, threat of teacher would be less but I was wrong though.

Starting with the phase of entering inside Prasadi ... I was all alone. I knew nobody. As a Prasadian I became friend with was Alysha Shah whom I met in front of notice board. Coincidently, we were in same class and it was R12. I entered the class as if I was entering a new world where I felt like I knew nobody. The days passed and I came close with more friends. The teachers were amazing. I must say really amazing. R12 students can know the real meaning of my word ‘amazing’. Rama ma’am’s lecture for studying hard, Binod sir’s ‘that is’ in every sentence while explaining, Tripathi sir’s laughter, Yagya sir’s pause while saying something, Somnath sir’s ‘Sakki tah gayo’ and Pankaj Jha sir’s every style of teaching, his jokes and the most his word ‘jhumritataiya’ are the most memorable part of teachers’ in R12. We also had a group (Jesika...hehe), Sunita, Alysha, Alisha, Bikey, Asmi and Keeka. How can I forget Suprabha (my benchmate) who is a bit childish but innocent. I will miss R12 a lot.

With the passage of time with loads of homework, class 11 was over. Then there was a beginning to class 12. Rumors all around that close friends in class 11 would be
Two years of journey passed like a blink of eyes. I’ve got so much memories that I’m not getting words to express. What can I say? I am very sensitive to leave anything which is close to me. There are tears in my eyes. Prasadi gave me a platform to show my talent. It helped me to mature, to be responsible, to be independent and many more. I admire Prasadi Academy. Prasadi Academy and the memories which it gifted me will always remain in core of my heart. It’s never gonna fade.

I love Prasadi and I am proud to be a Prasadian.

Jesika Mainali
XII Mgmt. C7
I still vividly remember the day I walked inside Prasadi with mind full of doubts and heart full of insecurities questioning myself, “am I in the right place?” I walked into my class, saw my classmates and sat down without speaking much. Everything was so new and unusual. Gradually, I came to know the system of this institution. I made few good friends, to be very honest, I was a mediocre student back in school, not much into studies but I was always involved in extra-curricular activities. In class 11, we were suppressed by the heavy syllabus without any extracurricular activities. But now I have realized that extracurricular activities weren’t really necessary in class 11 because when we were devoting our full time to studies, still we weren’t able to cope up with the entire course.

I remember giving my first term exams which went quite average but I was fearful that I would fail in Physics because I hadn’t attempted few numericals. So, the result day, I told my mother that for the first time in life I was going to face but that was okay because this was class 11 not class 10. But then I came 4th in the top ten list and I received a merit card for scoring the highest in English. My happiness had no limits because I wasn’t even slightly expecting it. This result was a huge encouragement factor for me. It compelled me to believe ‘yes! I can also do!’ after this there was no looking back, slowly and steadily I started working harder. Unfortunately, I didn’t secure any position in other terminal exams. My teachers were so disappointed but they were motivating me on the other hand. I made a particular routine to study daily for my board exams. My board exams went well.

Within a short break of time, our class 12 started. Senior year wasn’t that burdensome because all the basic concepts were inherited from class 11. This year I wanted to do well from the very start. I kept my course and my homework up to date. I also had to come in the top ten list in the very first term so that I could prove everyone that I was still there in the competition. But my first term didn’t go very well. I don’t know what happened. But then, came 9th. This gave me more joy than being 4th in class 11, like seriously. Class 12
was quite smooth. I know exactly how to study and what to do. Then before sent up exams our chief sir gave us the golden opportunity to go to Thailand. I was so excited about this trip with my best friend, Samiksha. Walking in street of Pattaya to observe night life, swimming in beach, paragliding, visiting grand palace, Emerald Buddha, going to safari world and watching humorous shows, dining with our chief sir and my friends, shopping and late night fun at the hotel, this indeed was a memorable trip. This trip wasn’t only entertaining but it also taught me how we make international flights and how we interact with foreigners in their land. After this beautiful trip there was our sent up result. I again scored 9th position. Then within the same week our HSEB results of class 11 was out. Not only I did come out with flying colours but to my surprise I also topped the college. This was my moment. This proved that sooner or later our hard work always gets rewarded, so we should never stop trying. I received so much appreciation from my friends and my dear teachers. I proved what I had to whenever I went I could hear my juniors say, “Ahh! Tehi gori didi ho kya topper! Kasto dammi hai”. The best feeling ever was seeing the twinkle in the eyes of my juniors for myself. I also got 100% scholarship. I saw my name painted in the black board of toppers of Prasadi. This was so honorable. I will always give my best to line up to this title. Then we had our class picnic. Picnic was a crazy one. All of us danced too much that our legs ached for 3 days. Now I know why we have a holiday after the picnic. Class 12 finished in a blink of an eye.

I just have one word to summarize my entire journey of Prasadi and that’s ‘wow!’ I have now realized that I made a correct decision to join this college. Prasadi Academy pushed me beyond what I thought my potentials were it provided me a sound environment and gave me proper guidance. It was a journey re-discharging myself. I thank my friends who were there with me through my thick and thins, my teachers for believing in me and supporting me. I thank our chief sir for his constant encouragement and the entire Prasadi management. I promise to line up to the true spirit of being a Prasadian. Foreswear!!!

Anamika Sharma Paudel  
XII Science B7
I firmly believe that life is not an accident, but every life has a purpose. If you do not believe, take an example of your admission in Prasadi; among the many you were selected, because the purpose of your life is to be an oblation (Prasadi); a rare honor and privilege.

God created us to be a contented person. Often we think that happiness and contentment are synonyms, but they’re not. One can be very happy and not contented. However, a contented person will be a very happy person. Happiness is a state of considerable pleasure and cheer. The happy person is often gleeful, light and even euphoric. However, happiness may come and go. Contentment is different. It is a feeling of peace with one’s self and one’s life, an ease of mind and satisfaction with one’s state of being. There is a constant calmness to the contented person’s soul. Happiness might manifest itself when one buys something new, enabling the buyer to sense fulfillment and joy. The contented person may realize that they are fine with what they have and that just being and feeling nature’s energy is fulfilling enough. When a mother buys a new dress for herself she feels happy, but when she buys a new dress for her child she feels contented. Living for oneself makes us happy, but living for others makes us contented. In dying to self and living for others we meet the purpose of our life.

You may have seen every morning, two groups of people running on the road. The first group of people runs to flatten their bulging stomach and the second group of people runs to get hired even for the menial work so that they could get their own and their children’s flattened stomach a little bulged. Likewise one group of people takes antacid to get relief from gastric caused by over eating and the other group of people takes antacid to get relief from gastric caused by hunger. If we could think of the second group of people and try to bridge this gap we will truly live the purpose of our life and be contented persons.

One of the most important purposes of our life is to leave our footprints. Innumerable people have walked this earth, but only few have left their footprints and today many of us are trying to tread on their footprints. Remember when you walk on the smooth surface your footprints are not seen, but when you walk on the muddy road you leave your footprints. Therefore, walk the muddy road, take the road others have not taken and leave your footprints.

Finally, words written and spoken have the power to change – to turn strangers into friends, enemies into partners and ignorant into wise. May the stories, essays and poems in PRASADI SOUVENIR 2072 bring in us attitudinal change and live the purpose of our life to the fullest.

him focusing on the higher secondary education system of Nepal and his personal life. The interview in detail is presented below:

How is your tenure as a member secretary of HESB going on at present?

I have been associated with HSEB since the time of its inception. I have been making all possible efforts to bring positive changes in higher secondary level education as per the need of time and situation of the country.

Could you elaborate your role in the reforming Higher Secondary Education Board for good?

As I told you before, I have been making all possible efforts to bring positive changes in HSEB and I am still working on it. Moreover, there was neither any particular evaluation system of 10+2 level education nor it was given any legal status. But in 2055 B.S., we succeeded in institutionalize the significant changes HSEB with introduction of necessary rules. It clarified fundamentals of higher-secondary-level education, procedure to give HSEB affiliation, conducts of higher secondary schools, facility of laboratory higher secondary schools and overall educational environment of higher secondary schools.

Similarly, I played substantial role in forming appropriate examination system for higher secondary level education as directed by law as a director of administration then. There was no provision of supplementary examination if a student fails or remains absent in two subjects until 2056 B.S., which was started so that students could pursue higher education without losing an academic year. When I joined HSEB, there were only seventy-one higher secondary schools; however, there are more than four thousand higher secondary schools in Nepal. I believe the establishment of HSEB has obviously succeeded in uplifting national economy changing the trend going abroad for after-school education, especially to India. Similarly, it made positive impact not only in terms of academic development but also in decreasing brain drain from Nepal. And it is my pride that I am being associated with all the positive changes that we are able to make in higher-secondary-level education in Nepal. Likewise, I take full responsibility for any shortcoming or lacking in bringing about changes if there are any as a part of the team.

Do you have any further plans for curriculum developments?

Yes, it is my pleasure to announce that we are executing revised and updated curriculum from 2073 B.S. We have already completed working with curriculums of physics, chemistry, biology, economics and other six subjects. The curriculums of other 20 subjects are in the process of revision. Actually, it is the need of time and we are just making pace with it.

It’s said that there are lots of shortcomings in examination system. Do you have to tell anything on it?

We have made lots of changes in its system from the last year. The examinees can see their answer-sheets in presence
of a subject expert associated with HSEB and a subject teacher if they are dissatisfied with result. The board has been working continuously to make examination respectable, effective, efficient and timely.

The board has been admired this year for its effective management of examination on time despite the massive earthquakes in Nepal; however it has been criticized for delayed result every year. What do you say?

Definitely, the Higher Secondary Education Board has proved its caliber by conducting examination on time despite the unprecedented trauma caused by earthquakes; otherwise there was a chance that students could have lost an academic year. The decision of HSEB to conduct examination to be started on 20th Jestha, schedule which was published a month before, encouraged the people to start their life as normal as possible once again. It also encouraged Tribhuvan University, Public Service Commission and CTEVT to continue with their examinations as scheduled.

I agree that we could not publish the result on time for due to some technical reason for which we are very sorry but at the same time it should not be forgotten that we managed to publicize the result within Shrawan though the exam was delayed by a month. We are well informed of delayed result of grade 11 last year. It was delayed because of the supplementary exam. We were very cautious that the delay should not cause students to lose their academic year.

Timely publication of result according to academic calendar raises the general acceptability of examination and trustworthiness. Don’t you think so?

Yes, it is the duty of HSEB to publish the result of grade eleven and twelve on time. As I mentioned before, we assure everyone concerned that we will publish the result on time. On the other hand, many raise questions on HSEB examination because of students’ success rate. The main reason behind the problem is that many academic institutions are not being able to provide the SLC graduates with proper guidance. Yes, some institutions like Prasadi Academy have successfully been doing so but majority of them have not. The new SLC graduates waste half of their academic year in grade eleven celebrating their success in SLC instead of focusing on study; hence, they end up with poor result but the blame is passed to HSEB, which is very unfair.

You said that a large number of students in grade XI fail, how can it be improved?

First the student must be very sincere in study from the very beginning of the academic session. They should divide the time between study and entertainment wisely. But unfortunately, students are not aware of it and it is our misfortune that academic institutions as well show less concern on these factors in the very beginning. Furthermore, another reason behind the failure of students is that students are not being able move along with the courses designed for higher secondary education. It is a bit tough as well as it was actually equivalent to three-year course but compressed to two years considering the cost and time of the students. So majority of students fail in grade eleven as they treat higher-secondary education and secondary-level education alike. Hence, the change of mindset is a must in order to have better result in grade 11.

It’s said that Nepali education is not standardized to international acceptability. What do you say about it?

The Higher Secondary Education in Nepal is as standard as the education of any other country in the world. Our higher-secondary graduates are pursuing further education in renowned universities of the world with excellent performance in developed countries at present. The students should not have even a faint doubt on our curriculum because it is
equivalent to the world-standard courses. Our model is based on the Indian model and the Indian model is based on the British model. Therefore, it is the world model. The world best doctors, engineers, pharmacists, CA and many other are the production of this model.

A number of educated youths are unemployed despite their academic qualification, especially on non-technical subjects. Why does our nation provide such useless education?

First, we have to understand that education is not for employment. Education is a source of knowledge that teaches us to handle our difficulties. It makes a person capable, conscious and reasonable and helps develop positivity. Moreover, educated people should try to be a job creator rather than a job seeker. We have seen in our society that with the same education some are leading their field but some are lagging far behind. So it is not exactly the fault of education provided rather it is the product of individual differences.

But the students from technical education seem to be more successful than other field. Don’t you agree?

I do not think so. A person having technical education may find job soon. But it does not mean other people with non-technical education cannot find job. We are facing the problem of joblessness because we all want a good job in Kathmandu valley. We do not want to work in Mugu and Humla but happy to stay unemployed in Kathmandu complaining and ill-commenting on education system.

Do you consider yourself a successful person?

The idea of measuring success and failure is so peculiar that it cannot be generalized. It depends on how a person takes it. It is difficult to measure it with a measuring rod. But to tell you the fact, I am satisfied with my achievement in the journey of life. It really offers me great satisfaction. I am thankful to the nation that she found me worthy to serve her. She gave me an opportunity to utilize my knowledge and capability by giving me responsibilities for which I am really grateful.

What was your main turning point of your life?

Truly speaking, there was no turning point in my life. I knew how to lead my life. I was being able to manage my priorities from the time of my college. In fact we need to move according to our priorities in order to be successful or achieve something in our life. We must make pace with time. You see, I forget home while in the office and the office while in the home. This is the way I am, giving cent percent and success came along.

How do you see the trend of coming to Kathmandu for higher education after SLC?

Coming Kathmandu for Higher Secondary Education is a fashion. It is in fact a very unhealthy practice as it centralizes people in one place. There are several good higher secondary schools in Biratnagar, Dharan, Chitwan, Butwal, Dang, Pokhara, Nepalgunja and many other places. The guardians think that their children will have better education if they send their children to Kathmandu which is wrong belief. But I believe that the guardians gradually understand the fact and the trend of coming to Kathmandu will decrease which in fact has already begun.

How did you make conducive educational environment for your children?

I give all the credit to my wife. She even gave up her job in the UN to guide children academically, socially and morally. My wife played an important role for guiding our son and daughter to be good citizen and managing family properly. To lead the offspring to proper path, parents have to keep them away from bad environment. They must give enough time, love and affection to their children keeping their self interest aside. We monitored our children and helped them when they needed and provided our guidance and support when they were confused. Generally, teenagers do not share their feelings with their parents. But if the parents befriend their teenaged offspring, the case will be something very different.
How have you been managing your time for family despite very busy schedule?

It is a quite difficult task. I have been member secretary for 11 months now. I have plenty of work at office. However, as I mentioned earlier about my habit of prioritizing, I am being able to manage time for my family. It even gives a kind of refreshment as I get opportunity to release my work stress. I feel very happy that I have been able to give justice to both family and job.

Would your offspring to stay in Nepal or go abroad?

Of course, I would encourage my children to be in my native land. Since they got international standard education here in the country; I don’t see any reasons going abroad either for education or employment opportunity. They will be much happier and satisfied in their own native land and actually they really are.

How do you spend your leisure?

I always spend my leisure on study. When I have free time, I start writing or reading books. Usually, I watch news but I also enjoy watching soap operas on television with my wife.

Is entertainment necessary for students?

Of course, it is an essential for students as well. How can one live without some refreshment. But everything has a limitation. The students must divide their time wisely among rest, entertainment and study in order to be successful.

Do you like watching movie?

Yes, I love it. I used to watch film with my friends when during my student life. Nowadays, I watch with my family members.

Could you tell us something about your student life?

I was an average student. We were five in our group. We were known by gang of five at Shankerdev and Minbhawan college. We were known to our teachers as well. Even if you ask about us to our teachers, I am sure they will tell you about us. We are successful in our field at present as well. One of my friends was honored with Aisharya Bidhya padak. At present, one of the friends is a vice chancellor of a university in USA and another serving as a CEO of Sipradi Trading. Similarly, out of remaining two, one is a chartered accountant and the other is a chief secretary of the Nepal government. We knew that knowledge was the foundation to our success. We did play pranks too while in college but we never disrespectful to teachers and their teachings.

Could you tell us about a day your life?

I usually get up at five in the morning. I go for morning walk and sometimes enjoy evening walk too. I usually go to the Pasupathinath. I find peace and tranquility there. I do some physiotherapy exercises to get relief from my back pain. After returning home from the walk, I read newspaper and meet people. Then I go to office. After returning from office, I love reading books and Indian newspapers. I usually watch news on TV. Currently, I am reading ‘Karodaun Kasturi.’ I keep myself updated in social media like Facebook as well.

Do you like present generation?

I do. They are good, capable and positive. Youths of this generation are concerned only about own job and don’t poke their nose on others’ business. They are neither interested in public affair not in politics which is not very good for the country. But the people of this generation are really focused in their area of interest. I wish I were born in this generation.

You are a gifted speaker. Where did you learn the skill?

I am surprised to hear that. I didn’t even know I speak well. I always speak like this. I worked as a spokesperson of HSEB for 13 years. I think it is my inborn talent but the skill can be sharpened with continuous practice and perseverance.

What is life?

Life is not a subject to be discussed. Life is just for living. Life is series of various experiences. We
should simply do our work without any expectation and the life takes its course.

**Could you share memorable days of your life?**

I don't have any memorable days as such in my life. It has been smooth without many ups and downs. I have never learnt to be ambitious. If you live your life with equanimity, every day would be memorable. I did not see life differently because there was no shortage of basic need in my life. I worked here as a joint secretary for 13 years and have been working as a member secretary for a year. I have been serving the organization to the best of my capacity. If I was not member secretary, I would have resigned and lived a retired life with my family and would be equally happy.

**Do you have any idol?**

Yes, B.P. Koirala. We can rarely find such an honest, sociable, dutiful and excellent person. He was multitalented and progressive man. I was very impressed by his life. I have listened to his speeches. I got chance to know him from my childhood. I attended his political training in Farbisgunj, Bihar, India while I used to carry food for my uncle. I was student of class nine then. After I listened to his speech, I was totally spellbound.

**Would you share your hobby?**

I love travelling with my family. Even though, I got marriage 31 years ago, I enjoy being with wife all the time. We sometimes go on driving after meals. I like listening old songs of sixties and seventies shutting down air conditioner but keeping the windows open to let fresh air come inside.

**Who is your best author?**

My best author is Bisweshowr Pd. Koirala. I also read Tolstoy. His short stories are touching. Maxim Gorky is one of my favorite writers. I have been reading his book from my youth till date. ‘Tales of Italy’ by Maxim Gorky is one of the best books I have ever read. When you read book, it broadens our mind. It helps us to understand societies. I like some of the Indian writers like Amrit, Pritam, Premchanda, Khrishanchandra, etc. I used to read detective stories and novels during my teenage years.

**What is your view about modern gadgets?**

They are part of modern life rather than time-pass. I have two smart phones and a laptop. Still I am not fully informed and dexterous about the services they provide but I am well aware that my life would be very difficult without them.

**love all the books he wrote. B.P. Koirala is an ideal leader, author, philosopher and nationalist who will continue to inspire me to deliver my services to the nation in any adverse conditions without any complaint. He really is a leader of my heart.**

**Do you remember any tragic moment of your life?**

Death of my mother was the most sorrowful moment in my life. My mother died when I was just 22. Now, I am in the second half of life and yet, I cannot forget her. Much later, my father passed away which also was a shock to me. He was also my idol. He had a high social status. People called him the father of justice. I do not miss my father much but I really do miss my mother till date. Parents cannot be with their offspring forever. It is a universal fact and we all know it; so we should never hurt them when they are with us.

**Would you like to convey any special message to the students of Prasadi Academy?**

Prasadi Academy has been awarded for the academic excellence for last several years and it is known as one of the best educational organization in Nepal. I am well aware of the fact that the students of Prasadi Academy have performed wonderfully in various fields and served the nation. The students of Prasadi proved their potentiality in various fields. I really want Prasadians to do something to bring positive changes in Nepalese society. One should never fall prey to bad influence of others. First one has to be confident whether ones work will be beneficial to others or not. If yes, forget what people say, then move forward and make a difference. Good luck!

Memories:
Most unforgettable moment in Prasadi Academy is bag checking. Each & every time spent with friends especially Sairam, Soni, Bipin & Manisha

Siksha in Grade 12 are the key part of my College life. Which being Prasadi in picne are some of the memories which will remain always.

Message: There should be no boundary to human efforts. We all are different human and life is made of these differences. More than is life there is more.

Memories:
<String>

Message: hung out for late submission of homework but always missed that returning fear. Enjoying your time without studying really made me able to escape in college life. Now making me feel what was and how I do. As above all remember the enchanting & teaching classes of all the teachers. I was taught by people & message: doing all homework on time & being among the prudent everyday can make you feel that you're a good student.

Name: Pushpa Mandal
Grade: XI

Code: 6062
Email: pushpamandalais@gmail.com

Memories:
Each & every moment from the beginning in the last day, it felt as if I'm in academy itself & I'm education & all led me to a great achievement. The most memorable moment was the picnic & the better dance & event. All I learnt from this academy & never leave the hope to be a great person. I love Prasadi & proud to be Prasadi. The best teacher of Prasadi: Sunita, Bipin, Sairam. Everyone are idol for me.

Message: love yourself & family forever.
**Name:** Ali Shepa  
**Grade:** XII

**Memories:** My whole journey in Prasadi will be in my memory, the clay of picnic is the moment to cherish for my whole life.  

**Message:** Guys, always keep in mind that the best way to predict your future is to create it!  
---  

**Name:** Krishna R.K.C. (A62)  
**Grade:** VIII  
**Sec:** B/Y  
**Code:** 0659  
**Email:** krishnara94@gmail.com  

**Memories:** Every second that becomes my past is a memory that we will remember again. After few days, this final is going to become a memory. In this final, guys, the classroom, the teachers will put them in the list of my good memories. And those experiences in life will become the richness of Prasadi. It will be one of the most memorable days in my life!  

**Message:** Think positively. Always keep a smile in your face. Prasadi will be the one to remember!

**Memories:** New stop, new city, new home, playing hockey, seeing places around, and having a snack... all in class. The day of redy... hop (2) to my house & getting a call from mom and overplaining. Also getting scolding by teacher and being scolded by the title of “The most talkative student” by R.K.C. are the memories I’d cherish forever.  

**Message:** Never fear shadows. They simply mean the light shining somewhere nearby.

Memories: Prasadi has given me many
many cherished memories. Talking
to Monica Sarker about music,
movies & movies. Grade XII Picnic
Lunch. Pure laughter.
The most cherished memory has to be
the Grade XII Picnic. The rain, the
memory. The memories made memories. It’s a hit in
this tiny place & paper.
Message: Always prepare anything
beforehand. Jobs are not to
be an extraordinery ending. So, go
ahead.

Grade: XII, Mgmt, Sec: C13, Code: 6087
Email: mee_anita_18@yahoo.com
Memory: Each and everyday
Spent with friends in Prasadi
Academy.
Message: Happiness doesn't come
to you at once. You should
search it where you are.
Name: Smita Maharjan  
Grade: XII  
Section: C13  
Code: 6113  
Memories:  
Not a single moment spent in this institute is not memorable. I admit, these two years in Prasadi Academy were the best years and were experienced too. Formal warm friendship, teachers' heart-touching lectures, those cracking jokes coupled with unstopable laughter, unexpected bag checkings, and many more will always be stored in my memories.  
Message:  
You have to take the start, keep that in mind.

Name: Nishad Maharjan  
Grade: XII  
Section: C13  
Fac: Night  
Code: 5773  
Email: Nishad.Mahrjan@gmail.com  
Memories:  
The first day, when I thought I would make new friends, the first result C38 marks, first time being in top ten, the teachers, doing homework, friends, I can't hardwork.  
Message:  
Take your own decision, don't regret it and don't blame others.

Name: Ripesh Maharjan  
Class: XII Night  
Sec: C12  
Code: 6298  
Email: Ripeshs17@gmail.com  
Memories:  
All these fun and happy moments spent with friends, unending goodbyes, singing in the class room & all the knowledge gained from here.  
Message:  
Respect the teacher and enjoy 2 year & work hard.  
Signature: Ripesh

Name: Sanjeev Maharjan  
Grade: XII  
Section: C13

Prasadi Teachers Team
Seventeen years of glory has elapsed since the establishment of Prasadi Academy and it has become able to make the trademark of excellence in education. The incessant effort of teachers and staff has driven this institution to achieve its goal by inculcating the students, which is the demand and desire of parents, society and nation. While meeting the degree of excellence, different hurdles are sure to occur, but this year it occurred differently which did not leave Prasadi alone. We happened to meet irreparable loss of our student named Bikey Shrestha and some important structures as well as documents. In very short period of time, we had to recover the losses which were urgent. We did not lose our resilience and got dedicated to our duty and responsibility of providing students with quality education without any care and anxiety. To boost the confidence of students and parents/guardians, we constructed zero floor class rooms and commenced classes without any delay.

Now, I am glad to come with the voices of students in the ‘Souvenir 2072’ by overcoming the nightmarish moments caused by the natural calamity i.e. 25 April Earthquake. This souvenir has become a platform which encompasses the literary as well as ingenious creations. Students are the storehouse of knowledge and imagination which are rarely emanated in academic performance and remain silent. Which is why, this annually published souvenir has helped students discern their potential.

We are here as Prasadians because of team work in which there’s the pivotal support of parents/guardians too. So I would like to thank all who are the part and parcel of the success of Prasadi Academy.

God Bless Prasadians!

Bikram Rai
Chief
